Sound and Sense in the Poetry of Theodor Storm Alan B. Galt,1973 **The Sound of Poetry / The Poetry of Sound** Marjorie Perloff,Craig Dworkin,2009-10-15 Sound one of the central elements of poetry finds itself all but ignored in the current discourse on lyric forms The essays collected here by Marjorie Perloff and Craig Dworkinbreak that critical silence to readdress some of thefundamental connections between poetry and sound connections that go far beyond traditional metrical studies Ranging from medieval Latin lyrics to a cyborg opera sixteenth century France to twentieth century Brazil romantic ballads to the contemporary avant garde the contributors to *The Sound of Poetry The Poetry of Sound* explore such subjects as the translatability of lyric sound the historical and cultural roles of rhyme the role of sound repetition in novelistic prose theconnections between sound poetry and music between the visual and the auditory the role of the body in performance and the impact of recording technologies on the lyric voice Along the way the essaystake on the ensemble discords of Maurice Sc ve s D lie Ezra Pound s use of Chinese whispers the alchemical theology of Hugo Ball s Dada performances Jean Cocteau s modernist radiophonics and an intercultural account of the poetry reading as a kind of dubbing A genuinely comparatist study *The Sound of Poetry The Poetry of Sound* is designed to challenge current preconceptions about what Susan Howe has called articulations of sound forms in time as they have transformed the expanded poetic field of the twenty first century

A Bibliography of American Doctoral Dissertations in Linguistics, 1968-1974 Nancy Jokovich,Sophia Behrens,1977 **Sound and Sense in the Poetry of Theodor Storm** Alan B. Galt,1971 English Lexicogenesis D. Gary Miller,2014-02 This book investigates the processes by which novel words in English are coined adopted and adapted such as affixation compounding and clipping It looks at the interaction between word forming operations expressive morphology and language play and will appeal to all those interested in English etymology lexicography and morphology Comprehensive Dissertation Index, 1861-1972: Language and literature Xerox University Microfilms,1973 **Images of Transience in the Poems and Ballads of Friedrich Schiller** Ronald L. Crawford,1977 This study attempts to identify and analyze the images of transience in Schiller s poetic work In the early poems a major series of images of transience reveals his baroque heritage The surprising aspect of the poems which follow the historical studies and the engrossment in Kant is that the same images of transience remain The persistent images of transience make it clear that Schiller was far from being an ivory tower idealist rather he was a realist who perceived the grim visage of life *A Syntactic Analysis of Selected Middle High German Prose as a Basis for Stylistic Differentiations* Heidi Rockwood,1975 After comparing several systems for identifying and classifying subordinate clauses this study uses them to analyze the sentence structure of selected Middle High German prose texts This analysis conducted on the quantitative and qualitative levels is used as the basis for a definition of syntactic stylistic complexity Relating the data to various literary genres then shows that in the texts in question there exists a definite correlation between literary genre and complexity **The Humorous and Grotesque Elements in Döblin's Berlin**

Alexanderplatz Henrietta S. Schoonover, 1977 D blin manipulates language to set up the laughter of incongruity The paradox of linguistic anarchy both attacks and defends the world order Satire and irony expose weaknesses and faults in the world order they attack both general human frailty and the specific political failings of the Germans and the Weimar Republic Picaresque elements and the picaresque tradition mock society describe and criticize Biberkopf Grotesque incongruities developed in the dunkel motif disclose a world order hostile to man Consideration of his literary theories determine D blin s humor as a serious element which allows for both perceiving incongruities in the world order and taking delight in its grand totality
