Jet ,2006-01-09 The weekly source of African American political and entertainment news Why Can't We Make Money in Aviation? Adam M. Pilarski,2016-02-11 Seemingly since the beginning of aviation history there has been discussion and speculation on the remarkable inability of the industry to generate profits This is even more so the case now when a number of the world s airlines are bankrupt The failure of aviation or at least of airlines to produce a reasonable rate of return on investments has been a fact pondered by many at great length but never satisfactorily understood Somehow the industry seems to violate the most basic principles of economics and business The question as to how this is the case and how the industry managed to survive let alone actually grow and prosper so far is the subject of this book It details the historical performance of the industry and critically explores the various theories proposed to explain its lack of profitability Summarizing the analysis the book also looks to the future combining lessons from the past and recommendations regarding the better management of airlines In conclusion it offers a prediction on the future of the global airline industry
