Historians of Alexander the Great N. G. L. Hammond, 2007-05-31 Our knowledge of Alexander the Great is derived from the widely varying accounts of five authors who wrote three and more centuries after his death The value of each account can be determined in detail only by discovering the source from which it drew section by section whether from a contemporary document a memoir by a companion of Alexander a hostile critique or a romanticizing narrative In this book the three earliest accounts are studied in depth and it becomes apparent that each author used more than one source and that only occasionally did any two of them or all three use the same source for an incident or a series of incidents This book will be of value to ancient historians and of interest also to those studying Alexander the Great *ALEXANDER THE GREAT IN BACTRIA AND INDIA NARRATIVE* Dan-Tudor IONESCU, 2025-01-01 This book is not only the attempt at the reconstruction of the military expedition of the army of Alexander the Great in Bactria and India and an analysis of the historical sources on which our modern image of Alexander's age is based but also aims at reconstructing the *imago mundi* that the ancient Greeks and Macedonians had on the world they conquered The birth and development of Alexander's myth are also treated in these pages

The Roman Historians Ronald Mellor, 2002-01-31 The Romans' devotion to their past pervades almost every aspect of their culture But the clearest image of how the Romans wished to interpret their past is found in their historical writings This book examines in detail the major Roman historians Sallust Livy Tacitus Ammianus as well as the biographies written by Nepos Tacitus Suetonius the Augustan History the autobiographies of Julius Caesar and the Emperor Augustus Ronald Mellor demonstrates that Roman historical writing was regarded by its authors as a literary not a scholarly exercise and how it must be evaluated in that context He shows that history writing reflected the political structures of ancient Rome under the different regimes

History of Psychiatry and Medical Psychology Edwin R. Wallace, John Gach, 2010-04-13 Most of the prefatory issues are extensively elaborated upon in the Prolegomenon which also contains the complete references to the texts and authors discussed below Nevertheless the Preface would be grossly incomplete without touching on some of these issues books and scholars Too many of this book's chapters e.g. Mora's Marx's D.B. Weiner's examine and reference important earlier as well as contemporary general histories of psychiatry and specialized monographs in German French Italian and Spanish Also in his 1968 Short History of Psychiatry discussed below Ackerknecht pp. xi-xii references important nineteenth and earlier twentieth century psychiatric histories in English French and German Such citations will of course not be repeated here Finally thanks to several publishers' re-editions of dozens of classical psychiatric texts one can consult their bibliographies as well See Prolegomenon for references to these splendid series In a rough and ready sense medical history began in classical Greece for example On Ancient Medicine While traditionally included in the Hippocratic corpus this text seems more likely to have been written by a non or even anti-Hippocratic doctor Moreover the Hippocratic and other schools were hardly as secular as we now suppose On Epilepsy for example does not so much declare the prevalent denotation of it

as the sacred disease erroneous as it does that it is no more nor less sacred than any other disease *The Historians of Ancient Rome* Ronald Mellor, 2012-10-12 The *Historians of Ancient Rome* is the most comprehensive collection of ancient sources for Roman history available in a single English volume After a general introduction on Roman historical writing extensive passages from more than a dozen Greek and Roman historians and biographers trace the history of Rome over more than a thousand years from the city's foundation by Romulus in 753 B C E Livy to Constantine's edict of toleration for Christianity 313 C E Selections include many of the high points of Rome's climb to world domination the defeat of Hannibal the conquest of Greece and the eastern Mediterranean the defeat of the Catilinarian conspirators Caesar's conquest of Gaul Antony and Cleopatra the establishment of the Empire by Caesar Augustus and the Roman Peace under Hadrian and long excerpts from Tacitus record the horrors of the reigns of Tiberius and Nero The book is intended both for undergraduate courses in Roman history and for the general reader interested in approaching the Romans through the original historical sources Hence excerpts of Polybius Livy and Tacitus are extensive enough to be read with pleasure as an exciting narrative Now in its third edition changes to this thoroughly revised volume include a new timeline translations of several key inscriptions such as the Twelve Tables and additional readings This is a book which no student of Roman history should be without Encyclopedia of Historians and Historical Writing Kelly Boyd, 2019-10-09 The *Encyclopedia of Historians and Historical Writing* contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the *Encyclopedia* includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies The Great Events by Famous Historians Rossiter Johnson, 1905
