Language, Identity,

and Marginality in Indonesia Joel C. Kuipers,1998-09-10 Indonesia's policy since independence has been to foster the national language In some regions local languages are still political rallying points but their significance has diminished and the rapid spread of Indonesian as the national language of political and religious authority has been described as the miracle of the developing world Among the Weyewa on the island of Sumba this shift has displaced a once vibrant tradition of ritual poetic speech which until recently was an important source of authority tradition and identity But it has also given rise to new and hybrid forms of poetic expression This first study to analyse language change in relation to political marginality argues that political coercion or cognitive process of style reduction may partially explain what has happened but equally important in language shift is the role of linguistic ideologies *The Social and Psychological Contexts of Language* R. N. St. Clair, H. Giles, 2013-05-13 Published in the year 1982 *The Social and Psychological Contexts of Language* is a valuable contribution to the field of Social Psychology **Meaning, Discourse and Society** Wolfgang Teubert, 2010-03-25 *Meaning Discourse and Society* investigates the construction of reality within discourse When people talk about things such as language the mind globalisation or weeds they are less discussing the outside world than objects they have created collaboratively by talking about them Wolfgang Teubert shows that meaning cannot be found in mental concepts or neural activity as implied by the cognitive sciences He argues instead that meaning is negotiated and knowledge is created by symbolic interaction thus taking language as a social rather than a mental phenomenon Discourses Teubert contends can be viewed as collective minds enabling the members of discourse communities to make sense of themselves and of the world around them By taking an active stance in constructing the reality they share people thus can take part in moulding the world in accordance with their perceived needs *Cognitive Linguistics in the Redwoods* Eugene H. Casad, 2011-07-11 No detailed description available for *Cognitive Linguistics in the Redwoods* **Biblical Hebrew in Transition** Mark F.
