That Noble Dream The Objectivity Question And The American Historical Profession:

That Noble Dream Peter Novick, 1988-09-30 The aspiration to relate the past as it really happened has been the central goal of American professional historians since the late nineteenth century In this remarkable history of the profession Peter Novick shows how the idea and ideal of objectivity were elaborated challenged modified and defended over the last century Drawing on the unpublished correspondence as well as the published writings of hundreds of American historians from J Franklin Jameson and Charles Beard to Arthur Schlesinger Jr and Eugene Genovese **That Noble Dream** is a richly textured account of what American historians have thought they were doing or ought to be doing when they wrote history how their principles influenced their practice and practical exigencies influenced their principles

That Noble Dream Peter Novick, 1993 *That Noble Dream* Peter Novick, 1988 Historical Knowledge, Historical Error Allan Megill, 2007-02 In the past thirty years historians have broadened the scope of their discipline to include many previously neglected topics and perspectives They have chronicled language madness gender and sexuality and have experimented with new forms of presentation They have turned to the histories of non Western peoples and to the troubled relations between the West and the rest Allan Megill welcomes these developments but he also suggests that there is now confusion among historians about what counts as a justified account of the past In *Historical Knowledge Historical Error* Megill dispels some of the confusion Here he discusses issues of narrative objectivity and memory He attacks what he sees as irresponsible uses of evidence while accepting the art of speculation which incomplete evidence forces upon historians Along the way he offers succinct accounts of the epistemological road historians have traveled from Herodotus and Thucydides through Leopold von Ranke and Alexis de Tocqueville and on to Hayden White Natalie Zemon Davis and Lynn Hunt

Interpretations of American History Vol. I Francis G. Couvares, 2000-07 Contrary to conventional wisdom no area of study is outdated more quickly than history and no time has been more turbulent for the discipline than our own This classic point counterpoint reader in American history now in a completely revised and updated seventh edition takes note of history's impermanence giving voice to the new without disposing of the old In ten lively chapters essays by the editors introduce dialectical readings by distinguished historians on topics from Reconstruction to the present The essays and readings address history's timeless questions Reconstruction Change or Stasis American Imperialism Economic Expansion or Ideological Crusade and The Civil Rights Movement Top Down or Bottom Up New readings are included on African Americans women and immigrants In the fray of debate eminent historians from Samuel Hays and Alfred Chandler to John Lewis Gaddis Walter LaFeber and Kathryn Kish Sklar struggle to interpret the past The editors' essays moderate

Studies in Contemporary Jewry Jonathan Frankel, 1994-12-29 Published annually by the Institute of Contemporary Jewry at The Hebrew University of Jerusalem this acclaimed series includes symposia articles book reviews and lists of recent dissertations by major scholars of Jewish history from around the world This brilliant collection of essays examines the dialogue between Jewish history and historiography in

terms of changing national and popular myths folk memory and historical consciousness of Jews in modern times From essays dealing with the origins of Jewish historiography in the 19th century to its contemporary perspectives and methodologies this book provides a great overview and varied insights into the field Frontiers of Historical Imagination Kerwin Lee Klein, 2023-11-15 The American frontier a potent symbol since Europeans first stepped ashore on North America serves as the touchstone for Kerwin Klein's analysis of the narrating of history Klein explores the traditions through which historians philosophers anthropologists and literary critics have understood the story of America's origin and the way those understandings have shaped and been shaped by changing conceptions of history The American West was once the frontier space where migrating Europe collided with Native America where the historical civilizations of the Old World met the nonhistorical wilds of the New It was not only the cultural combat zone where American democracy was forged but also the ragged edge of History itself where historical and nonhistorical defied and defined each other Klein maintains that the idea of a collision between people with and without history still dominates public memory But the collision he believes resounds even more powerfully in the historical imagination which creates conflicts between narration and knowledge and carries them into the language used to describe the American frontier In Klein's words We remain obscurely entangled in philosophies of history we no longer profess and the very idea of America balances on history's shifting frontiers The American frontier a potent symbol since Europeans first stepped ashore on North America serves as the touchstone for Kerwin Klein's analysis of the narrating of history Klein explores the traditions through which historians philosophers anthropol **Modernizing England's Past** Michael Bentley, 2006-01-12 What came before postmodernism in historical studies By thinking through the assumptions methods and cast of mind of English historians writing between about 1870 and 1970 this book reveals the intellectual world of the modernists and offers a full analysis of English historiography in this crucial period Modernist historiography set itself the objective of going beyond the colourful narratives of whigs and popularizers in order to establish history as the queen of the humanities and as a rival to the sciences as a vehicle of knowledge Professor Bentley does not follow those who deride modernism as positivist or empiricist but instead shows how it set in train brilliant new styles of investigation that transformed how historians understood the English past But he shows how these strengths were eventually outweighed by inherent confusions and misapprehensions that threatened to kill the very subject that the modernists had intended to sustain Imagined Histories Anthony Molho, Gordon S. Wood, 1998 This collection of essays by twenty one distinguished American historians reflects on a peculiarly American way of imagining the past At a time when history writing has changed dramatically the authors discuss the birth and evolution of historiography in this country from its origins in the late nineteenth century through its present more cosmopolitan character In the book's first part concerning recent historiography are chapters on exceptionalism gender economic history social theory race and immigration and multiculturalism Authors are Daniel Rodgers Linda Kerber Naomi Lamoreaux Dorothy Ross Thomas Holt and Philip Gleason

The three American centuries are discussed in the second part with chapters by Gordon Wood George Fredrickson and James Patterson The third part is a chronological survey of non American histories including that of Western civilization ancient history the middle ages early modern and modern Europe Russia and Asia Contributors are Eugen Weber Richard Saller Gabrielle Spiegel Anthony Molho Philip Benedict Richard Kagan Keith Baker Joseph Zizak Volker Berghahn Charles Maier Martin Malia and Carol Gluck Together these scholars reveal the unique perspective American historians have brought to the past of their own nation as well as that of the world Formerly writing from a conviction that America had a singular destiny American historians have gradually come to share viewpoints of historians in other countries about which they write The result is the virtual disappearance of what was a distinctive American voice That voice is the subject of this book *The SAGE Handbook of Historical Theory* Nancy Partner, Sarah Foot, 2012-12-18 The SAGE Handbook of Historical Theory introduces the foundations of modern historical theory and the applications of theory to a full range of sub fields of historical research bringing the reader as up to date as possible with continuing debates and current developments The book is divided into three key parts covering Part I Foundations The Theoretical Grounds for Knowledge of the Past Part II Applications Theory Intensive Areas in History Part III Coda Post Postmodernism Directions and Interrogations This important handbook brings together in one volume discussions of modernity empiricism deconstruction narrative and postmodernity in the continuing evolution of the historical discipline into our post postmodern era Chapters are written by leading academics from around the world and cover a wide array of specialized areas of the discipline including social history intellectual history gender memory psychoanalysis and cultural history The influence of major thinkers such as Jacques Derrida Michel Foucault and Hayden White is fully examined This handbook is an essential resource for practising historians and students of history and will appeal to scholars in related disciplines in the social sciences and humanities who seek a closer understanding of the theoretical foundations of history
