Sanders, 2024-10-15 *A Forgotten Migration* tells the little known story of segregation scholarships awarded by states in the US South to Black students seeking graduate education in the pre *Brown v Board of Education* era Under the *Plessy v Ferguson* decision decades earlier southern states could provide

graduate opportunities for African Americans by creating separate but equal graduate programs at tax supported Black colleges or by admitting Black students to historically white institutions Most did neither and instead paid to send Black students out of state for graduate education Crystal R Sanders examines Black graduate students who relocated to the North Midwest and West to continue their education with segregation scholarships revealing the many challenges they faced along the way Students that entered out of state programs endured long and tedious travel financial hardship racial discrimination isolation and homesickness With the passage of Brown in 1954 segregation scholarships began to wane but the integration of graduate programs at southern public universities was slow In telling this story Sanders demonstrates how white efforts to preserve segregation led to the underfunding of public Black colleges furthering racial inequality in American higher education

The Rage of Innocence Kristin Henning, 2021-09-28 A brilliant analysis of the foundations of racist policing in America the day to day brutalities largely hidden from public view endured by Black youth growing up under constant police surveillance and the persistent threat of physical and psychological abuse Storytelling that can make people understand the racial inequities of the legal system and restore the humanity this system has cruelly stripped from its victims New York Times Book Review Drawing upon twenty five years of experience representing Black youth in Washington D C s juvenile courts Kristin Henning confronts America s irrational manufactured fears of these young people and makes a powerfully compelling case that the crisis in racist American policing begins with its relationship to Black children Henning explains how discriminatory and aggressive policing has socialized a generation of Black teenagers to fear resent and resist the police and she details the long term consequences of racism that they experience at the hands of the police and their vigilante surrogates She makes clear that unlike White youth who are afforded the freedom to test boundaries experiment with sex and drugs and figure out who they are and who they want to be Black youth are seen as a threat to White America and are denied healthy adolescent development She examines the criminalization of Black adolescent play and sexuality and of Black fashion hair and music She limns the effects of police presence in schools and the depth of police induced trauma in Black

adolescents Especially in the wake of the recent unprecedented worldwide outrage at racial injustice and inequality The Rage of Innocence is an essential book for our moment
