Socialist System:

The Socialist System János Kornai, 2021-04-13 To understand the dramatic collapse of the socialist order and the current turmoil in the formerly communist world this comprehensive work examines the most important common properties of all socialist societies János Kornai brings a life long study of the problems of the socialist system to his explanation of why inherent attributes of socialism inevitably produced inefficiency In his past work he has focused on the economic sphere maintaining consistently that the weak economic performance of socialist countries resulted from the system itself not from the personalities of top leaders or mistakes made by leading organizations and planners This book synthesizes themes from his earlier investigations while broadening the discussion to include the role of the political power structure and of communist ideology Kornai distinguishes between two types or historical phases of socialism The classical socialism of Stalin Mao and their followers is totalitarian and brutally repressive but its components fit together and make up a coherent edifice Associated with names like Tito Khrushchev Deng Xiaoping and Gorbachev reform socialism relaxes repression but brings about a sharpening of inner contradictions and the eventual dissolution of the system Kornai examines the classical system in the first half of the book and moves on to explore the complex process of reform in the second half The Socialist System is addressed to economists in the first place but also to political scientists sociologists and historians In addition it will appeal to policymakers business analysts and government officials who need to understand either formerly or presently communist countries

Comparative Socialist Systems Carmelo Mesa-Lago, Carl Beck, 2010-11-23 The editors have merged work from two disciplines economics and political science in a summary conclusion a sociologist suggests possible extensions in the comparison of socialist systems for the future contributes generously to the field *Slavic Review*

Socialism and Governance Henry Wang, 2003 Probing the relationship between socialism and governance the author offers a new perspective for understanding Chinese politics since 1949 China's politics can be roughly divided into two periods the Maoist period 1949-1978 and the Dengist Period since 1978 characterized as Revolutionary China and Reformatory China These two periods are better understood when they are compared with each other For to study an epoch we need a logic that transcends that epoch A comparative approach is very helpful in uncovering the deeper meaning of Chinese revolution and Chinese reforms Using the key concept two worlds of life Experiencing World and Meaning World the author argues that there is a sharp discrepancy between the two worlds of life in all the self claimed socialist countries Although the Meaning World is socialist the Experiencing World cannot be adequately understood as being socialist Socialism has become an ideational veil which masks the true nature of the Experiencing World After the socialist revolution the chain of the concept of socialism awaits the proletariat Only through *Entborgenheit* can we understand the true nature of the Experiencing World of all socialist states It is argued that the concept real socialism is still misleading for such a socialism is still unreal that the concept state socialism is no more than a confusing concept and needs also to be rejected for there is not such a thing as

state socialism in our experiencing world We had neither real socialism nor state socialism we had only statism in our experiencing world The Maoist Chiina was a schizophrenic case of socialism due to the inherent conflict between statism in the Experiencing World and socialism in the Meaning World All the Communist states created a Janus faced creature with one face being statism and the other face being socialism This is caused by the pathology of treating statization of means of production as socialization of means of production Dengist China initiated a de statization process but this process is not socialization either

Socialist States in the World-System Christopher Chase-Dunn,1982-12 What is the role of socialist states in the capitalist world economy How do the dynamics of capitalism distort and limit national economic planning as an instrument of socialism Answers to such questions based on the world system perspective are propounded and attacked in original essays Histories of particular states including the Soviet Union Vietnam Jamaica and Eastern Europe are also examined

The Intercollegiate Socialist ,1915

The Philosophy and Economics of Market Socialism N. Scott Arnold,1994-08-18 N Scott Arnold argues that the most defensible version of a market socialist economic system would be unable to realize widely held socialist ideals and values In particular it would be responsible for widespread and systematic exploitation The charge of exploitation which is really a charge of injustice has typically been made against capitalist systems by socialists This book argues that it is market socialism the only remaining viable form of socialism that is systematically exploitative

Socialism with a Human Face Gary B. Magee,Wayne Geerling,2022-03-31 East Germany s economic history is typically told as a story of the unravelling of an inherently flawed system Yet while the system s inefficiency is undeniable its economic history was much richer than its comparatively poor economic performance suggests For many who lived there it was a system that over its forty years was capable of achievements and generally functioned at bearable levels This book combines the insights of behavioural economics with archival research to peel away layers of rhetoric and assumptions about the East German economy and explore aspects of that underlying functionality Through a series of cases studies that examine the establishment of socialist workplaces the searches for productivity growth and efficiency and the emergence of financial crisis the book considers the system from the perspective of the humans who operated it and made the decisions that made it work Unencumbered by political preconceptions it offers a more realistic understanding of East German economic history than that derived from stagnant debates about the clash of systems The new perspectives and approaches presented demonstrate that extracted from its Cold War context East Germany s economic history can be analysed for what it was rather than for what it symbolised

Systems of Innovation Charles Edquist,2013-01-11 The systems of innovation approach is considered by many to be a useful analytical approach for better understanding innovation processes as well as the production and distribution of knowledge in the economy It is an appropriate framework for the empirical study of innovations in their contexts and is relevant for policy makers This text is the result of the work within an international interdisciplinary network or working seminar with the task of building a more solid and sophisticated conceptual and theoretical

foundation for the continued study of innovations in a systemic context The book has three parts The first presents an overview and tries to work out some conceptual problems In the second the systems of innovation approach is related to innovation theory Part three is devoted to increasing understanding of the functioning and dynamics of systems of innovation There is also an introduction where the genesis and anatomy of different systems of innovation approaches are discussed and where the systems of innovation approach is characterized in nine dimensions

Chinese Path to Modernization Jun Yin, 2024-03-12 This book exploratively reviews and refines the theoretical system of economics with Chinese characteristics and the analytical framework of Chinese path to modernization This book aims to reveal answers to the three questions what has the theoretical system of economics with Chinese characteristics inherited and developed What are the experiences and lessons of all countries modernization in the world What is the universality and particularity of Chinese Path to Modernization As conclusion the author draws a clue to understand Chinese path to modernization which is neither making up for the lessons nor a convergence but an innovation built upon the general principles of modernization Its universality lies in the overall patterns and trends of modernization that is the consistent process of the country's pursuit of national economic growth and people's prosperity The distinctiveness of this path lies in the concurrent transformation of Chinese economic system and the institutional innovations with Chinese characteristics that unfold throughout this ongoing economic process

Political Systems of East Asia Louis D. Hayes, 2012-02-27 Louis D Hayes provides an innovative interdisciplinary introduction to East Asian politics It uses a thematic approach to trace the political historical development of China Korea and Japan and analyze the social cultural political and economic features of each country The book describes the ways in which a shared Confucian tradition and particular historical experiences of imperialism and war have affected each country's internal dynamics responses to the outside world and distinctive political developmental trajectory especially since World War II While the book is structured to facilitate comparisons it avoids the limitations of most comparative politics texts by focusing less on Western conceptions of state and governance and more on East Asian perspectives of the universe and how it operates Even the considerations of contemporary policy issues in each country are cast in a wider framework that gives the discussion enduring value

Socialism with Chinese Characteristics Roland Boer, 2021-04-27 This book covers the whole system of Socialism with Chinese Characteristics dealing with Deng Xiaoping's theory the socialist market economy a moderately well off Xiaokang society China's practice and theory of socialist democracy human rights and Xi Jinping's Marxism In short the resolute focus is the Reform and Opening Up Socialism with Chinese Characteristics is one of the most important global realities today However the concept and its practice remain largely misunderstood outside China This book sets to redress such a lack of knowledge by making available to non Chinese speakers the sophisticated debates and conclusions in China concerning socialism with Chinese Characteristics It presents this material in a way that is both accessible and thorough

Capitalism versus Pragmatic Market Socialism James A. Yunker, 2012-12-06 Capitalism

versus Pragmatic Market Socialism A General Equilibrium Evaluation contains important contributions both to general economic theory and to the evaluation of potential market socialist economic systems As a contribution to economic theory the general equilibrium model utilized in the research introduces the concept of capital management effort as a third primary factor of production in addition to labor and saving provided by private households Capital management effort represents such things as corporate supervision investment analysis entrepreneurship and related activity by the household which is intended to increase the rate of return on its capital wealth As a contribution to the evaluation of market socialism this research sheds powerful illumination on the potential performance of a specific variant of market socialism known as pragmatic market socialism Pragmatic market socialism is a plan of market socialism designed to work almost exactly like contemporary capitalism The key differences would be the enforcement of a profit incentive on the publicly owned corporations by an agency designated the Bureau of Public Ownership and the distribution of the preponderance of capital property return produced by the publicly owned corporations as a social dividend supplement to the household s wage and salary income The analysis reported in this book shows precisely under what conditions pragmatic market socialism would perform better than capitalism and under what conditions the opposite would be true The fundamental implication forthcoming from the research is that the potential performance of pragmatic market socialism relative to capitalism is an empirical rather than a theoretical question

Chinese Rule of Law Path and Cultivation of Foreign-Related Rule of Law Talents Xiaobo Dong,Jie Guo,2024-04-09 This book systematically explores the historical development connotation characteristics and cultural resources of Chinese rule of law path based on the combination theory and practice It also comprehensively reveals the overall objectives and promotion models of Chinese rule of law path theoretically expounds the people oriented nature of Chinese Thought on the Rule of Law and the global initiatives of Chinese rule of law path and proposes the important guarantee of realizing the global initiatives of Chinese rule of law path the cultivation of foreign related rule of law talents From this book readers not only scholars and experts specialized in relevant fields but also layman interested in legal life of modern China can truly grasp the rich connotation of the socialist rule of law with Chinese characteristics in the new era and have a refreshing understanding of contemporary legal culture of China Institutions in Transition Lisa Román,1998-12-31 The ongoing transformation of centrally planned societies into market economies poses many difficult questions regarding large scale institutional reform How far to go how fast and in which order Financial intermediation is one sector in which the gap between socialism and capitalism is particularly large and the development of commercial banking has often proved to be a bottleneck in the reform process Institutions in Transition explores the development of the Vietnamese state banks focusing on the situation in the early 1990s It highlights the lengthy process of altering the formal and informal rules governing the bank organizations The prevailing socialist ideology implies that state ownership remains enabling the government to intervene in banks operations The ideology s informal role is arguably even

more important because it leaves unclear how bankers should act when profit maximization conflicts with social responsibility In the period of transition formal and informal rules are unclear Uncertainty prevails as long as bankers and banking authorities have only partially converted to a new set of norms Accordingly the formal financial sector fails to flourish

Comparing Post-Socialist Media Systems Zrinjka Peruško,Dina Vozab,Antonija Čuvalo,2020-10-04 This book explains divergent media system trajectories in the countries in southeast Europe and challenges the presumption that the common socialist experience critically influences a common outcome in media development after democratic transformations by showing different remote and proximate configuration of conditions that influence their contemporary shape Applying an innovative longitudinal set theoretical methodological approach the book contributes to the theory of media systems with a novel theoretical framework for the comparative analysis of post socialist media systems This theory builds on the theory of historical institutionalism and the notion of critical junctures and path dependency in searching for an explanation for similarities or differences among media systems in the Eastern European region Extending the understanding of media systems beyond a political journalism focus this book is a valuable contribution to the literature on comparative media systems in the areas of media systems studies political science Southeast and Central European studies post socialist studies and communication studies

Understanding Communism vs. Socialism Suma Pothuvaal,2025-01-03 Understanding Communism vs Socialism clears up the complex concepts of communism and socialism through engaging chapters and exercises We discuss the history of various countries in a story format to enhance your understanding By comparing different ideologies and economic structures we aim to provide a crystal clear understanding of communism and socialism We highlight the roles of key proponents like Karl Marx Friedrich Engels Lenin and Stalin Our book includes graphs statistical data and relevant figures to keep you connected to the topic It explains how transitions from one ideology or system to another occur highlighting their advantages and disadvantages This book offers a balanced view of both concepts presenting various alternatives and leaving it up to you to decide which ideology is best We make the differences between the two ideologies clear through multiple perspectives The exercises are interesting and research oriented helping you understand how politics and history before and after the world wars were influenced by these ideologies Written in simple and easy to understand language this book includes useful appendices and is designed to enhance your understanding with engaging and informative content

Rule Of Law In China: Progress And Problems Lin Li,2020-04-28 This book comprehensively introduces the development of rule of law and law based governance in China Through theoretical interpretation background analysis and empirical analysis of several key issues this book answers why and how China promotes its rule of law and how the country identifies major challenges of promoting rule of law It also looks at how China solves its problems in the process of practicing socialist rule of law

The Construction of Value Philosophy in Contemporary China Deshun Li,2025-03-11 This book approaches humanism in the new era in China by discussing the nature of value philosophy and by analyzing in

depth the significance of value research for China's modernization and future development. The author expounds his own point of view on the value of human beings as the foundation of value philosophy and subsequently applies it to understanding conflicting values between China and the West, universal values, etc. In addition, he discusses the cultural value concept in China, e.g., the craze for traditional Chinese culture, value choices in socialism with Chinese characteristics, and Deng Xiaoping's great practice. Combining the fields of academic study, political affairs, cultural communication, and social life, the book offers a valuable resource for scholars, researchers, politicians, diplomats, university students, and those who want to study and understand value philosophy, Chinese value research, and Chinese culture. In addition, it seeks to realize the value of human beings in culture. Lastly, its discussions on the value concept can facilitate understanding and respect among people all over the world.

Contextual Dictionary of Chinese Cultural Knowledge, 2025-09-23. This dictionary contains nearly 1500 entries and constitutes a core of essential knowledge on Chinese culture in a systematized and modernized form. It offers a professional yet highly readable introduction to Chinese culture for a global academic audience. Organized by subject and keyword, the book is divided into six sections: philosophy and ideology, social governance, literature and history, art and aesthetics, humanities and geography, and artefacts and technology. It contains both core knowledge and diversified information while covering both historical and contemporary aspects. The target audience chiefly includes general readers of Chinese culture as well as sinologists and translators of Chinese books. The dictionary provides the latest information on the full range of Chinese knowledge, an accurate interpretation of Chinese culture, a logically arranged and accessible reference framework, and a panoramic experience across the breadth of the subject. It enables readers to grasp the patterns of Chinese culture and its knowledge systems while also gaining a deeper understanding of contemporary Chinese life.

[The ^AChina Reader](#), David Shambaugh, 2016-03-29. The rise of China is the most important development in world affairs. During the past three decades, China dramatically modernized its economy and taken a position as one of the two major powers in the world. For all of its newfound prowess, China's rise has not been a smooth process. The China Reader chronicles and catalogues these complexities.
