Diplomatic Practice Ivor Roberts, 2009-09-24 Satow's Diplomatic Practice is a classic work first published 90 years ago and revised four times since. This is the first revised edition for thirty years during which time the world and diplomacy have changed almost beyond recognition. The new edition provides an enlarged and updated section on the history of diplomacy and revises comprehensively the practice of diplomacy and the corpus of diplomatic and international law since the end of the Cold War. It traces the substantial expansion in numbers both of sovereign states and international and regional organisations and features detailed chapters on diplomatic privileges and immunities, diplomatic missions and consular matters. It also examines new forms of diplomacy from the work of NGOs to the use of secret envoys and commercial security firms and the book highlights the impact of international terrorism on the life and work of a diplomat. Satow is an indispensable guide for anyone working in or studying the field of diplomacy.

National Remedies Before the Court of Justice Michael Dougan, 2004-12-31 The Court of Justice has delivered an extensive body of caselaw concerning the obligation of domestic courts to provide effective judicial protection to claimants relying upon Community law rights including such landmark judgments as Factortame and Francovich. This book offers a critical analysis of the Court's fast changing approach to national procedural autonomy and explores the difficult conceptual framework underpinning the caselaw. The author demonstrates how Community intervention in the domestic systems of judicial protection cannot remain unaffected by wider debates about the evolving European integration project, in particular the tension between uniformity and differentiation as competing values influencing the exercise of Community regulatory competence. Because of its emphasis on an ideal of uniformity which has become increasingly untenable within the contemporary Community legal order, much of the existing academic discourse about national remedies and procedural rules now seems ripe for reconsideration. It is argued that the Court's jurisprudence on the decentralised enforcement of Treaty norms needs to be interpreted afresh, having regard to the recent growth of regulatory differentiation within the Community system. National Remedies Before the Court of Justice provides a challenging account of this crucial field of EU legal studies. It includes detailed discussion of issues such as Member State liability in damages, Community control over national limitation periods and the principles governing state aid and competition law enforcement. This book is of value to academics and practitioners alike.

Muslims of Europe H. A. Hellyer, 2009-09-30 The interchange between Muslims and Europe has a long and complicated history dating back to before the idea of Europe was born and the earliest years of Islam. There has been a Muslim presence on the European continent before but never has it been so significant, particularly in Western Europe. With more Muslims in Europe than in many countries of the Muslim world, they have found themselves in the position of challenging what it means to be a European in a secular society of the 21st century. At the same time, the European context has caused many Muslims to re-think what is essential to them in religious terms in their new reality. In this work, H. A. Hellyer analyses the prospects for a European future where pluralism is accepted within unified societies and the presence of a Muslim community that is of
