Theory of Mind and the Triad of Perspectives on Autism and Asperger Syndrome Olga Bogdashina, 2006 Inspired by the often uncomfortable interplay between autistic individuals, parents and professionals in understanding autistic spectrum conditions Olga Bogdashina uses the concept of Theory of Mind ToM to consider these groups different and often conflicting perspectives ToM is the ability to imagine and make judgements about what others feel and think its absence in autistic individuals is called mindblindness This book addresses the mindblindness of people united in their interest in autism but divided by their different angles and perspectives Divided into four parts the book first defines autism then the views of the three main groups working with it autistic individuals, parents and professionals under the headings of classifications, diagnosis, causes, development, theories and treatment By comparing and reconciling the different perspectives in this way the book helps each group to understand and predict each other's responses and behaviours This enlightening and innovative book offers a unique way of stepping in each other's shoes and is a valuable resource for all people living or working with autism

Say Good-Bye to Allergy-Related Autism Devi S. Nambudripad, 2007-02

Child and Adolescent Psychopathology Cecilia A. Essau, 2012-11-12 How do biological and environmental factors influence the development of childhood and adolescent disorders There has been a substantial increase of interest in research into child and adolescent psychopathology In this book Cecilia Essau brings together contributions from the UK, the US and Canada to provide a comprehensive summary of the information available on the subject Beginning with an introduction to general issues related to child and adolescent psychopathology including theoretical models of normal and abnormal development each chapter goes on to address the issues associated with specific disorders such as oppositional defiant disorder and conduct disorder, attention deficit hyperactivity disorder, eating disorders, substance use disorders, somatoform disorders The contributors present a thorough overview of each disorder including discussion of definition and classification, epidemiology, risk factors, comorbidity, course, outcome and prevention Child Adolescent Psychopathology will be welcomed by all mental health professionals seeking a reliable source of scientifically and clinically relevant information on the nature and treatment of child and adolescent disorders

Medical Aspects of Disability Herbert H. Zaretsky, Edwin F. Richter, Myron G. Unmothering Autism Patty Douglas, 2005-01-15 As global rates of autism diagnosis rise dominant cultural representations continue to define autism as a tragic neurological disorder And mothers as primary caregivers and advocates are centrally implicated in the impulse to find both cause and cure How should we care about autism and autistic people Unmothering Autism emerged from Patty Douglas's desire to understand a contradiction she and her two sons one autistic experienced beauty living together while their public encounters with doctors school professionals and agencies were fraught and sometimes violent In this book Douglas offers a critical history of popular and biomedical assumptions about autism expressed through shifting social constructs that blame or valorize maternal care Throughout she also intersperses her own insights and shares conversations she has had with other autism mothers Unmothering Autism theorizes an ethics of disruption reorienting us to autism and autistic people as valuable and fundamentally human It centres the previously marginalized perspectives of mothers and autistic individuals to affirm their knowledge of living well together in and through difference

Help for the Child with Asperger's Syndrome Gretchen Mertz, 2005 Mertz presents a readable and comprehensive parent's guide to developing an intervention program for a child with AS Beginning with the search for a diagnosis she outlines an accessible overview of the helpful and appropriate services that are available how to find them and get funding for them what to expect of them and how to evaluate them

Neurodevelopmental Disorders W. Wolfgang Fleischhacker, David J. Brooks, 2006-05-31 We have great pleasure to present the latest extension of the European Institute of Health Care book series This volume is devoted to neurodevelopmental disorders Again we had the privilege to be able to work with renowned experts who have agreed to contribute to this endeavour The book comprises a number of topics related to psychosocial and motor development and is exemplary with regard to its comprehensiveness as reviews of the topics presented are generally not available in a single publication It starts with a timely and critical discussion of the genetics of attention deficit hyperactivity disorder by Dr Buitelaar in which prospects and challenges of this approach are outlined The next chapter by Drs Nicolson and Fawcett deals with dyslexia and its relationship to cerebellar function providing a framework that can explain motor speed and

phonological deficits in a unified approach Diagnostic and treatment aspects of speech development disorders are the focus of Dr Zorowka's contribution in which among other issues the necessity of multi-professional cooperation is stressed Dr Sigmundsson then focuses on disorders of motor development 6-10 % of children have motor competence well below the norm which often persists The clumsy child syndrome must be seen and treated as a neurological dysfunction The relationship between tic disorders and obsessive compulsive disorder two disturbances generally treated by different medical specialists namely neurologists or psychiatrists is then reviewed by Drs

Chasing the Intact Mind Amy S. F. Lutz, 2023-09-20 In *Chasing the Intact Mind* Amy Lutz traces the history of the intact mind concept explaining how it influences current disability policy and practice in the United States Lutz describes how we got to this moment where the severely autistic are elided out of public discourse and the intensive disability specific supports they need defunded or closed altogether Lutz argues that focusing on the intact mind and marginalizing those with severe disability reproduces historic patterns of discrimination that yoked human worth to intelligence and that it is only by making space for the impaired mind that we will be able to resolve these ongoing clashes as well as even larger questions of personhood dependency and care

A History of Autism Adam Feinstein, 2011-07-07 This unique book is the first to fully explore the history of autism from the first descriptions of autistic type behaviour to the present day Features in depth discussions with leading professionals and pioneers to provide an unprecedented insight into the historical changes in the perception of autism and approaches to it Presents carefully chosen case studies and the latest findings in the field Includes evidence from many previously unpublished documents and illustrations Interviews with parents of autistic children acknowledge the important contribution they have made to a more profound understanding of this enigmatic condition

Autism and Gender Jordynn Jack, 2014-05-15 The reasons behind the increase in autism diagnoses have become hotly contested in the media as well as within the medical scholarly and autistic communities Jordynn Jack suggests the proliferating number of discussions point to autism as a rhetorical phenomenon that engenders attempts to persuade through arguments appeals to emotions and representational strategies In *Autism and Gender* From Refrigerator Mothers to Computer Geeks Jack focuses on the ways gender influences popular

discussion and understanding of autism's causes and effects. She identifies gendered theories like the refrigerator mother theory for example which blames emotionally distant mothers for autism and the extreme male brain theory which links autism to the modes of systematic thinking found in male computer geeks. Jack's analysis reveals how people employ such highly gendered theories to craft rhetorical narratives around stock characters like the heroic mother warriors rescuing children from autism that advocate for ends beyond the story itself while also allowing the storyteller to gain authority and understand the disorder and take part in debates. *Autism and Gender* reveals the ways we build narratives around controversial topics while offering new insights into the ways rhetorical inquiry can and does contribute to conversations about gender and disability.

Becoming a Professional Parent Olga Bogdashina, 2022-05-15 The first part of the series *Becoming a Professional Parent* covers a range of sensory perceptual issues, provides ideas and tips how to help the child and will help those who live with and/or work with autistic children. The author, both a parent and a professional, uses examples from her own life and combining with research to be able to give parents the know-how and relevant knowledge when it comes to sensory issues.

Sensory Perceptual Issues in Autism and Asperger Syndrome Olga Bogdashina, 2003-01-01 This book will assist practitioners who work with autistic people to comprehend sensory perceptual differences in autism. Strategies for dealing with sensory integration dysfunction are presented in a manner that can easily be understood by practitioners and carers.

Pervasive Developmental Disorders Mitzi Waltz, 2003-01-30 If you or someone you know has been diagnosed with a pervasive developmental disorder, autism, Asperger's Syndrome, Rett Syndrome, Childhood Disintegrative Disorder, or PDD-NOS, this book is for you. In an informative style weaved with personal stories from parents, the book covers various topics including: Getting a diagnosis, including preparing for a diagnostic interview in a medical, psychiatric, or school setting; with descriptions of all diagnostic tests and checklists; questions used by professionals; Treatment options such as medications, supplements, sensory integration, occupational, physical, speech therapy, behavior modification, floor time, and more; Coping with diagnosis and treatment, including emotions and support systems, insurance, and educational plans.
