Political Consultants and Campaigns Jason Johnson, 2018-04-19 Political Consultants and Campaigns One Day to Sell examines the differences between how political science theory suggests campaigns should be run and how political consultants actually run campaigns In the wake of consultants who effortlessly move from campaigners to policymakers the dearth of knowledge about the attitudes beliefs and strategies of the consultants themselves is still a glaring absence in the analysis of American politics How can we purport to know what is happening in American political campaigns if we don't know what is on the minds of the men and women who run them This book provides a clearer understanding of modern day political campaigns by revealing what is on the minds of the people who run them With original data from consultants campaign managers and professional campaign schools author Jason Johnson examines consultant behavior on message formation policy positioning candidate recruitment Internet strategy and negative advertising and compares these practices to existing political science theory This groundbreaking research makes Political Consultants and Campaigns One Day to Sell a must have resource for all students of American politics campaign managers or anyone interested in how political campaigns in America are run Routledge Handbook of Political Management Dennis W. Johnson, 2010-03-17 A comprehensive overview of the field of applied politics encompassing political consulting campaigns and elections lobbying and advocacy grass roots politics fundraising media and political communications the role of the parties political leadership and the ethical dimensions of public life **The Concise Princeton Encyclopedia of American Political History** Michael Kazin, Rebecca Edwards, Adam Rothman, 2011-08-28 Contains 150 articles that provide information about significant topics in American political history including ideas philosophies movements economics religion and more **Winning Elections** Ron Faucheux, 2003-10-15 Articles provide advice for candidates campaign managers and party workers on running a political campaign including strategies research finances advertising and related topics **The Good Fight** Ron Faucheux, Paul S. Herrnson, 2001 **Vital Signs** David A. Dulio, Candice J. Nelson, 2006-05-26 It was the best of elections it was the worst of elections The 2004 presidential contest mobilized a record number of voters with 121 million Americans showing up at the polls But in many eyes the 2004 race also plumbed new depths It was the most expensive presidential election in history with a price tag of 2.2 billion It was also marked by unprecedented negativity for example both George W Bush and John Kerry came under fire for their activities during the Vietnam War which ended three decades ago In Vital Signs David Dulio and Candice Nelson analyze the Bush and Kerry campaigns and use them as the springboard for a broader exploration of the current U S campaign system and its strengths and weaknesses The book addresses four key issues Who's in charge of modern campaigns How effective are the key players What role does money play And are campaigns being conducted in an ethical manner In answering these questions Dulio and Nelson draw on a wide range of sources including focus groups interviews with campaign professionals and a unique dataset based on multiple surveys of political consultants party

operatives and the public The culmination of the seven year Improving Campaign Conduct project Vital Signs should become an integral part of the debate about American campaigns and elections *Guide to Political Campaigns in America* Paul S. Herrnson,2005-08-20 In this reference designed for scholastic reference which should also be used by media fact checkers on those busy election nights contributors to these 27 chapters describe how political campaigns work in the US how they are financed who gets to vote and when what campaign staffers do to influence voters and wrangle candidates and how specific types of campaigns differ from one another in execution and intent Topics include laws and regulations about campaigns the players and parties involved polling and research preparing for debates getting out the hopefully sympathetic vote and the probable future of current efforts toward campaign reform Each article includes its own references just in case that election night turns out to be not quite as busy as previously thought Annotation 2005 Book News Inc Portland OR booknews com
