Conflicted Health Care Ester Carolina Apesoa-Varano, Charles S. Varano, 2014-09-19 Anyone who has spent time in a hospital as a patient or family member of a patient hopes that those who attend to us or our loved ones are at their professional best and that they care for us in ways that console us and preserve our dignity This book takes an intimate look at how health care practitioners struggle to live up to their professional and caring ideals through or during twelve hour shifts on the hospital floor From 3 200 hours of participant observation and 500 hours of follow up interviews with twenty one doctors thirty registered nurses twenty one respiratory therapists twenty medical social workers and eighteen occupational physical and speech therapists the authors create a complex picture of the workplace conflicts that different types of health care practitioners face Though all these groups espouse caring ideals professional interests and a curative orientation dominate in patient care and interoccupational relations Because emotive caring is not supported by the organization of health care in the hospital it becomes an individual virtue that overworked staff find hard to perform and it takes on an ideological form that obscures the status hierarchy among practitioners Conflicts between practitioners rest upon the ranking of each group's knowledge base They manifest in efforts to work as a team or set limits on practitioner responsibilities and in differing views on unionization

Kozier, Glenora Lea Erb, 1988 **What Causes Men's Violence Against Women?** Michele Harway, James M. O'Neil, 1999-09-09 Carefully organized and tightly edited this insightful book considers potential causes of men's violence against women utilizing a variety of theoretical perspectives. It summarizes what is known about the multiple causes of men's violence against women and the importance of identifying men's risk factors in order to prevent future violence. The editors' approach is unique but systematic. In chapter 2 the editors present a preliminary multivariate model that explains men's violence against women by identifying four content areas: macrosocietal, biological, gender role socialization, and relation factors. Within these four areas the editors develop thirteen preliminary hypotheses about the causes of men's violence against women. In the subsequent chapters the contributing authors critique or react to specific parts of the multivariate model and address one or more of the 13 hypotheses in the presentation of their own ideas about the causes of men's violence against women. In the concluding chapter the editors summarize the contributors' reactions to the original hypotheses by creating a revised multivariate model of risk factors for men's violence against women. The final model includes biological, socialization, psychological, psychosocial, relational, and macrosocietal factors. Furthermore, the model is explained through 13 theoretical propositions, 40 research hypotheses, and over 60 risk variables related to men's violence against women. The book closes with a discussion of men's protective resiliency and vulnerability factors, as well as future directions for theory development, advocacy, and the prevention of violence against women.

Themes that run throughout the volumes include sexual health and reproduction, sexual identity and orientation, sexual behaviors and expression, the history of sex and sexology, and sex and society. Entries cover a breadth of subjects such as the major contributors to the field of sexology, the biological, psychological, and cultural dimensions of sex and sexuality, and how the modern-day political climate and the government play a major role in determining attitudes and beliefs about sex. Written in clear, jargon-free language, this set is ideal for students as well as general readers.

[Current Issues in Nursing](#) Helen K. Grace, 1990 **On the Job** Heather Akou, 2024-02-22 Through a variety of archival documents, artefacts, illustrations, and references to primary and secondary literature, *On the Job* explores the changing styles, business practices, and lived experiences of the people who make, sell, and wear service industry uniforms in the United States. It highlights how the uniform business is distinct from the fashion business, including how manufacturing developed outside of the typical fashion hubs such as New York City, and gives attention to the ways that

various types of employers small business corporate government and others differ in their ambitions and regulations surrounding uniforms On the Job sheds new light on an understudied yet important field of dress and clothing within everyday life and is an essential addition to any fashion historian's library appealing to all those interested in material culture the service industry heritage and history **Taking Sexism Out of Education** National Project on Women in Education, 1978 *Officer, Nurse, Woman* Kara Dixon Vuic, 2010-01-01 Winner 2010 Lavinia L Dock Award American Association for the History of Nursing An American Journal of Nursing Book of the Year in History and Public Policy I never got a chance to be a girl Kate O Hare Palmer lamented thirty four years after her tour as an army nurse in Vietnam Although proud of having served she felt that the war she never understood had robbed her of her innocence and forced her to grow up too quickly As depicted in a photograph taken late in her tour long hours in the operating room exhausted her both physically and mentally Her tired eyes and gaunt face reflected the weariness she felt after treating countless patients some dying some maimed all like her forever changed Still she learned to work harder and faster than she thought she could to trust her nursing skills and to live independently She developed a way to balance the dangers and benefits of being a woman in the army and in the war Only fourteen months long her tour in Vietnam profoundly affected her life and her beliefs Such vivid personal accounts abound in historian Kara Dixon Vuic's compelling look at the experiences of army nurses in the Vietnam War Drawing on more than 100 interviews Vuic allows the nurses to tell their own captivating stories from their reasons for joining the military to the physical and emotional demands of a horrific war and postwar debates about how to commemorate their service Vuic also explores the gender issues that arose when a male dominated army actively recruited and employed the services of 5 000 nurses in the midst of a growing feminist movement and a changing nursing profession Women drawn to the army's patriotic promise faced disturbing realities in the virtually all male hospitals of South Vietnam Men who joined the nurse corps ran headlong into the army's belief that women should nurse and men should fight Officer Nurse Woman brings to light the nearly forgotten contributions of brave nurses who risked their lives to bring medical care to soldiers during a terrible and divisive war **American Education**, 1976 *Feminism and 'The Schooling Scandal'* Christine Skelton, Becky Francis, 2009-01-13 Brings together feminist contributions from two generations of educational researchers to provide a comprehensive overview of contemporary research and theory emerging from second wave feminism and assesses their impact on pupils and teachers in today's schools and classrooms *Nursing, Physician Control, and the Medical Monopoly* Thetis M. Group, Joan I. Roberts, 2001-10-03 Nursing Physician Control and the Medical Monopoly Historical Perspectives on Gendered Inequality in Roles Rights and Range of Practice Thetis M Group and Joan I Roberts A history of physicians efforts to dominate the healthcare system Nursing Physician Control and the Medical Monopoly traces the efforts by physicians over time to achieve a monopoly in healthcare often by subordinating nurses their only genuine competitors Attempts by nurses to reform many aspects of healthcare have been repeatedly opposed by physicians whose

primary interest has been to achieve total control of the healthcare system often to the detriment of patients health and safety Thetis M Group and Joan I Roberts first review the activities of early women healers and nurses and examine nurse physician relations from the early 1900s on The sexist domination of nursing by medicine was neither haphazard nor accidental but a structured and institutionalized phenomenon Efforts by nurses to achieve greater autonomy were often blocked by hospital administrators and organized medicine The consolidation of the medical monopoly during the 1920s and 1930s along with the waning of feminism led to the concretization of stereotyped gender roles in nursing and medicine The growing unease in nurse physician relations escalated from the 1940s to the 1960s the growth and complexity of the healthcare industry expanding scientific knowledge and increasing specialization by physicians all created heavy demands on nurses Conflict between organized medicine and nursing entered a public open phase in the late 1960s and 1970s when medicine unilaterally created the physician s assistant countered by nursing s development of the advanced nurse practitioner But gender stereotypes remained central to nurse physician relations in the 1980s and into the 1990s Finally Group and Roberts examine the results of the medical monopoly from the impact on patients health and safety to the development of HMOs and the current overpriced poorly coordinated and fragmented healthcare system Thetis M Group is Professor Emerita at Syracuse University where she was Dean of the College of Nursing for 10 years and an adjunct faculty member at the University of Utah College of Nursing She is co author of Feminism and Nursing and has published numerous articles in professional nursing journals Joan I Roberts social psychologist is Professor Emerita at Syracuse University A pioneer in women s studies in higher education she is co author of Feminism and Nursing and author of numerous books and articles on gender issues and racial and sex discrimination June 2001 352 pages 6 1 8 x 9 1 4 index append cloth 0 253 33926 X 29 95 s 22 95 **Congressional Record** United States.
