Laugrand, Jarich G. Oosten, 2019-09-19 Over the century between the first Oblate mission to the Canadian central Arctic in 1867 and the radical shifts brought about by Vatican II the region was the site of complex interactions between Inuit Oblate missionaries and Grey Nuns interactions that have not yet received the attention they deserve Enriching archival sources with oral testimony Fr d ric Laugrand and Jarich Oosten provide an in depth analysis of conversion medical care education and vocation in the Keewatin region of the Northwest Territories They show that while

Christianity was adopted by the Inuit and major transformations occurred the Oblates and the Grey Nuns did not eradicate the old traditions or assimilate the Inuit who were caught up in a process they could not yet fully understand The study begins with the first contact Inuit had with Christianity in the Keewatin region and ends in the mid 1960s when an Inuk woman joined the Grey Nuns and two Inuit brothers became Oblate missionaries Bringing together many different voices perspectives and experiences and emphasizing the value of multivocality in understanding this complex period of Inuit history Inuit Oblate Missionaries and Grey Nuns in the Keewatin 1865 1965 highlights the subtle nuances of a long and complex interaction showing how salvation and suffering were intertwined **The Grey Swan Happening of our**

Universe Maurice Perks, 2024-03-01 This book is neither fact nor fiction It s something in the middle It s about the universe and time and is a book for ordinary inquisitive people to read Curious people who feel disconnected from much of the complex and jargon heavy logic about the universe and time that comes from scientific or religious quarters But the contents of this book might interest a broad segment of scientists causing them to raise their voices hands and arms in agreement or most probably disagreement Words like rubbish stupid and it s a na ve falsification may be uttered So be it This book is readable for the uninformed because most of it is in plain text and pictures with some elementary mathematics sprinkled here and there Various simple questions are posed as to why our universe exists and how it happened That happening was what the book terms a grey swan moment Time will not tell if that moment was even a moment because time is an earthly fabrication of our imagination and is not real Read this book and gain a fresh perspective on what has is and might happen
