Sociology And Development The Impasse And Beyond:

Sociology and Development Ray Kiely, 1995 First published in 1995 Routledge is an imprint of Taylor Francis an informal company

The Sociology Of Development Ray Kiely, 2014-04-04 First published in 1995 Since its establishment as a separate discipline within the social sciences in the post war world development sociology has undergone a number of theoretical transformations each of which attempted to overcome the inadequacies of the previous paradigm and a matter of academic debate but many writers agree that the discipline has reached something of an impasse This book is concerned with explaining the reasons for the impasse and suggesting ways of moving beyond it Its focus is on Marxist and related theories of development and underdevelopment since these have dominated the field for the past 20 or so years

Beyond the Impasse Frans J Schuurman, 1993 Development theory in the past decade has met with increasingly heavy criticism Dependency theories as well as modes of production and world system approaches have come to be considered as internally inconsistent and inadequate for explaining the increasing diversity and unevenness of the Third World This book confronts the theoretical impasse which many feel has been reached Development scholars from various disciplines review recent changes in research priorities procedures and orientations and detect the emergence of new and diverse lines of theoretical development in the field In particular they deal with the important meta theoretical political cultural and ethical questions that have come to the fore

Industrialization and Development Ray Kiely, 2023-05-09 An introductory development studies text which puts industrialization into theoretical context examines the forms it has taken and considers economically efficient and socially responsible alternatives

Beyond the Impasse Frans J Schuurman, 1994 Development theory in the past decade has met with increasingly heavy criticism Dependency theories as well as modes of production and world system approaches have come to be considered as internally inconsistent and inadequate for explaining the increasing diversity and unevenness of the Third World This book confronts the theoretical impasse which many feel has been reached Development scholars from various disciplines review recent changes in research priorities procedures and orientations and detect the emergence of new and diverse lines of theoretical development in the field In particular they deal with the important meta theoretical political cultural and ethical questions that have come to the fore

Beyond Liberation Theology Ivan Petrella, 2013-01-03 Liberation theologies are the most important theological movement of our time In the 20th century their influence shook the Third and First Worlds grass root organizations and the affluent Western academy as well as the lives of priests and laypeople persecuted and murdered for living out their understanding of the Christian message In the 21st C their insights and goals remain unfortunately as valid as ever

Syed Hussein Alatas and Critical Social Theory, 2022-11-21 Known for his most famous works such as *The Myth of the Lazy Native* 1977 and *The Problem of Corruption* 1986 as well as his concept of the captive mind Syed Hussein Alatas 1928 2007 has made significant contributions to decolonization theory social theory and other forms of thought critical of the current neo colonial and neoliberal world

Although Edward Said acknowledged his debt to Syed Hussein Alatas work especially its influence on Edward W Said s most famous book *Orientalism* Syed Hussein Alatas work has long been overlooked by Western academia trapped in its Eurocentric perspective Spurred by the commitment to continue the development of Syed Hussein Alatas work this edited volume attempts to demonstrate the relevance of Syed Hussein Alatas to numerous academic fields and the potential for his thought to be transformative in the international socio political realm Twenty authors from various disciplines and countries have contributed to Syed Hussein Alatas and Critical Social Theory Decolonizing the Captive Mind in the hopes of bringing his work to the forefront of social and political theory Contributors are Mona Abaza Joseph Alagha Masturah Alatas Sharifah Munirah Alatas Syed Farid Alatas Syed Imad Alatas Hira Amin Dustin J Byrd Zawawi Ibrahim N Jayaram Teo Lee Ken Habibul Haque Khondker Victor T King Jo o Marcelo E Maia Seyed Javad Miri Carimo Mohomed Chandra Muzaffar Norshahril Saat Mostafa Soueid and Esmaeil Zeiny *Bridging the Gap* Bert Ayers,2015-10-25 Take a look at a critical transition in Albania s history *Bridging the Gap* provides a glimpse into the country and provides a statistical analysis of two villages **New Socialisms** Robert Albritton,Shannon Bell,Richard Westra,2004-07-31 As neo liberal globalization pushes us further toward global inequality poverty war and militarism diverse movements are arising to voice their concerns These movements have in common a lack of credible alternatives and this book is a contribution to a more positive debate *The Routledge Handbook of Religions and Global Development* Emma Tomalin,2015-02-11 This Handbook provides a cutting edge survey of the state of research on religions and global development Part one highlights critical debates that have emerged within research on religions and development particularly with respect to theoretical conceptual and methodological considerations from the perspective of development studies and its associated disciplines Parts two to six look at different regional and national development contexts and the place of religion within these These parts integrate and examine the critical debates raised in part one within empirical case studies from a range of religions and regions Different religions are situated within actual locations and case studies thus allowing a detailed and contextual understanding of their relationships to development to emerge Part seven examines the links between some important areas within development policy and practice where religion is now being considered including Faith Based Organisations and Development Public Health Religion and Development Human rights Religion and Development Sustainable Development Climate Change and Religion Global Institutions and Religious Engagement in Development Economic Development and Religion Religion Development and Fragile States Development and Faith Based Education Taking a global approach the Handbook covers Africa Latin America South Asia East and South East Asia and the Middle East It is essential reading for students and researchers in development studies and religious studies and is highly relevant to those working in area studies as well as a range of disciplines from theology anthropology and economics to geography international relations politics and sociology The Elgar Companion to Development Studies David Clark,2006 If handbooks can be inspiring this is it Like a true companion it

takes in its stride conversations both big and small Its entries do not just present an international and multidisciplinary mix but true to life they work on several different scales And importantly the book makes its authority evident For it is like an extended website but with all the added advantages of an encyclopaedia that actually tells you about the authors and the sources on which they have drawn The resulting compilation is highly intelligent thoughtful and above all usable Dame Marilyn Strathern University of Cambridge UK The Elgar Companion to Development Studies is a major production in the development studies field authored by a star studded cast of contributors With 136 entries covering a vast range of topics it should quickly establish itself as a leading work of reference We should all feel indebted to David Clark who has successfully brought this substantial publishing project to completion John Toye University of Oxford UK This is a most comprehensive handbook on development studies It brings together a wide varied array of carefully crafted summaries of 136 key topics in development by an international cast of well respected academics and other experts in respective areas of study The handbook is heavily interdisciplinary organically combining economic political historical social cultural institutional ethical and human aspects of development While the wide range of entries might appear as a simple glossary listing or an encyclopedic collection each of the 136 entries offers more depth and discussion than the average handbook Viewed in this light this companion is highly likely to become known as a leading reference work on the topic Highly recommended Ismael Hossein Zadeh Choice The Elgar Companion to Development Studies is an innovative and unique reference book that includes original contributions covering development economics as well as development studies broadly defined This major new Companion brings together an international panel of experts from varying backgrounds who discuss theoretical ethical and practical issues relating to economic social cultural institutional political and human aspects of development in poor countries It also includes a selection of intellectual biographies of leading development thinkers While the Companion is organised along the lines of an encyclopaedia each of its 136 entries provide more depth and discussion than the average reference book Its entries are also extremely diverse they draw on different social science disciplines incorporate various mixes of theoretical and applied work embrace a variety of methodologies and represent different views of the world The Elgar Companion to Development Studies will therefore appeal to students scholars researchers policymakers and practitioners in the field of development as well as the interested layman *Tourism and Development* Richard Sharpley, David J. Telfer, 2015 This book explores the relationship between tourism and development and establishes a conceptual link between the interconnected disciplines of tourism studies and development studies This new edition includes updated chapters drawing on contemporary knowledge as well as 5 new chapters that consider emergent themes in tourism and development Karl Marx's Economics John Cunningham Wood, 1993 **The Companion to Development Studies, 2nd Edition** Vandana Desai, Robert B Potter, 2013-01-22 The Companion to Development Studies is an essential one stop reference for anyone with an interest in development studies Over 100 international experts have been brought together to

present a comprehensive overview of the key theoretical and practical issues dominating contemporary development studies Building on the success of the first edition the second edition of the Companion has been thoroughly revised and updated and includes new chapters on a range of topics including ageing culture and development corruption and development and global terrorism Each chapter summarises current debates and provides guidance for further reading and research The Companion to Development Studies is indispensable for students of development studies at all levels from undergraduate to postgraduate and beyond in departments of development studies geography politics international relations sociology social anthropology and economics

The Politics of Destination in the 2030 Sustainable Development Goals Clive Gabay, Suzan Ilcan, 2018-08-13 This book represents an unusual intervention in debates about the nature of contemporary international development where the majority of scholarship tends to concern itself with measuring or collating goal performance Through a series of analyses of the United Nations Sustainable Development Goals this book explores development as a political construct and is concerned with the kinds of epistemological hegemonic or politico economic assumptions built into contemporary development policy and the ensuing effectiveness the SDGs will have in terms of addressing or perpetuating the historical impoverishment of large groups of people living in poverty The contributors to the book take issue with many of the assumptions upon which SDGs rest while also broadening the conversation to pay attention to knowledge production modernity colonialism exclusion citizenship and other conceptual insights In this context the book raises questions about the discourses and practices of the SDGs especially in relation to how they can define the limits of what can be said and what can be done shape development logics through notions of division and forms of exclusion construct political problems as technical problems create certain spaces of imagination as a field of activity and endorse particular ideas and forms of knowledge in models for sustainable development This book was originally published as a special issue of *Globalizations*

The Global Development Crisis Benjamin Selwyn, 2014-02-07 The central paradox of the contemporary world is the simultaneous presence of wealth on an unprecedented scale and mass poverty Liberal theory explains the relationship between capitalism and poverty as one based around the dichotomy of inclusion into capitalism vs exclusion from capitalism Within this discourse the global capitalist system is portrayed as a sphere of economic dynamism and as a source of developmental opportunities for less developed countries and their populations Development policy should therefore seek to integrate the poor into the global capitalist system The Global Development Crisis challenges this way of thinking Through an interrogation of some of the most important political economists of the last two centuries Friedrich List Karl Marx Leon Trotsky Joseph Schumpeter Alexander Gerschenkron Karl Polanyi and Amarta Sen Selwyn argues that class relations are the central cause of poverty and inequality within and between countries In contrast to much development thinking which portrays the poor as reliant upon benign assistance this book advocates the concept of labour centred development Here the poor are the global labouring classes and their own collective actions and struggles constitute the basis of an alternative

The Future of Liberation Theology Ivan Petrella,2017-03-02

The Future of Liberation Theology envisions a radical new direction for Latin American liberation theology One of a new generation of Latin American theologians Ivan Petrella shows that despite the current dominance of end of history ideology liberation theologians need not abandon their belief that the theological rereading of Christianity must be linked to the development of historical projects models of political and economic organization that would replace an unjust status quo In the absence of historical projects liberation theology currently finds itself unable to move beyond merely talking about liberation toward actually enacting it in society Providing a bold new interpretation of the current state and potential future of liberation theology Ivan Petrella brings together original research on the movement with developments in political theory critical legal theory and political economy to reconstruct liberation theology s understanding of theology democracy and capitalism The result is the recovery of historical projects thus allowing liberation theologians to once again place the reality of liberation and not just the promise at the forefront of their task
