The Great American Bomb Machine Roger Rapoport, 1971 **The Great American Bomb Machine** Roger Rapoport, 1971 *The Great American Mosaic* Gary Y. Okihiro, Lionel C. Bascom, James E. Seelye Jr., Emily Moberg Robinson, Guadalupe Compeán, 2014-09-30 Firsthand sources are brought together to illuminate the diversity of American history in a unique way by sharing the perspectives of people of color who participated in landmark events This invaluable four volume compilation is a comprehensive source of documents that give voice to those who comprise the American mosaic illustrating the experiences of racial and ethnic minorities in the United States Each volume focuses on a major racial ethnic group African Americans American Indians Asian Americans and Pacific Islanders and Latinos Documents chosen by the editors for their utility and relevance to popular areas of study are organized into chronological periods from historical to contemporary The collection includes eyewitness accounts legislation speeches and interviews Together they tell the story of America s diverse population and enable readers to explore historical concepts and contexts from multiple viewpoints Introductions for each volume and primary document provide background and history that help students understand and critique the material The work also features a useful primary document guide bibliographies and indices to aid teachers librarians and students in class work and research **U.S. Environmental Protection Agency Library System Book Catalog Holdings as of July 1973** United States. Environmental Protection Agency. Library Systems Branch, 1974 The Economist , 1918 Nuclear Wastelands International Physicians for the Prevention of Nuclear War, Institute for Energy and Environmental Research, 2000 A handbook for scholars students policy makers journalists and peace and environmental activists A handbook for scholars students policy makers journalists and peace and environmental activists Nuclear Wastelands provides concise histories of the development of nuclear weapons programs of every declared and de facto nuclear weapons power as well as detailed surveys of the health and environmental effects of this development both in these countries and in non nuclear nations involved in nuclear weapons testing and uranium mining Among the more obvious but largely deferred costs of the Cold War are those related to the management of radioactive waste The world is burdened with thousands of unwanted nuclear devices and mounting surpluses of weapons grade plutonium and enriched uranium In addition the process of weapons production and testing has left many lands aquifers rivers lakes and seas contaminated by a multitude of weapons related poisons This book follows the production process step by step and country by country from uranium mining to the final assembly and storage of weapons analyzing the potential hazards of each step and compiling the most complete information available on the actual health and environmental effects in each country involved Nuclear Wastelands includes a wealth of information that has only recently come to light particularly on the nuclear weapons program of the former Soviet Union It also features critical analyses of official public communications concerning the health and environmental consequences of nuclear weapons production bringing to light governmental secrecy and outright

deception that have led to the subversion of democratic principles and have camouflaged the damage done to the very people and lands the weapons were meant to safeguard Aerial Age Weekly ,1916 **Illustrated London News** ,1918 *The Illustrated London News* ,1918 The Human Radiation Experiments Advisory Committee on Human Radiation Experiments,1996-06-06 This book describes in fascinating detail the variety of experiments sponsored by the U S government in which human subjects were exposed to radiation often without their knowledge or consent Based on a review of hundreds of thousands of heretofore unavailable or classified documents this Report tells a gripping story of the intricate relationship between science and the state Under the thick veil of government secrecy researchers conducted experiments that ranged from the mundane to such egregious violations as administering radioactive tracers to mentally retarded teenagers injecting plutonium into hospital patients and intentionally releasing radiation into the environment This volume concludes with a discussion of the Committee s key findings and guidelines for changes in institutional review boards ethics rules and policies and balancing national security interests with individual rights Ethicists public health professionals and those interested in the history of medicine and Cold War history will be intrigued by the findings of this landmark report

Advisory Committee on Human Radiation Experiments United States. Advisory Committee on Human Radiation Experiments,1995 *The Origins of Bioethics* John A. Lynch,2019-09-01 *The Origins of Bioethics* argues that what we remember from the history of medicine and how we remember it are consequential for the identities of doctors researchers and patients in the present day Remembering when medicine went wrong calls people to account for the injustices inflicted on vulnerable communities across the twentieth century in the name of medicine but the very groups empowered to create memorials to these events often have a vested interest in minimizing their culpability for them Sometimes these groups bury this past and forget events when medical research harmed those it was supposed to help The call to bioethical memory then conflicts with a desire for minimal remembrance on the part of institutions and governments *The Origins of Bioethics* charts this tension between bioethical memory and minimal remembrance across three cases the Tuskegee Syphilis Study the Willowbrook Hepatitis Study and the Cincinnati Whole Body Radiation Study that highlight the shift from robust bioethical memory to minimal remembrance to forgetting **Final Report** United States. Advisory Committee on Human Radiation Experiments,1995 **The Treatment** Martha Stephens,2002-01-23 A revealing expos on extreme radiation experiments performed on unknowing cancer patients during the 1960s which caused their deaths Hearings and Reports on Atomic Energy United States.
