Languages and Multilingualism in European History Matthias Hüning, Ulrike Vogl, Olivier Moliner, 2012-05-31 This volume explores the roots of Europe's struggle with multilingualism It argues that over the centuries the pursuit of linguistic homogeneity has become a central aspect of the mindset of Europeans In its extreme form it became manifest in the principle

of one language one state one people Consequently multilingualism came to be viewed as an undesirable aberration The authors of this volume approach the relationship between standard languages and multilingualism from a historical cross European perspective They provide a comprehensive overview of the emergence of a standard language ideology and its intricate relationship with matters of ethnicity territorial unity and social mobility They explain for different European language areas in what ways the emergence of standard languages had an impact on multilingual policies and practices Its comparative approach makes this volume an important resource for linguists researchers from different philologies and social historians

The Dutch Language in Britain (1550-1702) Christopher Joby, 2015-01-27 In *The Dutch Language in Britain 1550-1702* Christopher Joby offers an account of the knowledge and use of Dutch in early modern Britain. Using extensive archive material from Britain and the Low Countries, Chris Joby demonstrates that Dutch was both written and spoken in a range of social domains including the church, work, learning, the home, diplomacy, the military, and the navy, and the court. Those who used the language included artisans and their families fleeing religious and economic turmoil on the continent, the Anglo-Dutch King William III, and Englishmen such as the scientist Robert Hooke. Choosing a Mother Tongue Corinne A. Seals, 2019-10-11 This book presents a sociocultural linguistic analysis of discourses of conflict as well as an examination of how linguistic identity is embodied, negotiated, and realized during a time of war. It provides new insights regarding multilingualism among Ukrainians in Ukraine and in the diaspora of New Zealand, the US, and Canada, and sheds light on the impact of the Russian-Ukrainian war on language attitudes among Ukrainians around the world. Crucially, it features an analysis of a new movement in Ukraine that developed during the course of the war: changing your mother tongue, which embodies what it is to renegotiate linguistic identity. It will be of value to researchers, faculty, and students in the areas of linguistics, Slavic studies, history, politics, anthropology, sociology, and international affairs, as well as those interested in Ukrainian affairs more generally.
