

THE Stephen King's LANGOLIERS

The Langoliers

John Sears

The Langoliers:

The Langoliers Stephen King, 2019-11-12 Stephen King's unforgettable novella first included in his 1990 award winning collection *Four Past Midnight* and made into a highly acclaimed miniseries about a terrifying plane ride into a most unfriendly sky. On a cross country redeye flight from Los Angeles to Boston ten passengers awaken in Bangor Maine to find that the crew and most of their fellow passengers have disappeared. The airport shows no signs of life. Yet they hear radio static in the distance. Craig Toomey an irritable investment banker on the verge of a breakdown believes it is The Langoliers monsters he was afraid of as a child who attack those who waste time. It's mystery author Bob Jenkins who first theorizes that they have flown through a time rip. Bob declares they have entered a place that forbids time travelers to observe or interfere with past events. It turns out that Craig is right in a way. Two creatures followed by hundreds more emerge from the forest and head for the plane consuming everything in their path. Can the survivors manage to fly the plane back to Los Angeles back to the correct time before The Langoliers succeed in their deadly mission to destroy the plane and the world. Dinah Bellman the young blind girl whose aunt did not survive the time rip has the greatest insight of all. A spine tingling propulsive novella *The Langoliers* is a brilliant read from the masterful Stephen King. **The Science of Stephen King** Lois H.

Stephen King's Gothic John Sears, 2011-06-30 Stephen King is the world's best selling horror writer. His work is ubiquitous on bookstore supermarket and personal library shelves and has been faithfully adapted into some of the most iconic horror films of the twentieth century. This study explores his writing through the lenses of contemporary literary and cultural theory. Through analyses of some of his best known work including *Carrie* and *Misery* the authors argue that King offers ways of encountering and understanding some of our deepest fears about life and death the past and the future technological change other people monsters ghosts and the supernatural.
