Heick,2006-01-01 For Canada the last century was one of great social and economic change an increasingly urban population witnessed shifts from an agricultural to a mixed economy and from moderate to greater wealth Heick chronicles how changing attitudes toward butter and margarine reflected the nature of that society He demonstrates how the ban on the manufacture importation and sale of margarine was instigated in 1986 at the behest of the nascent yet influential dairy industry particularly in Ontario This ban was based on the premise that margarine was not a pure food Despite the lifting of the ban in 1918 23 margarine would only appear as a permanent fixture of the Canadian food spectrum after World War II The author contends that post World War II urbanization and a desire to enjoy a more prosperous life after wartime stringencies were instrumental in this change It was increasingly difficult for the Canadian dairy industry to meet the nation s growing dairy requirements Margarine was no longer viewed as impure in fact it was now recognized as being a wholesome food and substitute for butter Heick s important study of the Canadian butter margarine competition brings to light how the lengthy debate manifested itself in political economic and social milieu
