The City-State of the Soul Kevin Crotty,2016-04-29 The City State of the Soul Self Constitution in Plato s Republicexplores Plato s idea that the moral life consists in the founding of one s own soul This insight is central to the long argument of the Republic and in particular to the complex relation between the city and the human soul This fruitful picture of the moral life however has not received the attention it deserves As Kevin M Crotty argues Plato s distinctive insight is that justice is above all a creative force Plato presents justice not as a relation amongst fully formed individuals but rather as the quality that galvanizes a diverse welter of disparate parts into a coherent entity above all a soul or a city Justice then is the virtue most closely associated with being the source of its philosophical stature Plato presents a conception of justice meant to impress the young bright and ambitious as a noble pursuit and a task worthy of their best talents The City State of the Soul is written for anyone interested in the Republic including but not limited to students and scholars of ancient philosophy political philosophy ethics and ancient Greek literature

Theosophy Rudolf Steiner,1994-12 Keats stands as a prophetic precursor behind much in today s radical attempts at cultural and self transformation But this side of him has been forgotten

or at least was never taken very seriously He is remembered if at all mostly as a Romantic poet whose value and standing was magnified by his early death Eclipsed by the lushly sensuous affection of his poems the real meaning of his life and the greatness of his achievement in poetics how one makes sense out of experience has been ignored Now Andr s Rodr guez redresses the balance by granting to Keats Letters their huge intellectual and spiritual labor In these Letters one of the most inspiring spiritual documents of the West we see the poet forming and transforming a passionate life of great joys and sorrows into a self of imagination and power Book of the Heart grasps the core of Keats poetical practice of life uncovering the path of knowledge that the Letters reveal United with Keats in an imaginative union that is as moving as it is true Rodr guez presents Keats as a hero of the heart whose deep life experience oriented him in a unique way toward the world of love suffering death and creativity

The Path of the Soul After Death Peter Selg, 2010-10 We are separated from the spiritual worlds only by states of consciousness not by spatial circumstances States of consciousness are what separate us Rudolf Steiner Rudolf Steiner saw relationships with the dead as the religious attitude of the future in the highest sense Becoming comfortable with thinking and speaking of the dead as concretely as we speak of the living will profoundly affect human activity To Steiner the enlivening and even the sanctification of earthly existence are not merely connected directly with our relationship to death and to the deceased in fact that relationship deepens these qualities and makes them possible Steiner spoke frequently about death and the human soul s continued existence as well as about the importance of establishing a new kind of community that unites spiritually active human souls that endure beyond death *The Path of the Soul after Death* shows how Rudolf Steiner commemorated the dead the words he chose to use and his descriptions sometimes in great detail of the inner processes involved What becomes clear is the extent to which his connections to the deceased shaped his addresses and related to their new stage of existence Inasmuch as his words were in harmony with human soul development after death they not only recapitulated a biography but also assisted the deceased individual along the path after death We cannot understand the true depth and meaning of Steiner s words about those who have died except against the background of an anthropological study of the period immediately after death The second part

of the book therefore is a stunningly clear and detailed account of anthroposophic research into the process of dying and the soul's path after death. He tells us: "The phenomenon of death sets in like this: In the moment of death, the connection of the etheric and astral bodies to the physical bodies dissolves specifically in the heart. The heart is illuminated so to speak, and then the ether body, astral body, and I rise above the head." Rudolf Steiner described this moment of having died as the consummate event. During the individual's time away from Earth, this moment is constantly in view. It is filled with beauty, grandeur, and sunny, bright warmth related to Christ. It is essential to developing and dynamically maintaining self-awareness adapted specifically to the spiritual world. In this connection, Rudolf Steiner said: "Throughout human life, between death and a new birth, it is possible to look back on the moment of death, and therefore that moment provides our consciousness after death. We know that we have laid aside our physical body. Knowing this and having it constantly before us gives us our self-awareness after death, just as we derive self-awareness here in the physical world from actually having a physical body. When we are outside of the physical body with our astral body and I between falling asleep and waking up again, we have no consciousness of the physical world. When awakening, we must re-occupy these bodies so that I-consciousness can blossom again. After death, whenever we look back on the moment of dying, whenever that whole event, which is so grand and beautiful from the perspective of the other side, stands before our soul, consciousness is rekindled. Consciousness after death depends entirely on repeated viewing of this moment." Kassel, February 18, 1916. *The Path of the Soul after Death* is an important addition to the body of anthroposophic literature on our relationship on Earth to those who have died. Peter Selg does a great service in gathering and amplifying much of what Steiner had to say on the subject. This book is a translation from German of Rudolf Steiner's *Toten Gedenken Die Verstorbenen der Dornacher Bau und die Anthroposophische Gesellschaft*.
