Soul And Intellect Studies In Plotinus And Later Neoplatonism Variorum Collected Studies:

Soul and Intellect H.J. Blumenthal, 2024-12-11 This book presents a series of Dr Blumenthal's studies on the history of Neoplatonism from its founder Plotinus to the end of Classical Antiquity relating especially to the Neoplatonists' doctrines about the soul. The work falls into two parts. The first deals with Plotinus and considers the soul both as part of the structure of the universe and in its capacity as the basis of the individual's vital and cognitive functions. The second part is concerned with the later history of Neoplatonism including its end. Its main focus is the investigation of how Neoplatonic psychology was modified and developed by later philosophers in particular the commentators on Aristotle and used as the starting point for their Platonizing interpretations of his philosophy.

Plotinus, Porphyry and Iamblichus Andrew Smith, 2024-10-28 This selection of twenty-five essays by Andrew Smith is devoted to Neoplatonism and especially to Plotinus and Porphyry. It deals with Plotinus' development of the Platonic Forms and includes a lengthy assessment of Porphyry's contribution to the Platonic tradition. The themes also embrace a number of issues that have become particularly prominent in the more recent growth of interest in these philosophers of late antiquity. For example, the importance of practical ethical activity is examined particularly in the case of Plotinus and it is argued from several perspectives that a theoretical basis for reconciling the life of contemplation with that of everyday living may be found in his metaphysics. This also involves his speculations on time and eternity as well as his observations about human consciousness. A closer examination of the role of religion, magic and myth in the life of the philosopher reveals a much richer and more nuanced appreciation of their importance than has been accorded them by an earlier generation of scholars. In particular, the contribution of Iamblichus is recognised as a profound attempt to account for divine activity in the world and the first attempt to propose a solution to the problems involved in presenting metaphysics of religious ritual.

From the Old Academy to Later Neo-Platonism Harold Tarrant, 2024-10-28 This volume collects a set of papers on ancient Platonism that span the nine centuries between Plato himself and his commentator Olympiodorus in the 6th century, many of them less easy to obtain. Much of the work is at the intersection of philosophy and literature and a recurrent aim is to challenge existing orthodoxies and to suggest alternatives. Two further related aims are to encourage the rereading of Plato in the light of the later tradition and the tradition in the light of influential passages of Plato. The articles are grouped here in three sections dealing first with Socrates, Plato and the Old Academy, then with the Platonic revival and the 2nd century AD and finally with later Neoplatonism.

Neoplatonism and Indian Philosophy Paulos Gregorios, 2002-01-01 Explores connections between Neoplatonism and Indian philosophy.

Body and Gender, Soul and Reason in Late Antiquity Gillian Clark, 2023-04-14 What does it mean to say that a human being is body and soul and how does each affect the other? Late antique philosophers, Christians included, asked these central questions. The papers collected here explore their answers and use those answers to ask further questions, reading Iamblichus, Porphyry, Augustine and others in their social and intellectual context. Among the topics dealt with are the following: Humans are mortal, rational

beings so how does the mortal body affect the rational soul The body needs food what foods are best for the soul and is it right to eat animal foods if animals are less rational than humans The body is gendered for reproduction are reason and the soul also gendered Ascetic lifestyles may free our bodies from the limitations of gender and desire so that our souls are free to reconnect with the divine but this need must be balanced with the claims of family and society Philosophers asked whether life in the body is exile for the soul Christians defended their claim that body as well as soul would live after death and even the smallest fragment of a martyr's body is proof of resurrection Plotinus on Eternity and Time (Ennead III.7) Kit Tempest-Walters, 2024-03-04 Plotinus Ennead III 7 is a treatise concerning the journey of the human soul first descending into time and then reclaiming its original identity in eternity The treatise also conceives eternity as the key which grants access to the forms and time as the portal through which the soul enters the physical universe Plotinus supports his analysis by drawing upon a rich philosophical tradition including the thought of Plato Aristotle the Stoics Epicureans Peripatetics and Pythagoreans This book contains an extensive introduction alongside the Oxford Classical Text of III 7 a translation and a line by line commentary to guide the reader through the text *PLOTINUS Ennead IV.3-4.29* John Blumenthal H.J. Dillon, 2015-03-18 For Plotinus the nature and status of the human soul is one of the central problems of philosophy Ennead IV 3 4 29 constitutes his most penetrating enquiry into this topic addressing the issues of the relation of the individual soul to the World Soul the descent of the soul into body its relations with that body problems of personal identity and the nature of memory sense perception and the true seat of the emotions many of which still have a resonance today The treatise is an excellent example of Plotinus distinctive method of enquiry not dogmatic though he is no sceptic but worrying away at questions until he has uncovered their complexities to the best of his ability Such a work requires detailed commentary such as is provided here to tease out fully the fascinating convolutions of his thought *Perception, Conscience and Will in Ancient Philosophy* Richard Sorabji, 2024-10-28 This book is about the human mind in ancient philosophy with a focus on sense perception a subject that Richard Sorabji has previously treated more in articles than in books But it finishes with chapters offering a distinctive view on moral conscience and will Sense perception raises the further questions of the mind body relation of self awareness of infinite divisibility and the continuum of the capacities of animals and children and of the relation between perception and reason On all topics the introduction interconnects the papers and presents fresh material to fill out the picture For the topic that has proved most popular the physiological process in sense perception a bibliography is provided as well as the latest update The introduction interconnects the papers and fills out the picture by reference to other writings and to further thoughts On the final topic the will it takes account of a different view that appeared only when the book was in preparation The picture of the main topics shows that each continued to develop into a richer and richer account throughout the 1200 year course of Ancient Greek Philosophy up to 600 CE **Synopsis: An Annual Index of Greek Studies, 1993, 3** Andrew D. Métaphysique d'Ibn Gabirol et de la tradition platonicienne Fernand Brunner, 2024-10-28 Early in his career Fernand Brunner became one of the few specialists on Ibn Gabirol a Jewish philosopher and poet in 11th century Spain whose treatise the Fons vitae is known only in Latin translation Brunner showed the coherence of this rarely studied version of Platonism and traced its impact on the scholastic philosophy of the succeeding centuries His work was guided by a systematic interest in Platonic solutions to such problems as the relations of matter and form and of God to the world This volume includes a number of previously unpublished papers several of which also provide broad expositions of a Platonic ontology The author makes his reader aware that arguments as well as images must be taken seriously in the attempt to approach the Platonic tradition

Philoponus: On Aristotle On the Soul 1.1-2 Philoponus, 2014-04-22 This text by Philoponus the sixth century commentator on Aristotle is notable for its informative introduction to psychology which tells us the views of Philoponus of his teacher and of later Neoplatonists on our psychological capacities and on mind body relations There is an unusual account of how reason can infer a universally valid conclusion from a single instance and there are inherited views on the roles of intellect and perception in concept formation and on the human ability to make reasoned decisions celebrated by Aristotle but here downgraded Philoponus attacks Galen s view that psychological capacities follow or result from bodily chemistry they merely supervene on that and can be counteracted He has benefited from Galen s knowledge of the brain and nerves but also propounds the Neoplatonist belief in tenuous bodies which after death support our irrational souls temporarily or our reason eternally

Philoponus: On Aristotle on the Soul 1.3-5 Philoponus, 2014-04-22 Until the launch of this series over fifteen years ago the 15 000 volumes of the ancient Greek commentators on Aristotle written mainly between 200 and 600 AD constituted the largest corpus of extant Greek philosophical writings not translated into English or other European languages This text by Philoponus rejects accounts of soul or as we would say of mind which define it as moving as cognitive or in physical terms Chapter 3 considers

Aristotle's attack on the idea that the soul is in motion This was an attack partly on his teacher Plato since Plato defines the soul as self moving Philoponus agrees with Aristotle's attack on the idea that a thing must be in motion in order to cause motion But he offers what may be Ammonius' interpretation of Plato's apparently physicalistic account of the soul in the *Timaeus* as symbolic What we would call the mind body relation is the subject of Chapter 4 Plato and Aristotle attacked a physicalistic theory of soul which suggested it was the blend ratio or harmonious proportion of ingredients in the body Philoponus attacked the theory too but we learn from him that Epicurus had defended it In Chapter 5 Philoponus endorses Aristotle's rejection of the idea that the soul is particles and of Empedocles' idea that the soul must be made of all four elements in order to know what is made of the same elements He also rejects with Aristotle definitions of the soul as moving or cognitive as ignoring lower forms of life He finally discusses Aristotle's rejection of Plato's localisation of parts of the soul in parts of the body but asks if new knowledge of the brain and the nerves do not require some kind of localisation

Platonism Pagan and Christian Gerard O'Daly, 2019-07-30 This title was first published in 2001 A collection of fifteen studies which explore topics in the psychology and philosophy of mind of Plotinus Augustine and Boethius as well as the development of Augustine's views on history and Roman religion *Renaissance Transformations of Late Medieval Thought* Charles Trinkaus, 2024-10-28 Charles Trinkaus can be counted among the eminent intellectual and cultural historians of the Renaissance This new collection of his articles brings together pieces published since 1982 The studies are concerned with Italian Renaissance humanists and philosophers who tended to affirm human capacities to shape earthly existence despite the traditional limitations proposed by some scholastics and astrologers Professor Trinkaus holds that without abandoning their Christian faith or their acceptance of physical influences from the cosmos these writers in their stress on human capacities were responding to the vigorous activism of their contemporaries in all aspects of their existence The final four papers also provide a series of reflections on the modern historiography of the Renaissance **Classical Traditions in Renaissance Philosophy** Jill Kraye, 2024-10-28 The impact of classical thought on Renaissance philosophy is the subject of this volume In the first part Dr Kraye deals with the interpretations of ancient philosophy put forward by various thinkers of the Italian Renaissance including the humanist Angelo Poliziano and the Platonist Marsilio Ficino in the second she examines the central role of Aristotle's *Nicomachean Ethics* within Renaissance moral philosophy and considers the influence of other classical treatises on ethics especially the *Meditations* of Marcus Aurelius The final section explores controversies concerning the authenticity of works in the Aristotelian canon together with the early printing history of Aristotle All the articles aim to locate philosophical questions within the historical and cultural context of the Renaissance and particular attention is paid to the importance of philological scholarship within philosophical debates The collection includes an essay on Philipp Melanchthon's ethical commentaries and textbooks which has previously appeared only in German translation **Two Aristotelians of the Italian Renaissance** Edward P. Mahoney, 2024-10-28 This volume deals with the psychological

metaphysical and scientific ideas of two major and influential Aristotelian philosophers of the Italian Renaissance Nicoletto Vernia d 1499 and Agostino Nifo ca 1470 1538 whose careers must be seen as inter related Both began by holding Averroes to be the true interpreter of Aristotle s thought but were influenced by the work of humanists such as Ermolao Barbaro though to a different degree Translations of the Greek commentators on Aristotle Alexander of Aphrodisias Themistius and Simplicius provided them with new material and new ways of understanding Aristotle Nifo even put himself to learning Greek and led them to abandon Averroes especially as regards his views on the soul and intellect Nevertheless both Vernia and Nifo engaged seriously with the thought of medieval scholars such as Albert the Great Thomas Aquinas and John of Jandun Both also showed interest in their celebrated contemporary Marsilio Ficino *Oriens* Roncaglia,2023-04-17 Sacred and Secular Robert A. Markus,2024-10-28 This collection brings together a set of studies on the notions of the sacred and the secular held by early Christian writers especially Augustine and Gregory the Great and on their relationships in actual practice in Late Antiquity Problems of heresy and orthodoxy in Latin Christianity especially in the context of the Pelagian controversy are discussed in this intellectual context and impact of his thought are also included **Thornton and Tully's Scientific Books, Libraries and Collectors** Andrew Hunter,2016-12-05 In the 25 years since the last edition of Thornton and Tully s Scientific Books Libraries and Collectors was published scientific publishing has mushroomed developed new forms and the academic discipline and popular appreciation of the history of science have grown apace This fourth edition discusses these changes and ponders the implications of developments in publishing at the end of the twentieth century while concentrating its gaze upon the dissemination of scientific ideas and knowledge from Antiquity to the industrial age In this shift of focus it departs from previous editions and for the first time a chapter on Islamic science is included Recurrent themes in several of the ten essays in the present volume are the definition of science itself and its transmutation by publishing media and the social context Two essays on the collecting of scientific books provide a counterpoint and the book is grounded on a rigorous chapter on bibliographies The timely publication of Scientific Books Libraries and Collectors comes at the coincidence of the advent of electronic publishing and the millennium a dramatic moment at which to take stock
