

THAT IS TO SAY
Heidegger's Poetics

Marc Froment-Meurice
TRANSLATED BY JAN PLUG

That Is To Say Heideggers Poetics

John T. Lysaker

That Is To Say Heideggers Poetics:

That Is to Say: Heidegger's Poetics Marc Froment-Meurice, 1998 This first book length study of what Heidegger called thinking poetics expounds the sense of language from the perspective of fundamental ontology It is based on readings of the pertinent chapters of Being and Time the lectures on Hölderlin The Origin of the Work of Art and On the Way to Language

Heidegger's Poetic Projection of Being Marius Johan Geertsema, 2018-06-06 This book investigates the relationship between poetry and ontology in the works of Martin Heidegger It explains the way in which Heidegger's dialogue with poetry forms an essential step on the path of overcoming metaphysics and thinking the openness of presence Heidegger's engagement with poetry is an important moment in the development of his philosophy or rather thinking of Being Being speaks itself poetically in his view Rather than a logician or a thinker Being is the first poet The Artist-Philosopher and Poetic Hermeneutics

George Smith, 2021-12-30 Focusing on the aesthetic representation of trauma George Smith outlines the nexus points between poetics and hermeneutics and shows how a particular kind of thinker the artist philosopher practices interpretation in an entirely different way from traditional hermeneutics Taking a transhistorical and global view Smith engages artists writers and thinkers from Western and non Western periods regions and cultures Thus we see that poetic hermeneutics reconstitutes philosophy and art as hybridizations of art and science the artist and the philosopher subject and object In turn the artist philosopher's poetic hermeneutic reconstitution of philosophy and art is meant to transform human consciousness This book will be of interest to artists and scholars working in studio practice art history aesthetics philosophy cultural studies history of ideas history of consciousness psychoanalytic studies myth studies literary studies and creative writing **Heidegger, Hölderlin, and the Subject of Poetic Language** Jennifer Anna

Gosetti-Ferencei, 2004 Gosetti Ferencei argues that Heidegger has overlooked central elements in Hölderlin's poetics such as a Kantian understanding of aesthetic subjectivity and a commitment to Enlightenment ideals These elements she argues resist the more politically distressing aspects of Heidegger's interpretations including Heidegger's nationalist valorization of the German language and sense of nationhood or Heimat The Poetic Imagination in Heidegger and Schelling Christopher Yates, 2013-08-15 The imagination is a decisive if underappreciated theme in German thought since Kant In this rigorous historical and textual analysis Christopher Yates challenges an oversight of traditional readings by presenting the first comparative study of F W J Schelling and Martin Heidegger on this theme By investigating the importance of the imagination in the thought of Schelling and Heidegger Yates study argues that Heidegger's later more poetic philosophy cannot be understood properly without appreciating Schelling's central importance for him A key figure in post Kantian German Idealism Schelling's penetrating attention to the creative character of thought remains undervalued Capturing the essential manner in which Heidegger's ontology and Schelling's idealism intersect The Poetic Imagination in Heidegger and Schelling likewise presents an introduction to better understanding Heidegger's later thought It reveals how his engagement with

Schelling encouraged Heidegger to recover and refine the imagination as a poetic as opposed to reductive and dogmatic collaborator in the life of truth Tracing the theme of imagination in new readings of these major thinkers Yates study not only acknowledges Schelling's provocative place in post Kantian German Idealism but demonstrates as well the significance of Schelling's philosophical focus and style for Heidegger's own concentration on the creative vocation of human artistry and thought

Heidegger on Literature, Poetry, and Education after the "Turn" James M. Magrini, Elias Schwieler, 2017-08-07 Offering new and original readings of literature poetry and education as interpreted through the conceptual lens of Heidegger's later philosophy of the Turn this book helps readers understand Heidegger's later thought and presents new takes on how to engage the themes that emerged from his later writing Suggesting novel ways to consider Heidegger's ideas on literature poetry and education Magrini and Schwieler provide a deep understanding of the Turn a topic not often explored in contemporary Heideggerian scholarship Their inter and extra disciplinary postmodern approaches offer a nuanced examination taking into account Heidegger's controversial place in history and filling a gap in educational research

Heidegger and Poetry in the Digital Age Rachel Coventry, 2023-11-30 In this original study Rachel Coventry expands Heidegger's philosophy of art to include his ontological account of poetry and technology Following Heidegger's definition of technology as preventing authentic poetic language alongside his argument that poetry can successfully confront technology Coventry considers the possibility of great poetry in the digital age This approach takes us beyond conventional literary criticism using different case studies from contemporary poetry including eco poetry digital poetry and post internet poetry Heidegger and Poetry in the Digital Age asks provocative questions to progress the philosophical study of poetry tracing new lines of thought in Heidegger studies and critical studies of contemporary poetry Does the digital thwart the aim of eco poetry Do poetic movements that use modern technology provide us with a way to overcome the negative effects of technology What are the ontological consequences of employing new formats for poetry This book examines these tensions to provide a phenomenological account of digital poetry that grounds poetic metaphor in Heidegger's metaphysics

The Artist-Philosopher in the Age of Addiction George Smith, 2025-03-17 George Smith argues that modern humanity suffers from a late stage pre fatal addiction to scientific technological thinking Like most pre fatal addictions this one will most likely result in one of three ways misery extinction or human transformation The question remains wherein lies the third way According to Smith mankind's chronic and as yet undiagnosed sickness originates in early Western metaphysics and has long been thoroughly globalized It explains unstoppable extractionism and its relentlessly increasing by product carbon dioxide It also explains today's ever increasing rate of species extinction and the increasingly likely collapse of the biosphere Citing climate change tolerance and denial as symptomatic of pre fatal addiction Smith turns his analysis to Heidegger's question concerning technology and shows that even Heidegger had become hooked on scientific technological thinking Surrendering to his disease Heidegger steps back into meditative thought This in turn opens

Heidegger to an East West mode of scientific poetic consciousness the thinking of artist philosophers such as Laozi Hölderlin and Rachel Carson For Heidegger this way of thinking lays the path to mankind's transformative emancipation from an otherwise inescapable catastrophe The book will be of interest to scholars of the arts and culture histories of consciousness and climate studies

What is Literature? Mark Robson, 2020-04-13 An essential guide to understanding literary theory and criticism in the European tradition What is Literature A Critical Anthology explores the most fundamental question in literary studies What is literature is the name of a problem that emerges with the idea of literature in European modernity This volume offers a cross section of modern literary theory and reflects on the history of thinking about literature as a specific form What is Literature reveals how ideas of the literary draw on the foundations of Western thought in ancient Greece and Rome charting the emergence of modern literature in the eighteenth century and including selections from the present state of the art The anthology includes the work of leading writers and critics of the last two thousand years including Plato Henry James Virginia Woolf Edward Said Gayatri Chakravorty Spivak Jacques Rancière and many others The book is an insightful examination of the nature of literature its meanings and values functions and forms provocations and mysteries What is Literature brings together in one volume influential and intriguing essays that show our enduring fascination with the idea of literature This important guide Contains a broad selection of the most significant texts on the topic of literature Includes leading writers from ancient times to the most recent thinkers on literature and criticism Encourages readers to reflect on the varied meanings of literature What is Literature A Critical Anthology is a unique collection of texts that will appeal to every student and scholar of literature and literary criticism in the European tradition

You Must Change Your Life John T. Lysaker, 2010-11 Not limited to a single poem or collection of poems our poetry arises when in the interaction of an author's principal tropes the origin of poetry is exposed as a process whereby words with inherited meaning take on a new poetic life that draws our attention to the birth of sense The manner in which the manifold realities that surround us are revealed And it is precisely through an experience of the birth of sense that we are able to understand and dwell differently among these realities Jacket

That Is To Say Heideggers Poetics Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has been apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is really remarkable. This extraordinary book, aptly titled "**That Is To Say Heideggers Poetics**," compiled by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we shall delve to the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
