The Best Writing on Mathematics 2016 Mircea Pitici,2017-03-07 The year's finest mathematics writing from around the world This annual anthology brings together the year's finest mathematics writing from around the world Featuring promising new voices alongside some of the foremost names in the field The Best Writing on Mathematics 2016 makes available to a wide audience many articles not easily found

anywhere else and you don't need to be a mathematician to enjoy them. These writings offer surprising insights into the nature, meaning, and practice of mathematics today. They delve into the history, philosophy, teaching, and everyday occurrences of math and take readers behind the scenes of today's hottest mathematical debates. Here Burkard Polster shows how to invent your own variants of the Spot It card game. Steven Strogatz presents young Albert Einstein's proof of the Pythagorean Theorem. Joseph Dauben and Marjorie Senechal find a treasure trove of math in New York's Metropolitan Museum of Art, and Andrew Gelman explains why much scientific research based on statistical testing is spurious. In other essays, Brian Greene discusses the evolving assumptions of the physicists who developed the mathematical underpinnings of string theory, Jorge Almeida examines the misperceptions of people who attempt to predict lottery results, and Ian Stewart offers advice to authors who aspire to write successful math books for general readers. And there's much, much more. In addition to presenting the year's most memorable writings on mathematics, this must-have anthology includes a bibliography of other notable writings and an introduction by the editor, Mircea Pitici. This book belongs on the shelf of anyone interested in where math has taken us and where it is headed.

Death of the Territories Tim Hornbaker, 2018-09-18 For decades, distinct professional wrestling territories thrived across North America. Each regionally based promotion operated individually and offered a brand of localized wrestling that greatly appealed to area fans. Promoters routinely coordinated with associates in surrounding regions, and the cooperation displayed by members of the National Wrestling Alliance made it easy for wrestlers to traverse the landscape with the utmost freedom. Dozens of territories flourished between the 1950s and late 70s. But by the early 1980s, the growth of cable television had put new outside pressures on promoters. An enterprising third-generation entrepreneur who believed cable was his opportunity to take his promotion national soon capitalized on the situation. A host of novel ideas and the will to take chances gave Vincent Kennedy McMahon an incredible advantage. McMahon waged war on the territories and raided the NWA and AWA of their top talent. By creating WrestleMania, jumping into the pay-per-view field, and expanding across North America, McMahon changed professional wrestling forever. Providing never-before-revealed information, *Death of the Territories* is a must-read for fans yearning to understand how McMahon outlasted his rivals and established the industry's first national promotion. At the same time, it offers a comprehensive look at the promoters who opposed McMahon, focusing on their noteworthy power plays and embarrassing mistakes.
