## **The Great Campaigns Reform And War In America 1900 1928:**

The Great Campaigns Otis L. Graham, 1971      *American Progressives and German Social Reform, 1875-1920* Axel R. Schäfer, 2000 This study recreates the intellectual climate and transatlantic setting of turn of the century American reform It examines the influence and meaning of German social thought and reform in the American Reform Movement prior to World War I The American Progressives used the German theories in order to develop and establish new concepts of reform and to base democracy on principles other than possessive individualism utilitarian ethics and market ideology that liberalism held in stock However due to the war these reforms lost their radical character In the end the progressive quest for a broader sphere of public control participatory models of reform and social ethics yielded to the liberal model of regulation business co operation and administrative efficiency and to the moralistic agenda of prohibition and immigration control Axel R Schafer s fine study of what American progressives learned from their German counterparts adds to the growing literature illuminating the cosmopolitan breadth and ideological daring of turn of the century reform a It is a testament to the argumentative force of this insightful work that it so clarifies and deepens the vital debate over the progressive legacy in our new Gilded Age The Journal of American History Schafer did not intend to offer an exhaustive treatment instead he wished to show that part of progressive thought was not merely home grown a relection of narrow moralistic Protestantismae 220 but had some German roots too This he did well and readers may mine his chapters for other insights a German Studies Review Axel R Schafers kenntnisreiche methodisch reflektierte und quellengesattigte Untersuchung legt die bis vor kurzem nur wenig beachteten transatlantischen Bezüge der progressiven Bewegungae an der Wende vom 19 zum 20 Jahrhundert frei und bettet dieses als sehr amerikanischae geltende Reformphanomen starker in seinen weltlichen Gesamtzusammenhang ein Schafer wird daher nicht nur von Amerikaspezialisten mit Gewinn gelesen werden sondern auch von Historikern die sich mit interkulturellen Austauschprozessen beschäftigen Das Historisch Politische Buch Selten jedenfalls ist die Krise des Progressivism im Ersten Weltkrieg so klar analysiert worden wie hiera Historische Zeitschrift Anachronismen vermeidend und mit grosser Fahigkeit zur Empathie zeichnet Schafer die Motive und Vorstellungswelten der Akteure nach ohne sie von vornherein zu verurteilen Auf diese Weise gelingt ihm eine sehr differenzierte Darstellung a Neue Politische Literatur Franz Steiner 2000      *The A to Z from the Great War to the Great Depression* Neil A. Wynn, 2009-07-16 This volume examines significant individuals and developments in American political economic social and cultural history between the years 1913 and 1933 It was a time of momentous change including involvement in World War I the Red Scare the Jazz Age the Crash of 1929 and the onset of the Great Depression It covers the presidencies of Woodrow Wilson Warren G Harding Calvin Coolidge and Herbert Hoover and the shift from reformism to conservatism Prohibition and gangsterism symbolized the apparent failure of politics The A to Z from the Great War to the Great Depression covers this important period in American history with a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on everything from automobiles

chemicals and electrical goods to mass entertainment and the rise of Hollywood radio and sport

**Battling the Inland Sea** Robert Kelley, 2023-11-15 In its natural condition the Sacramento Valley was a flood ravaged region where an inland sea a hundred miles long regularly formed during the rainy season to drain slowly away by the summer months Today the Valley is marvelously productive with a great capital city at its center but only after a seventy year struggle to devise and build an intricate thousand miles of levees and drains Robert Kelley sets that battle within the encompassing national political culture which produced through the Republican and Democratic parties widely diverging ideas about how best to reclaim the Valley from flood He draws on approaches developed in the field of policy analysis to examine the relationship between American political culture and environmental policy making We find that the prolonged controversy over the Sacramento Valley illuminates American decision making then and now In its natural condition the Sacramento Valley was a flood ravaged region where an inland sea a hundred miles long regularly formed during the rainy season to drain slowly away by the summer months Today the Valley is marvelously productive with a great

*The Panic of 1907* Robert F. Bruner, Sean D. Carr, 2009-04-27 Before reading *The Panic of 1907* the year 1907 seemed like a long time ago and a different world The authors however bring this story alive in a fast moving book and the reader sees how events of that time are very relevant for today's financial world In spite of all of our advances including a stronger monetary system and modern tools for managing risk Bruner and Carr help us understand that we are not immune to a future crisis Dwight B Crane Baker Foundation Professor Harvard Business School Bruner and Carr provide a thorough masterly and highly readable account of the 1907 crisis and its management by the great private banker J P Morgan Congress heeded the lessons of 1907 launching the Federal Reserve System in 1913 to prevent banking panics and foster financial stability We still have financial problems But because of 1907 and Morgan a century later we have a respected central bank as well as greater confidence in our money and our banks than our great grandparents had in theirs Richard Sylla Henry Kaufman Professor of the History of Financial Institutions and Markets and Professor of Economics Stern School of Business New York University A fascinating portrayal of the events and personalities of the crisis and panic of 1907 Lessons learned and parallels to the present have great relevance Crises and panics are as much a part of our future as our past John Strangfeld Vice Chairman Prudential Financial Who would have thought that a hundred years after the Panic of 1907 so much remained to be written about it Bruner and Carr break significant new ground because they are willing to do the heavy lifting of combing through massive archival material to identify and weave together important facts Their book will be of interest not only to banking theorists and financial historians but also to business school and economics students for its rare ability to teach so clearly why and how a panic unfolds Charles Calomiris Henry Kaufman Professor of Financial Institutions Columbia University Graduate School of Business

Technological Utopianism in American Culture Howard P. Segal, 2005-11-07 Featuring twenty five writers in all this book includes Howard P Segal's acclaimed work on utopian visionaries

The Breckinridges of Kentucky James C.

Klotter,2021-12-14 Across more than six generations beginning before the Revolutionary War the Breckinridge family has produced a series of notable leaders These often controversial men and women included a presidential candidate a U S vice president cabinet members generals women s rights advocates congressmen editors reformers authors and church leaders Along with success the Breckinridges like other Americans faced hardship and war contended with race lived through difficult family situations including a sex scandal and encountered personal and political failure An articulate opinionated and frank family the Breckinridges have left a detailed record that allows us a vivid recreation of the range of American history and society

**The Progressive Era in the USA: 1890-1921** Kristofer Allerfeldt,2017-05-15 Few periods in American history have been explored as much as the Progressive Era It is seen as the birth place of modern American liberalism as well as the time in which America emerged as an imperial power Historians and other scholars have struggled to explain the contradictions of this period and this volume explores some of the major controversies this exciting period has inspired Investigating subjects as diverse as conservation socialism or the importance of women in the reform movements this volume looks at the lasting impact of this productive yet ultimately frustrated generation s legacy on American and world history

**Albert Shaw of the Review of Reviews** Lloyd J. Graybar,2021-11-21 The life of Albert Shaw 1857 1947 reflected in microcosm the changes that American society was undergoing through a critical period This first full length study focuses on two themes Shaw s career as editor and publisher of the Review of Reviews an influential monthly journal in the early years of the twentieth century and Shaw s career as a public figure Shaw was a member of the Progressive movement from its inception but his concern and interests were wide ranging centering to a large degree on the question of what the industrialization of America meant Lloyd J Graybar shows incisively the ways in which Shaw s professional concerns interacted with his attitude toward public issues

*Women, the State, and Welfare* Linda Gordon,2012-11 A collection of essays about women and welfare in America this book discusses how welfare programmes affect women and how gender relations have influenced the structure of such programmes Issues such as race and class are also discussed

**California Progressivism Revisited** William F. Deverell,Tom Sitton,2023-09-01 California was perhaps the most important locus for the development of the Progressive reform movement in the decades of the twentieth century These twelve original essays represent the best of the new scholarship on California Progressivism Ranging across a spectrum that embraces ethnicity gender class and varying ideological stances the authors demonstrate that reform in California was a far broader more complicated phenomenon than we have previously understood Since the 1950s scholars have used California Progressivism as a model case study for explaining early twentieth century social and political reform nationwide But such a model which ignored issues of class race and gender simplified a political movement that was in fact quite complex In revising the monolithic interpretation of reform and reformers this volume provides a better understanding of the sweeping reform impulses that had such a profound effect on American political and social institutions during this century Equally important

the issues examined here offer significant insights into problems that the entire country must tackle as we approach the new century California was perhaps the most important locus for the development of the Progressive reform movement in the decades of the twentieth century These twelve original essays represent the best of the new scholarship on California Progressivism Ranging across The Americanization of West Virginia John C. Hennen, 2021-12-14 Local teachers and ministers extolling the virtues of hard work and loyalty to God and country Veterans groups and women's clubs promoting the military fighting radicalism and equating business and patriotism Industrial leaders gaining legal as well as moral influence over national domestic policy Such scenes might seem to be lifted from a Sinclair Lewis novel or a Contract with America publicity video But as John C Hennen shows in this piercing analysis of early twentieth century American political culture from 1916 to 1925 Americanization became the theme indeed the script not only of West Virginia but of the entire nation Hennen's interdisciplinary work examines a formative period in West Virginia's modern history that has been largely neglected beyond the traditional focus on the coal industry Hennen looks at education reform and industrial relations in the state in the context of war mobilization postwar instability and national economic expansion The First World War he says consolidated the dominant positions of professionals business people and political capitalists as arbiters of national values These leaders emerged from the war determined to make free market business principles synonymous with patriotic citizenship Americanization therefore refers less to the assimilation of immigrants into the national mainstream than to the attempt to encode values that would guarantee a literate loyal and obedient producing class To ensure that the state fulfilled its designated role as a resource zone for the perceived greater good of national strength corporate leaders employed public relations tactics that the Wilson administration had refined to gain public support for the war Alarmed by widespread labor activism and threatened by fears of communism the American Constitutional Association in West Virginia one of dozens of similar organizations nationwide articulated principles that identified the well being of business with the well being of the country With easy access to teacher training and classroom programs antiunion forces had by 1923 rolled back the wartime gains of the United Mine Workers of America Middle class voluntary organizations like the American Legion and the West Virginia Federation of Women's Clubs helped implant mandated loyalty in schoolchildren Far from being isolated during America's transformation into a world power West Virginia was squarely in the mainstream The state's people and natural resources were manipulated into serving crucial functions as producers and fuel for the postwar economy Hennen's study therefore is a study less of the power or force of ideas than of the importance of access to the means to transmit ideas The winner of the 1995 Appalachian Studies Award is a significant contribution to regional studies as well as to our understanding of American culture during and after World War I

**Pure Food** James Harvey Young, 2014-07-14 Pure food became the rallying cry among a divergent group of campaigners who lobbied Congress for a law regulating foods and drugs James Harvey Young reveals the complex and pluralistic nature not only of that crusade but also of the broader Progressive

movement of which it was a significant strand In the vivid style familiar to readers of his earlier works *The Toadstool Millionaires* and *The Medical Messiahs* Young sets the pure food movement in the context of changing technology and medical theory and describes pioneering laws to control imported drugs and domestic oleomargarine He explains controversy within the pure food coalition showing how farming and business groups sought competitive commercial advantage while consumer advocates wished to promote commercial integrity and advance public health The author focuses on how the public became increasingly fearful of hazards in adulterated foods and narcotic nostrums and how Congress finally achieved the compromises necessary to pass the Food and Drugs Act and the meat inspection law of 1906 Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

**Why We Fought** Peter C. Rollins, John E. O'Connor, 2008-07-25 A wide ranging and sophisticated anthology comparing theaters of war to wars in the movie theater Dennis Showalter author of *Patton and Rommel* *Why We Fought* makes a powerful case that film can be as valuable a tool as primary documents for improving our understanding of the causes and consequences of war A comprehensive look at war films from depictions of the American Revolution to portrayals of September 11 and its aftermath this volume contrasts recognized history and historical fiction with the versions appearing on the big screen The text considers a selection of the pivotal war films of all time including *All Quiet on the Western Front* *Sands of Iwo Jima* *Apocalypse Now* *Platoon* and *Saving Private Ryan* revealing how film depictions of the country's wars have shaped our values politics and culture and offering a unique lens through which to view American history Named as a Choice Outstanding Academic Title

[The Dilemma of Progressivism](#) Will Morrissey, 2009-04-16 In the first book length study of Progressive Era presidents views on the theme of self government *The Dilemma of Progressivism* critically analyzes their understanding of executive leadership and the office of the presidency Will Morrissey examines both the rhetoric and the actions of Theodore Roosevelt William Howard Taft and Woodrow Wilson to show the ways in which their thought shaped their presidencies He shows how the Progressive presidents dealt with the genesis of a modern centralized American state and the conflicting increase in popularity of the notion of self government Drawing larger conclusions about the key American ideas of self government federalism freedom and social welfare Morrissey strikes the right balance between political theory and history in this study on self government and the political thought of three American presidents

**Collision Course** Hugh Davis Graham, 2002-04-04 When the Civil Rights Act of 1964 and the Immigration and Naturalization Act of 1965 were passed they were seen as triumphs of liberal reform Yet today affirmative action is foundering in the great waves of immigration from Asia and Latin America leading to direct competition for jobs

housing education and government preference programs In Collision Course Hugh Davis Graham explains how two such well intended laws came into conflict with each other when employers acting under affirmative action plans hired millions of new immigrants ushered in by the Immigration Act while leaving high unemployment among inner city blacks He shows how affirmative action for immigrants stirred wide resentment and drew new attention to policy contradictions Graham sees a troubled future for both programs As the economy weakens and antiterrorist border controls tighten the competition for jobs will intensify pressure on affirmative action and invite new restrictions on immigration Graham s insightful interpretation of the unintended consequences of these policies is original and controversial **Hanging Together** John Higham,2001-01-01

This book presents three decades of writings by one of America s most distinguished historians John Higham renowned for his influential works on immigration ethnicity political symbolism and the writing of history here traces the changing contours of American culture since its beginnings focusing on the ways that an extraordinarily mobile society has allowed divergent ethnic class and ideological groups to hang together as Americans The book includes classic essays by Higham and more recent writings some of which have been substantially revised for this publication Topics range widely from the evolution of American national symbols and the fate of our national character to new perspectives on the New Deal on other major turning points and on changes in race relations after major American wars Yet they are unified by an underlying theme that a heterogeneous society and an inclusive national culture need each other The Costs of War John Denson,2017-07-05

The greatest accomplishment of Western civilization is arguably the achievement of individual liberty through limits on the power of the state In the war torn twentieth century we rarely hear that one of the main costs of armed conflict is long term loss of liberty to winners and losers alike Beyond the obvious and direct costs of dead and wounded soldiers there is the lifetime struggle of veterans to live with their nightmares and their injuries the hidden economic costs of inflation debts and taxes and more generally the damages caused to our culture our morality and to civilization at large The new edition is now available in paperback with a number of new essays It represents a large scale collective effort to pierce the veils of myth and propaganda to reveal the true costs of war above all the cost to liberty Central to this volume are the views of Ludwig von Mises on war and foreign policy Mises argued that war along with colonialism and imperialism is the greatest enemy of freedom and prosperity and that peace throughout the world cannot be achieved until the central governments of the major nations become limited in scope and power In the spirit of these theorems by Mises the contributors to this volume consider the costs of war generally and assess specific corrosive effects of major American wars since the Revolution The first section includes chapters on the theoretical and institutional dimensions of the relationship between war and society including conscription infringements on freedom the military as an engine of social change war and literature and the right of citizens to bear arms The second group includes reconsiderations of Lincoln and Churchill an analysis of the anti interventionist idea in American politics a discussion of the meaning of the just war an assessment of how World War I changed the course of

Western civilization and finally two eyewitness accounts of the true horrors of actual combat by **The Master Architects** Richard Hume Werking, 2021-12-14 During the twenty years before World War I several key figures worked to improve the foreign service and to reform its appointment system Richard Hume Werking explores both the methods and the motives of these master architects Unlike other scholars Werking finds that the foundations and general structure of the United States foreign service emerged before World War I He sees its development as prompted less by foreign crises than by economic conditions particularly the need to stimulate export trade Indispensable to its growth were the dedicated efforts of bureaucrats who were loyal to national interests but wished the opportunity to do interesting work and to receive recognition when they did it well **The Gilded Age** Alan Axelrod, 2017-11-14 The Gilded Age is in the air This beautifully designed fully illustrated insightful book by noted historian Alan Axelrod provides a vivid view of American life and thought during that era The Gilded Age the name coined by Mark Twain to refer to the period of rapid economic growth in America between the 1870s and 1900 offers some intriguing parallels to our own time Prolific historian Alan Axelrod tackles this subject in a fresh way exploring this intense era in all its dimensions This book will reveal it as truly the overture of the American Century He also looks at how it presaged our current era which many are calling the Second Gilded Age Photographs political cartoons engravings news clippings and other ephemera help bring this fascinating period into focus

This Captivating Realm of E-book Books: A Comprehensive Guide Unveiling the Pros of Kindle Books: A World of Convenience and Flexibility E-book books, with their inherent portability and simplicity of access, have freed readers from the constraints of hardcopy books. Done are the days of carrying cumbersome novels or meticulously searching for particular titles in shops. E-book devices, sleek and portable, effortlessly store an wide library of books, allowing readers to immerse in their preferred reads anytime, anywhere. Whether commuting on a bustling train, lounging on a sun-kissed beach, or just cozying up in bed, Kindle books provide an unparalleled level of convenience. A Reading Universe Unfolded: Discovering the Wide Array of Kindle The Great Campaigns Reform And War In America 1900 1928 The Great Campaigns Reform And War In America 1900 1928 The E-book Store, a digital treasure trove of literary gems, boasts an extensive collection of books spanning diverse genres, catering to every readers preference and preference. From gripping fiction and thought-provoking non-fiction to classic classics and modern bestsellers, the Kindle Shop offers an exceptional variety of titles to discover. Whether looking for escape through engrossing tales of imagination and exploration, delving into the depths of past narratives, or expanding ones knowledge with insightful works of science and philosophical, the Kindle Store provides a doorway to a bookish world brimming with endless possibilities. A Transformative Factor in the Literary Scene: The Lasting Impact of Kindle Books The Great Campaigns Reform And War In America 1900 1928 The advent of Kindle books has undoubtedly reshaped the bookish scene, introducing a paradigm shift in the way books are released, disseminated, and read.
