The Korean War Stanley Sandler, 2014-01-14 First major clash with a communist army The Korean War was America s first ideological conflict and the first large scale clash between U S UN forces and a Communist army More than any other event it signaled the beginning of Cold War mobilization for the U S and NATO and even though the specter of international communism had since faded away the animosities of The Forgotten War threaten to flare up even today Focuses on military topics The Korean War contains articles of varying lengths on key topics that range from the origins of the conflict ground naval and air operations and tactical planning to the Truman MacArthur face off the POW issue and armistice negotiations The bulk of the Encyclopedia focuses on such military topics as the use of artillery the pioneering concept of helicopter evacuation of wounded new infantry tactics dictated by Communist POW riots civil affairs larger military units and communications There are also articles on civilian and military leaders including President Eisenhower General Ridgeway Kim Il Sung Chou En lai Syngman Rhee and others Special features Articles written by experts in the field Useful to librarians scholars researchers and students alike Includes 48 maps and photographs Covers an extraordinary range of key topics A chronology extensive

bibliography and a subject index are included An Annotated Bibliography of the United States Marines in the Korean War United States. Marine Corps, 1962 **The Korean War**, The Korean War has been termed The Forgotten War or the Unknown War It is a conflict which never assumed the mythic character of the American Civil War or World War II However this book asserts it would be impossible to understand the Cold War and indeed post 1945 global history without knowledge of the Korean War Providing a history of the Korean peninsula before the war and including a detailed analysis of the fighting itself The Korean War goes beyond the battlefield to deal with the war in the air ground attack and air evacuation The study also evaluates the contributions of the UN naval forces the impact of the war on various homefronts and issues such as defectors opposition to the war racial segregation and integration POWs and the media Recently released Soviet documents are used to assess the role of China the Soviet Union North and South Korea and the allied forces in the conflict This fascinating work offers a unique analysis of the Korean War and will be invaluable to students of twentieth century history particularly those concerned with American and Pacific history Historical Dictionary of the Korean War Paul M. Edwards, 2010-06-10 The Korean War has often been regarded as a forgotten war although that is certainly unfair It was if anything a rather crucial war within the ambit of the Cold War started by North Korea in 1950 and although the bulk of the fighting was over by 1954 peace has never been concluded and the two sides still face off over the demilitarized zone On the other side of the zone is South Korea which has since become a very prosperous and democratic country while North Korea has achieved relatively little So that war is certainly not forgotten by the Koreans And given the large number of deaths and casualties it is still remembered by many in the United States and other allies as well as China and the Soviet Union This Historical Dictionary of the Korean War now in its second edition does much to jolt our memory and inform us about the war This is done first in a lengthy chronology tracking the war but also the path to war and what happened after The introduction covers the war as a whole trying to make sense of it The dictionary section provides all of the necessary details on significant persons places and events battles and other engagements military units and material as well as the political economic and social background There are also maps and a list of acronyms This is really the ideal source for information in addition to which it also has an extensive bibliography The Korean War Andrew James Birtle, 2000 The first twelve months of the Korean War June 1950 June 1951 had been characterized by dramatic changes in the battlefield as the opposing armies swept up and down the length of the Korean peninsula This war of movement virtually ended on 10 July 1951 when representatives from the warring parties met in a restaurant in Kaesong to negotiate an end to the war Although the two principal parties to the conflict the governments of the Democratic People's Republic of Korea North Korea and the Republic of Korea ROK or South Korea were more than willing to fight to the death their chief patrons The People's Republic of China and the Soviet Union the one hand and the United States and the United Nations UN on the other were not Twelve months of bloody fighting had convinced Mao Tse tung Joseph V Stalin and Harry S Truman that it was not longer in their respective

national interests to try and win a total victory in Korea The costs in terms of men and materiel were too great as were the risks that the conflict might escalate into a wider global conflagration Consequently they compelled their respective Korean allies to accept a truce talks as the price for their continued military economic and diplomatic support Page 3
