Masys,2021-06-22 Over the past decade the international political system has come to be characterized as a Great Power Competition in which multiple would be hegemon compete for power and influence Instead of a global climate of unchallenged United States dominance revisionist powers notably China and Russia alongside other regional powers are vying for dominance through political military and economic means A critical battleground in the Great Power Competition is the Middle East the Horn of Africa and the Central Asia South Asia CASA also known as the Central Region With the planned withdrawal of U S military forces from Afghanistan the U S has stated its intention of shifting attention away from the CASA Region in favor of a more isolationist foreign policy approach This book provides an in depth understanding of the implications for this shift related to regional diplomacy politics economic opportunities rivalries security considerations interests and the information environment Amplifying the vital importance of success in the Central Region to U S prosperity and security this volume advances dialogue in identifying key issues for stakeholders within and beyond the Central Region to gain a holistic perspective that better informs decision making at various levels This collection of work comes from scholars strategic thinkers and subject matter experts who participated in the Great Power Competition Conference hosted by the University of South Florida in partnership with the National Defense University Near East South Asia Center for Strategic Strategies in January 2020 The Great Deception Christopher Booker,Richard North,2021-08-19 Since its publication in 2003 *The Great Deception* has taken on the role of the Eurosceptics bible with the third edition helping to fuel the debate during the 2016 EU Referendum This fourth edition celebrates the moment when the UK broke away from the European Union having been extensively re edited to incorporate newly available archive material and updated to include the tumultuous events of recent years *The Great Deception* therefore tells for the first time the inside story of the most audacious political project of modern times from its intellectual beginnings in the 1920s when the blueprint for the European Union was first conceived by a British civil servant right up to the point when the UK resumes its path at as an independent sovereign nation after 47 years of membership of the European project in its various guises Drawing on a wealth of new evidence and existing sources scarcely an episode of the story does not emerge in startling new light from the real reasons why de Gaulle kept Britain out in the 1960s to the fall of Mrs Thatcher and the build up to the referendum

campaign which had its roots in the Maastricht Treaty The book chillingly shows how Britain's politicians were consistently outplayed in a game the rules of which they never understood It ends by evaluating the post referendum negotiations and asking whether this is the end of an episode or just a new beginning **The Story of the Great War, Volume 4 of 8**
