Textiles And Politics:

Fray Julia Bryan-Wilson, 2017-10-16 In 1974 women in a feminist consciousness raising group in Eugene Oregon formed a mock organization called the Ladies Sewing Circle and Terrorist Society Emblazoning its logo onto t shirts the group wryly envisioned female collective textile making as a practice that could upend conventions threaten state structures and wreak political havoc Elaborating on this example as a prehistory to the more recent phenomenon of craftivism the politics and social practices associated with handmaking *Fray* explores textiles and their role at the forefront of debates about process materiality gender and race in times of economic upheaval Closely examining how amateurs and fine artists in the United States and Chile turned to sewing braiding knotting and quilting amid the rise of global manufacturing Julia Bryan Wilson argues that textiles unravel the high low divide and urges us to think flexibly about what the politics of textiles might be Her case studies from the 1970s through the 1990s including the improvised costumes of the theater troupe the Cockettes the braided rag rugs of US artist Harmony Hammond the thread based sculptures of Chilean artist Cecilia Vicuña the small hand sewn tapestries depicting Pinochet's torture and the NAMES Project AIDS Memorial Quilt are often taken as evidence of the inherently progressive nature of handcrafted textiles *Fray* however shows that such methods are recruited to often ambivalent ends leaving textiles very much in the fray of debates about feminized labor protest cultures and queer identities the malleability of cloth and fiber means that textiles can be activated or stretched in many ideological directions The first contemporary art history book to discuss both fine art and amateur registers of handmaking at such an expansive scale *Fray* unveils crucial insights into how textiles inhabit the broad space between artistic and political poles high and low untrained and highly skilled conformist and disobedient craft and art Textiles as National Heritage: Identities, Politics and Material Culture

Gabriele Mentges, Lola Shamukhitdinova, 2017 The edited volume discusses the role of textile heritage in relation to the dynamics of nation building cultural identity politics economy and the globalization of markets It was sparked by a research project investigating the role of textiles textile design and contemporary fashion in the post Soviet societies of Central Asia and also includes perspectives on similar developments in Algeria and Peru in order to question dichotomous narrations of modernity relations between textile cultures and heritage building cultural property and the concept of cultural heritage Thus this book intends to stimulate the ongoing debate about textile culture as national heritage or as means of nation branding *The Politics of Textiles* Simon Robert Brough Leadbeater, 1993 Traces The Rise And Fall Of India S Composite Mill Sector In Textile Manufacture The Author Concludes That The Policies Linked With The Swadeshi Movement Resulted In Widespread Sickness Among Textile Mills In Bombay And Ahmedabad *Liberal Protectionism* Vinod K. Textiles and Politics Ben F. Bulla, 1992 Textiles and politics were the two major motivating forces in the life of B Everett Jordan Whether as a mill executive or a U S senator whether in Saxapahaw N C or Washington D C he had to choose between

private gain and common good easy deception and painful truth personal expediency and the public interest As a conservative and practical businessman Jordan relentlessly pared costs and stressed profit growth In this way the poor son of a Methodist minister became a multimillionaire Author Ben F Bulla traces the career of a strong and intriguing personality who made major contributions to the textile industry as well as to his state and the nation **Overshot** Susan Falls, Jessica R. Smith, 2020-03-01 Woven coverlets have appeared in several guises within the history of folk textiles Created on four harness looms coverlets made in the nineteenth century American South typically featured colored wool and cotton threads woven into striking geometric patterns Although they are not as well known as other textiles and domestic objects overshot coverlets were and continue to be significant examples of material culture that require tremendous skill and creativity to produce They also express currents of conformity and dissent In addition to being pleasing to the eye and hand overshot coverlets have advanced a variety of social and political ends At times exhibited in slave quarters along the seaboard in Georgia and South Carolina in association with plantation properties they also appear in piedmont areas attached to the antebellum yeomanry in the context of nationalist craft revivals and in white box contemporary art With *Overshot* Susan Falls and Jessica R Smith analyze what we can learn by examining the exhibition and interpretation of these materials within American public history By showing how geometric overshot coverlets can be understood in relationship to the global economy and within politicized cultural movements Falls and Smith demonstrate how these erstwhile domestic utilitarian objects explode the art craft dichotomy belong to a rich narrative of historical art forms and tell us far more about American culture today than simply representing a nostalgic past particularly with regard to ideas about race class nationalism women's labor and the separation of private versus public spaces The Politics of Textiles Simon Robert Brough Leadbeater, 1993 Traces The Rise And Fall Of India's Composite Mill Sector In Textile Manufacture The Author Concludes That The Policies Linked With The Swadeshi Movement Resulted In Widespread Sickness Among Textile Mills In Bombay And Ahmedabad
