The Koreans Who They Are What They Want Where Their Future Lies:

The Koreans Michael Breen, 2014-05-20 The rise of South Korea is one of the most unexpected and inspirational developments of the latter part of our century A few decades ago the Koreans were an impoverished agricultural people In one generation they came out of the fields and into Silicon Valley In 1997 this powerhouse of a nation reeled and almost collapsed as a result of a weak financial system and heavily indebted conglomerates The world is now watching to see whether the Koreans will be able to reform and continue their stunning growth Although Korea has only recently found itself a part of the global stage it is a country with a rich and complex past Early history shows that Koreans had a huge influence on ancient Japan and their historic achievements include being the first culture to use metal movable type for printing books However much of their history is less positive it is marred with political violence poverty and war aspects that would sooner be forgotten by the Koreans who are trying to focus on their promising future The fact that Korean history has eluded much of the world is unfortunate but as Korea becomes more of a global player understanding and appreciation for this unique nation has become indispensable In **The Koreans** Michael Breen provides an in depth portrait of the country and its people An early overview of the nature and values of the Korean people provides the background for a more detailed examination of the complex history of the country in particular its division into the Communist north and pro Western south In this absorbing and enlightening account of the Koreans Michael Breen provides compelling insight into the history and character of this fascinating nation

North Korea Paul French, 2007-07-15 This reissue of Paul French's acclaimed introduction to North Korea provides an up to the minute overview of the politics economics and history of the DPRK with added chapters dealing with recent events A new foreword examines why North Korea remains an issue in world politics and argues that an understanding of the country is more important now than ever A new in depth postscript offers analysis of recent years why Pyongyang felt compelled to test a bomb and revert to blatant nuclear diplomacy and how the crisis can be resolved peacefully

Escaping North Korea Mike Kim, 2010-05-16 The first of its kind this book provides a unique inside look into the hidden world of ordinary North Koreans Mike Kim who worked with refugees on the Chinese border for four years recounts their experiences of enduring famine sex trafficking and torture as well as the inspirational stories of those who overcame tremendous adversity to escape the repressive regime of their homeland and make new lives One of the few Americans granted entry into the secretive Hermit Kingdom Kim came to know the isolated country and its people intimately His North Korean friends entrusted their secrets to him as they revealed the government's brainwashing tactics and confessed their true thoughts about the repressive regime that so rigidly controls their lives Civilians and soldiers alike spoke of what North Koreans think of Americans and war with America Children remembered the suffering they endured through the famine Women and girls recalled their horrific experiences at the hands of sex traffickers Former political prisoners shared their memories of beatings torture and executions in the gulags With the permission of these courageous individuals Kim now shares their stories and recounts his dramatic experiences leading North Koreans to asylum through the six thousand mile modern day underground railway through Asia His unflinching narrative exposes the truth about North Korea stripping away the last veils that still shroud this brutal dictatorship

Voices of Foreign Brides Choong Soon Kim, 2011-10-16 Since the early 1990s there has been a critical shortage of marriageable women in farming and fishing villages in Korea This shortage which has become a major social problem resulted from a mass exodus of Korean women to cities and industrial zones Korea's efforts to give rural bachelors a chance to marry have succeeded in providing 120 146

brides from 123 countries However the Korean government has proven to be ill prepared to deal with the problems that foreign brides have encountered family squabbles prejudice discrimination divorce suicide and many adversities The UN Commission on the Elimination of Racial Discrimination warned Korea to stop mistreatment of foreign brides and their children those of so called mixed blood on account of human rights violations This book comprehensively covers Korean multiculturalism with a focus on the foreign brides In a two pronged ethnographic approach it offers a historical account of Korean immigration and naturalization while also relating that past to the contemporary situation As more and more people cross national boundaries this detailed description of Korean multiculturalism serves as a valuable case study for an increasingly globalized world Kim tells the stories of these voiceless women in a compassionate manner The Partition Motif in Contemporary Conflicts Smita Tewari Jassal,Eyal Ben-Ari,2007-01-12 Papers presented at the Conference on Memory and the Partition Motif in Contemporary Conflicts held in July 2005 *The Search for a Unified Korea* Eui-Gak Hwang,2010-03-11 North Korea s brinkmanship diplomacy has continued to disturb the world with its seemingly reckless missile testing as the country s leader Kim Jong Il is rumored to be terminally ill with pancreatic cancer North Korea appears to be in a state of serious internal crisis not only because its dictatorial system albeit skillful and ruthless leadership is inherently unstable if not skillful and ruthless leadership but also because the main pillar of Kim Jong Il s legitimacy is rapidly eroding due to both mass starvations and the exodus of grassroots and mass exodus of the North Korean people into nearby regions The main objective of this book is to explore the probability of North Korea s implosion and second to search for a feasible way for Korean reunification as a possible consequence of a big bang event on the peninsula The geopolitics of the Korean Peninsula is historically very complicated as Korea is bordered and surrounded by four big powers namely China Russia Japan and the United States Each country has its own varying degrees of political economic and military stakes with respect to the Korean Peninsula Thus the Land of the Morning Calm has remained divided since 1945 mainly as a result of the domain war among these super powers As the North nears a turning point however there is a new possibility for the two Koreas to reunite if the international environments work in their favor and if both countries are well prepared to assume reunification
