The Shelburne Escape Line Réanne Hemingway-Douglass,Don Douglass,2020-01-31 An account of WWII rescues that pays tribute to the audacity and heroism of the men and women of the French Resistance and Allied military personnel

Warship World The Shelburne was one of the later escape lines that operated within Nazi occupied Europe It was established at the end of 1943 by two agents who worked for MI 9 the London based military intelligence agency responsible for providing assistance to Allied servicemen stranded behind enemy lines Working with the French Resistance these agents arranged for groups of Allied airmen to be taken from safe houses in Paris to Brittany where a Royal Navy motor gunboat picked them up from a secluded beach and delivered them back to England Eight audacious evacuation operations were conducted between January and August 1944 without the Shelburne Line ever being infiltrated by the Gestapo Aspects of the Shelburne story have been told previously in memoirs by several of the participants including the late MP Airey Neave who was an MI 9 operative However Hemingway Douglass expands the story to include recollections of some of the local Breton people who were involved with the Line The second half of the book comprises personal stories of airmen and other individuals who were affiliated with the Shelburne Line or were otherwise caught up in the war in France A lifelong Francophile Hemingway Douglass took eight years to research and write the book She describes it as a labor of love that pays tribute to the heroism and courage of ordinary people while reinforcing the fact that war touches everybody Fascinating A must read for military and espionage enthusiasts The Bulletin Military Historical Society      **Pilot for the West Coasts of France, Spain and Portugal** ,1867      *Atlantic France* Nick Chavasse,2023-03-24 From Ouessant in the north to Hendaye on the Spanish border the third edition of this comprehensive sailing guide to the Atlantic coast of France has once again been thoroughly revised and updated by Nick Chavasse aboard his Bowman 40 Wild Bird His coastal explorations have taken him over drying causeways and under mast height bridges up tranquil rivers and around sand strewn islands and this first hand familiarity is evident in the extent and depth of coverage Plans have been revised and updated throughout and there are numerous new photographs to help the navigator identify key features Atlantic France is the authoritative cruising guide for this most popular coastline of historic ports and idyllic anchorages with its sometimes challenging tides currents and pilotage      *The Dockyards, Shipyards and Marine of France* Patrick Barry,1864      *Hand-Book for Travellers in France ...* By John Murray III.
