

A scenic landscape at sunset or sunrise. The sun is low on the horizon, casting a warm, golden glow across the sky and reflecting on a body of water in the foreground. A road curves through the middle ground, bordered by grassy fields and hills. The overall mood is peaceful and contemplative.

Here's to democracy. May we
get the government we deserve.

The Government We Deserve:

We Deserve Rayol John Augustus Ph.D.,2019-05-14 We overestimate what we can do in one year and underestimate what we can do in ten years All of us have our own mountains to climb and conquer One thing is certain we will have to actively pursue success It does not just happen It is based on small everyday choices and efforts It requires constant work and care It requires us to be persistent consistent and patient We may succeed or we may fail Every time we fail it brings us closer to success People who are successful are the ones who keep failing and getting up The most important thing is not to quit trying We have to start by selling ourselves to ourselves Once we achieve some success it is easy to forget all the small efforts we have put in over the years So it is wise to take a good hard look into our life We will see the long way we have come and appreciate every part of it We need to appreciate ourselves and know that whatever we have we deserve When we finally succeed all that people see are the results Suddenly something you worked on for years looks like an overnight success But as we know success is never a coincidence It is not a question of luck either The harder we work the luckier we get If we want people to be aware of it let them be a part of our journey Let them know that whatever we have achieved it is because we learned we followed certain principles we got out of our comfort zone we changed and we grew What we have we deserve *Unquenchable* Robert Jerome Glennon,2010-04-19 Robert Glennon author of *Water Follies* captures the irony and tragedy of America s water crisis in a book that is both frightening and wickedly comical From manufactured snow for tourists in Atlanta to trillions of gallons of water flushed down the toilet each year *Unquenchable* reveals the heady extravagances and everyday inefficiencies that are sucking the nation dry *New Worlds ... and the Government of Mars* John Graham,2005-02 *New Worlds and the government of Mars* is a novel predictive of the coming decades The story of the settlement of Mars and the creation of its new government is told through the lives of a number of young people from around the world Their adventures create friends and enemies as the years pass The story ranging across Europe South America and Asia includes intrigue love and violence as the careers of these young people intertwine and they each contribute to the exploration and settlement of the planet The book arises out of experience in working with a group of young international scientists and from research done for an international agency on the past present and future uses of nuclear propulsion and heating in space The novel is fiction though the locations are real The science too is real and with political will the settlement of Mars too could be real *Distributive Justice* Fred Feldman,2016-09-22 This book presents and defends a novel theory of distributive justice according to which political economic distributive justice reigns in a state if the government of that state ensures that citizens receive the benefits and burdens they deserve from it The book starts with a more precise characterization of the target of this inquiry political economic distributive justice It then proceeds to explicate the concept of desert evaluate proposed ways of justifying desert claims formulate a number of desertist theories of justice and draw out the special features of the version defended here Once the proposed form of desertism has been stated its implications are

compared to those of egalitarianism luck egalitarianism sufficientism the difference principle libertarianism and prioritarianism with the aim of showing that desertism yields more attractive results in cases that prove difficult for other theories currently being discussed in the literature Arguments especially arguments deriving from Rawls against desertism are explained and shown to be ineffective There is discussion of the distinction between comparative and non comparative justice Emphasis is placed on the distinction between a theories about the moral rightness of distributions b theories about the intrinsic value of distributions and c theories specifically about the justice of distributions There is discussion of the unfortunate results of confusion of these different sorts of theory The views of Rawls Nozick Parfit Frankfurt Feinberg and others are discussed A version of the method of reflective equilibrium is explained and defended The book concludes with a series of admissions concerning puzzles that remain unsolved

Maximum Potential an American Possibility Richard R. Monts, 2010-09-10 The slow lava flow of government incursion into individual citizens lives has caused the United States to move away from the path leading to maximum potential for the individual Since the individual is not realizing their potential then neither can the country Logical common sense nonpolitical solutions to the problems causing this excursion off the course set by the Constitution are presented There is no place in this country for a ruling class This country was founded in no small part to remove the ruling class from the people This book proposes a system that again eliminates this blight on the country Subjects from revenue generation to border security to the limits imposed on government by the Constitution are addressed by Mr Monts

Four Crises of American Democracy Alasdair Roberts, 2016-12-13 In *Four Crises of American Democracy* Alasdair Roberts puts democratic malaise in the United States in perspective He describes four distinct democratic crises over the past century and describes how government changed in response to each crisis The institutions of American democracy Roberts says are more flexible than is often appreciated

Constitutional Renaissance Richard Monts, 2017-08-18 Have you had enough When will the United States government stop growing All constitutionally enumerated activities should have been in place long ago There should be no more expansion in scope yet there is What we have now is an overbearing out of control central government expanding far beyond constitutional limits imposing on member states sovereignty The result is a reduction in competition among states a stifling business environment and citizens and businesses suffering under complex taxation and regulations On top of that a litigious environment depresses economic activity further There is an alternative This book presents one that is very business friendly establishes competition among the states and provides a positive environment for the individual to strive for their potential while honoring the genius of the Constitution

The Meaning of Life for Israelis Living Along the Gaza Border Julia Chaitin, Sharon Steinberg, Elad Avlagon, Shoshana Steinberg, 2025-09-30 This book explores the meaning of life for Israelis living along the Gaza border before and after October 7th It brings together residents personal stories and photographs alongside their creative social media posts This second edition builds on a groundbreaking longitudinal study conducted between 2018 and 2021 which

Parliament. House of Commons, 1889 **Rebalancing Society** Henry Mintzberg, 2015-01-05 Enough of the imbalance that is causing the degradation of our environment the demise of our democracies and the denigration of ourselves Enough of the pendulum politics of left and right and paralysis in the political center We require an unprecedented form of radical renewal In this book Henry Mintzberg offers a new understanding of the root of our current crisis and a strategy for restoring the balance so vital to the survival of our progeny and our planet With the collapse of the communist regimes of Eastern Europe Western pundits declared that capitalism had triumphed They were wrong balance triumphed A healthy society balances a public sector of respected governments a private sector of responsible businesses and a plural sector of robust communities Communism collapsed under the weight of its overbearing public sector Now the liberal democracies are threatened socially politically even economically by the unchecked excesses of the private sector Radical renewal will have to begin in the plural sector which alone has the inclination and the independence to challenge unacceptable practices and develop better ones

Too many governments have been co-opted by the private sector And corporate social responsibility can't compensate for the corporate social irresponsibility we see around us They won't do it We shall have to do it each of us and all of us not as passive human resources but as resourceful human beings Tom Paine wrote in 1776 We have it in our power to begin the world over again He was right then Can we be right again now Can we afford not to be *Just Peace Theory Book One* Valerie Elverton Dixon, 2012-11-29 In these essays I often refer to social contracts such as the Declaration of Independence the Constitution of the United States the Universal Declaration of Human Rights and other international conventions that describe a vision of just human relations especially in the area of culture and health care We do not live behind a veil of ignorance where we enter into contemplation of questions of right and wrong without an awareness of our own particularities Moreover we do not always determine what is right based on reason But we do make decisions every day about how we will live within the social contracts that govern our lives Many of us go along to get along with a let's not rock the boat preserve the status quo caution Then there are those of us who use the documents of our social contracts to secure more justice and more peace The purpose is to rock the boat and to disrupt the status quo when it is unjust I understand Christ as a title not as a person It is a designation of an anointing This in my opinion is the anointing of radical love Christ is the human incarnation of divine love We each ought to strive to become this whether or not we are Christian whether or not we are even believers Those of us who are Christians believe that Jesus paid it all There is no more need for blood shed sacrifice Murder is never holy God does not need it or want it Our work now is to become living sacrifices that will redeem this world through justice and peace That is the meaning of these essays From the Introduction *Accountant Student and Accountants' Journal*, 1913 **Everybody's Magazine**, 1901 **Big Problems, Bigger God** Steve Smothermon, 2015-10-01 Are you or someone you love in a world of hurt right now You may be facing challenging circumstances intense pain crushing disappointment or silent regrets But you don't have to fold You don't have to resign yourself to defeat You can find help and encouragement to get through the tough parts to clarify the truth about your life to replace self-sabotaging behaviors to discover areas where you need a change of heart or perspective And here's the promise As you keep moving forward through adversity you'll discover the greatness and the grace of God Because you'll realize how truly great and gracious he is only when you endure hard times and emerge on the other side Big Problems Bigger God is your no-holds-barred guide to difficult challenges and the hope they can produce as you walk with God through them *Indian Education*, 1904 *College Readings in Contemporary Thought* Kendall Benard Taft, John Francis McDermott, Dana Olaf Jensen, 1929 St. Nicholas Mary Mapes Dodge, 1924 *Young India, 1919-1922* Mahatma Gandhi, 1922
