The Greek Struggle In Macedonia 1897-1913:

The Greek Struggle in Macedonia, 1897-1913 Douglas Dakin, 1993 *The Macedonian Question and the Macedonians* Alexis Heraclides, 2020-12-30 This book is a comprehensive and dispassionate analysis of the intriguing Macedonian Question from 1878 until 1949 and of the Macedonians and of their neighbours from the 1890s until today with the two themes intertwining The Macedonian Question was an offshoot of the wider Eastern Question i.e. the fate of the European remnants of the Ottoman Empire once it dissolved The initial protagonists of the Macedonian Question were Greece Bulgaria and Serbia and a Slav speaking population inhabiting geographical Macedonia in search of its destiny the largest segment of which ended up creating a new nation comprising the Macedonians something unacceptable to its three neighbours Alexis Heraclides analyses the shifting sands of the Macedonian Question and of the gradual rise of Macedonian nationhood with special emphasis on the Greek Bulgarian and Serbian claims to Macedonia 1870s 1919 the birth and vicissitudes of the most famous Macedonian revolutionary organization the VM O RO and of other organizations 1893 1940 the appearance and gradual establishment of the Macedonian nation from the 1890s until 1945 Titos's crucial role in Macedonian nationhood cum federal status the Greek Macedonian name dispute 1991 2018 including the skeletons in the cupboard the deep seated reasons rendering the clash intractable for decades the final Greek Macedonian settlement the 2018 Prespa Agreement the Bulgarian Macedonian dispute 1950 today and its ephemeral settlement in 2017 the issue of the Macedonian language and the Macedonian national historical narrative The author also addresses questions around who the ancient Macedonians were and the fascination with Alexander the Great This monograph will be an essential resource for scholars working on Macedonian history Balkan politics and conflict resolution *The Macedonian Slavs in the Greek Civil War, 1944-1949* James Horncastle, 2019-06-03 In this study of Macedonian Slavs in the Greek Civil War the author examines how their participation in the conflict and the attempts by other groups to manipulate them gave rise to modern issues that continue to affect politics in the region today The Macedonian Question has confounded academics politicians and the people of the Balkans since the nineteenth century While the countries have resolved the territorial component of the Macedonian Question the critical and confusing question surrounding the ethnic and linguistic identity of the people of the region continues to be the source of international debate Part of the reason for this confusion is because the history of the Macedonian Question is shrouded in nationalist polemics The role of the Macedonian Slavs involvement in the Greek Civil War is particularly contentious and embedded in nationalist polemics which has impacted academic inquiry This book argues that the preponderance of Macedonian Slavs within the communist forces during the Greek Civil War influenced the actions of all the major actors involved and is a significant factor in shaping the modern Macedonian national identity *The Revolution of 1908 in Turkey* Aykut Kansu, 2021-10-11 This is a detailed account and an excellent narrative history of the often neglected period 1906 1908 in Turkey in which the prelude and aftermath of the revolution and elections of 1908 took

place The year 1908 opened a new era of representative government and the social and political developments leading to the overthrow of the ancien régime are carefully and fascinatingly given Historians and general readers will find The Revolution of 1908 in Turkey a thought provoking book which will resound in the discussion of the validity of Kemalist or quasi Kemalist historiography and therefore provide a major contribution to the field The South Slav Conflict Raju G.C Thomas,H. Richard Frim,2021-12-12 First Published in 1996 In identifying the causes of such a national and international failure in conflict management The South Slav Conflict becomes a valuable case study in comparative politics and international relations Edited by Raju G C Thomas and H Richard Frim and is unique among these by virtue of its thoroughly interdisciplinary approach to the causes and consequences of the war The book's great strength begins with its forthright assertion that no serious attempt to explain the current cycle of genocide and revenge among Serbs Croats and Bosnians can avoid the inherent complexity of the factors that transformed Yugoslavia from one of the most pluralist of European communist states into a theater of human misery The Balkans: Nationalism, War, and the Great Powers, 1804-2012 Misha Glenny,2012-09-05 From the bestselling author of McMafia and DarkMarket comes this unique and lively history of Balkan geopolitics since the early nineteenth century which gives readers the essential historical background to more than one hundred years of events in this war torn area No other book covers the entire region or offers such profound insights into the roots of Balkan violence or explains so vividly the origins of modern Serbia Croatia Bosnia Greece Bulgaria Romania and Albania Now updated to include the fall of Slobodan Milosevic the capture of all indicted war criminals from the Yugoslav wars and each state's quest for legitimacy in the European Union The Balkans explores the often catastrophic relationship between the Balkans and the Great Powers raising some disturbing questions about Western intervention Preparation for a Revolution M. Sukru Hanioglu,2001-03-01 This book will completely transform the standard interpretation of the Young Turk Revolution of 1908 a watershed event in the late Ottoman Empire and a key to the emergence of the modern nation states in the Middle East and Balkans Preparation for a Revolution is the first book on the Young Turk Revolution to draw on both the extensive memoirs and papers of the Young Turks and on the extensive diplomatic archives around the world The author has plumbed not only the Ottoman Archives but collected documents from archives in Bonn Berlin Jerusalem London Paris Rome Athens Sofia Tirana Bern Geneva Sarajevo Cairo Stockholm and Tokyo Breaking new ground Hanioglu describes in detail how practical considerations led the Young Turks to sacrifice or alter many of their goals for social transformation He tells a story rich in character and plot and reveals the many factions and competing intellectual trends that marked this tumultuous period at the end of the Ottoman Empire Preparation for a Revolution will prove indispensable to anyone working on the political intellectual and social history of the Ottoman Empire and of the states that were established on its ruins

The Balkan Wars Andre Gerolymatos,2008-08-05 When it comes to the Balkans most people quickly become lost in the quagmire of struggle and intractable hatred that consumes that ancient land today Many assume that the genesis of the past

ten years of atrocity in the region might have had something to do with Tito and his repressive Yugoslav regime or perhaps with the assassination of Franz Ferdinand in 1914 The seeds were really planted much much earlier on a desolate plain in Kosovo in 1389 when the Serbian Prince Lazar and his army clashed with and were defeated by the Ottoman forces of Sultan Murad I In this riveting new history of the Balkan peoples Andr erolymatos explores how ancient events engendered cultural myths that evolved over time gaining psychic strength in the collective consciousnesses of Orthodox Christians and Muslims alike In colorful detail we meet the key figures that instigated and perpetuated these myths including the assassin heroes Milos Obolic and Gavrilo Princip and the warlord Ali Pasha This lively survey of centuries of strife finally puts the modern conflicts in Bosnia and Kosovo into historical context and provides a long overdue account of the origins of ethnic hatred and warmongering in this turbulent land Nation and Identity in Contemporary Europe Brian Jenkins, Spyros A.

Sofos, 2003-09-02 The resilience of nationalism in contemporary Europe may seem paradoxical at a time when the nation state is widely seen as being in decline The contributors of this book see the resurgence of nationalism as symptomatic of the quest for identity and meaning in the complex modern world Challenged from above by the supranational imperatives of globalism and from below by the complex pluralism of modern societies the nation state in the absence of alternatives to market consumerism remains a focus for social identity Nation and Identity in Contemporary Europe takes a fully interdisciplinary and comparative approach to the national question Individual chapters consider the specifics of national identity in France Germany Britain Italy Iberia Russia the former Yugoslavla and Poland while looking also at external forces such as economic globalisation European supranationalism and the end of the Cold War Setting current issues and conflicts in their broad historical context the book reaffirms that nations are not natural phenomena but constructed forms of social identity whose future will be determined in the social arena *Lakes and Empires in Macedonian History* James

Pettifer, Miranda Vickers, 2021-08-26 *Lakes and Empires in Macedonian History* Contesting the Waters tells the story of Psarades a lakeside village in Macedonian Greece on the shores of the Prespa lake This village which is in many ways a completely typical Greek settlement and yet remains unconventional in its way of life embodies the many contradictions of modern history and in exploring its roots James Pettifer and Miranda Vickers skilfully uncover the wider social cultural and political history of this lake region Drawing from oral testimonies and attentive to the construction of national histories this book considers how the development of international borders movement of people and role of national identities within imperial borderlands shaped Macedonia today What is more by centering the lakes and making use of an innovative environmental historical methodology Pettifer and Vickers offer the first environmental history of this multi ethnic borderland region shared by Greece North Macedonia and Albania The result is a nuanced and sophisticated transnational account of Macedonia from prehistory to the 21st century which will be essential reading for all Balkan scholars *The Wars of Yesterday* Katrin Boeckh, Sabine Rutar, 2018-01-31 Though persistently overshadowed by the Great War in historical

memory the two Balkan conflicts of 1912 1913 were among the most consequential of the early twentieth century By pitting the states of Greece Bulgaria Serbia and Montenegro against a diminished Ottoman Empire and subsequently against one another they anticipated many of the horrors of twentieth century warfare even as they produced the tense regional politics that helped spark World War I Bringing together an international group of scholars this volume applies the social and cultural insights of the new military history to revisit this critical episode with a central focus on the experiences of both combatants and civilians during wartime *NATO's First Enlargement* Evanthia Hatzivassiliou, Dimitrios

Triantaphyllou, 2017-10-02 This volume discusses the entry of Greece and Turkey to NATO in 1952 from the perspective of history and international relations The chapters were originally collected in 2012 to mark the occasion of the sixtieth anniversary of the accession of the two states to NATO The focus is not on the diplomatic political events that led to the accession a subject which has already been extensively discussed in the available bibliography but expands on a reassessment of this event for the two states as well as for the Balkans covering aspects of the wider post war period and providing perspectives for the policies of Turkey Greece and NATO until the present day This book was originally published as a special issue of Southeast European and Black Sea Studies *The Politics of Nation-Building* Harris

Mylonas, 2013-02-18 What drives a state's choice to assimilate accommodate or exclude ethnic groups within its territory In this innovative work on the international politics of nation building Harris Mylonas argues that a state's nation building policies toward non core groups individuals perceived as an ethnic group by the ruling elite of a state are influenced by both its foreign policy goals and its relations with the external patrons of these groups Through a detailed study of the Balkans Mylonas shows that how a state treats a non core group within its own borders is determined largely by whether the state's foreign policy is revisionist or cleaves to the international status quo and whether it is allied or in rivalry with that group's external patrons Mylonas injects international politics into the study of nation building building a bridge between international relations and the comparative politics of ethnicity and nationalism *The Longman Companion to European Nationalism 1789-1920* Raymond Pearson, 2014-09-25 A highly topical analysis of European Nationalism from the French

Revolution through to the aftermath of the First World War when the nationalist issues and problems that dominate the political landscape of our own time were already fully established Covering an enormous range of peoples from the Icelanders to the Gypsies from Brittany to Wallachia the book presents a wealth of historical geopolitical information unavailable elsewhere Essential as a reference work it also provides a unique opportunity to survey systematically a crucial but fragmented subject in its full European context For historians political scientists departments of European studies and general readers *Women, Power Relations, and Education in a Transnational World* Christine Mayer, Adelina

Arredondo, 2020-05-06 This edited collection addresses the nexus of gender power relations and education from various angles while covering a broad spectrum of the history of education in both time and geographic space Taking the position

that historians of gender and education find the concept of transnationalism very useful for a deeper understanding of historical change and situations the editors and their contributors employ a transnational perspective to explore the complex and entangled dimensions of a history of education that transcends regional and national boundaries through a variety of approaches e g through exploring new fields of research sources questions perspectives for interpretation or methodologies In doing so they also undertake to open up a transnational global perspective for the historiography of education

The Balkans Misha Glenny, 2012-09-25 This unique and lively history of Balkan geopolitics since the early nineteenth century gives readers the essential historical background to recent events in this war torn area No other book covers the entire region or offers such profound insights into the roots of Balkan violence or explains so vividly the origins of modern Serbia Croatia Bosnia Greece Bulgaria Romania and Albania Misha Glenny presents a lucid and fair minded account of each national group in the Balkans and its struggle for statehood The narrative is studded with sharply observed portraits of kings guerrillas bandits generals and politicians Glenny also explores the often catastrophic relationship between the Balkans and the Great Powers raising some disturbing questions about Western intervention

Turkey Sylvia Kedourie, 2014-02-04 This volume aims to shed light on Turkish political issues The discussions range over national and international politics democracy and freedom of the press voting patterns official control of indigenous music and conditions in industrial estates

Rethinking Violence Erica Chenoweth, Adria Lawrence, 2010-08-27 An original argument about the causes and consequences of political violence and the range of strategies employed States nationalist movements and ethnic groups in conflict with one another often face a choice between violent and nonviolent strategies Although major wars between sovereign states have become rare contemporary world politics has been rife with internal conflict ethnic cleansing and violence against civilians This book asks how why and when states and non state actors use violence against one another and examines the effectiveness of various forms of political violence In the process of addressing these issues the essays make two conceptual moves that illustrate the need to reconsider the way violence by states and non state actors has typically been studied and understood The first is to think of violence not as dichotomous as either present or absent but to consider the wide range of nonviolent and violent options available and ask why actors come to embrace particular strategies The second is to explore the dynamic nature of violent conflicts developing explanations that can account for the eruption of violence at particular moments in time The arguments focus on how changes in the balance of power between and among states and non state actors generate uncertainty and threat thereby creating an environment conducive to violence This innovative way of understanding violence deemphasizes the role of ethnic cleavages and nationalism in modern conflict Contributors Kristin M Bakke Emily Beaulieu H Zeynep Bulutgil Erica Chenoweth Kathryn McNabb Cochran Kathleen Gallagher Cunningham Alexander B Downes Erin K Jenne Adria Lawrence Harris Mylonas Wendy Pearlman Maria J Stephan

Greece Roderick Beaton, 2019-10-30 For many Greece is synonymous with ancient Greece the civilization that gave us much that defines Western culture today But how did Greece come to be so powerfully attached to the legacy of the ancients in the first place and then define an identity for itself that is at once Greek and modern This book reveals the remarkable achievement during the last three hundred years of building a modern nation on the ruins of a vanished civilization sometimes literally so This is the story of the Greek nation state but also and more fundamentally of the collective identity that goes with it It is not only a history of events and high politics it is also a history of culture of the arts of people and of ideas Opening with the birth of the Greek nation state which emerged from encounters between Christian Europe and the Ottoman Empire Roderick Beaton carries his story into the present moment and Greece's contentious post recession relationship with the rest of the European Union Through close examination of how Greeks have understood their shared identity Beaton reveals a centuries old tension over the Greek sense of self How does Greece illuminate the difference between a geographically bounded state and the shared history and culture that make up a nation A magisterial look at the development of a national identity through history *Greece Biography of a Modern Nation* is singular in its approach By treating modern Greece as a biographical subject a living entity in its own right Beaton encourages us to take a fresh look at a people and culture long celebrated for their past even as they strive to build a future as part of the modern West
