

"A passionate, spiritual culmination of a lifetime's study of both God and the stars." - Midwest Book Review

The First of Four Books Exploring How God Reveals Himself Through His Creation

"The Language of God in the Universe" takes a profound new look at Sacred Astronomy, the Gospel in the Stars, and their connection to the Bible. By understanding the allegorical Language that God utilizes to communicate to mankind, and applying it to the Zodiac and the Bible, both are shown to be filled with similar prophetic imagery. Many allegorical ties between the Bible and the Gospel in the Stars are revealed, and once mysterious prophetic Scriptures suddenly make sense. The Universe, and the forty-eight constellations of the ancient Zodiac are the biblical parallels on a giant scale. They tell a compelling story that fully agrees with the Bible, and the unfolding of biblical history. The Magi who found Christ likely knew this, and the book examines their possible use of Sacred Astronomy to locate His whereabouts in Bethlehem in 3 BC.

Secondly, the parallel-like allegories found in our Solar System, upon the Earth, and in various elements of nature are explored. By seeking the Language of God apparent in every created thing, each layer of Yah's creation can reveal startling truths about our Creator, His love of mankind, and His desire to save us from our worst enemies: Satan and our fallen nature.

A lifelong love of learning and fervent love for God have given Author and Artist Helena Lehman many deep insights that tie biblical symbolism with ancient legends and traditions. In this volume, she invites readers to discover the Soul of God revealed in the Cosmos, and the Earth.
