Socioeconomic Determinants of Regional Mortality Differences in Europe Jeroen Johannes Anthonius Spijker, 2004 The objective of this thesis is to assess the importance of socioeconomic and other factors on mortality differences across Europe over time and between regions to determine which factors should be incorporated into future mortality scenarios When possible

Regional Mortality Differences in Germany Eva U.B. Kibele, 2012-10-02 Regional mortality differences are one dimension of health inequalities but its trends and determinants in Germany are widely unknown This book examines and illustrates patterns of regional mortality in Germany with focus on small area differentials and their changes over time It identifies explanatory factors at individual and regional level Mortality differences between eastern and western Germany exist but small area mortality differentials are often greater Though the main spatial mortality patterns remain this study provides evidence that some distinct changes in the small area mortality patterns in Germany especially among women occurred within a short period of time Mortality inequalities at younger ages and in behavior related causes as well as differences in socioeconomic conditions contribute strongly to regional mortality differences in Germany The book shows that the complex interplay between individual and regional level mortality risk factors requires a multidimensional approach to reduce regional mortality inequalities
