Using AI for Dialoguing with Texts Yair Neuman,Marcel Danesi,Dan Vilenchik,2022-11-18 This concise volume offers an accessible introduction to state of the art artificial intelligence AI language models providing a platform for their use in textual interpretation across the humanities and social sciences The book outlines the affordances of new technologies for textual analysis which has historically employed established approaches within the humanities Neuman Danesi and Vilenchik argue that these different forms of analysis are indeed complementary demonstrating the ways in which AI based perspectives echo similar theoretical and methodological currents in traditional approaches while also offering new directions for research The volume showcases examples from a wide range of texts including novels television shows and films to illustrate the ways in which the latest AI technologies can be used for dialoguing with textual characters and examining textual meaning coherence Illuminating the potential of AI language models to both enhance and extend research on the interpretation of texts this book will appeal to scholars interested in cognitive approaches to the humanities in such fields as literary studies discourse analysis media studies film studies psychology and artificial intelligence

Political Discourse as Dialogue Adriana Bolívar,2017-10-16 We are witnessing the collapse of democracies in many parts of the world and a general tendency to the resurgence of right wing and left wing populisms led by authoritarian leaders This book centres on the political dialogue in one of these democracies The focus is on Venezuela the rich Latin American oil producing country and its transformation from a stable democracy to a very unstable and controversial revolution in which the dialogue has been occupied by only one party for 18 years The central characters of the book are Hugo Ch vez who remained in power for 14 years as the main speaker and controller and the people who either followed or opposed him in Venezuela and other countries Contrary to

critical analyses which are mainly based on social representations that conceive dialogue as implicit or normative this book proposes a dialogue centred approach which articulates linguistics conversation analysis socio pragmatics and political science from a critical perspective and offers the theoretical foundations and procedures for analysing micro dialogues between specific persons and the macro social dialogue which unveils the processes of domination and resistance to power The book will be useful for scholars and students of linguistics media communication studies and political science wishing to learn more about dialogue in political interaction
