The Governors Palace Archive:

The Governor's Palace Archive J. N. Postgate, 1973 A continuation of publishing the discoveries made at Nimrud by the British School of Archaeology in Iraq **Ancient Archives and Archival Traditions** Maria Brosius, 2003 Our oldest archival records originate from the Near East Systems of archival record keeping developed over several millennia in Mesopotamia before spreading to Egypt the Mycenaean world and the Persian empire and continuing through the Hellenistic and Seleucid periods Yet we know little about the way archival practices were established transmitted modified and adapted by other civilizations This interdisciplinary volume offers a systematic approach to archival documents and to the societies which created them addressing questions of formal aspects of creating writing and storing ancient documents and showing how archival systems were copied and adapted across a wide geographical area and an extensive period of time

Manuscripts and Archives Alessandro Bausi, Christian Brockmann, Michael Friedrich, Sabine Kienitz, 2018-02-19 Archives are considered to be collections of administrative legal commercial and other records or the actual place where they are located They have become ubiquitous in the modern world but emerged not much later than the invention of writing Following Foucault who first used the word archive in a metaphorical sense as the general system of the formation and transformation of statements in his *Archaeology of Knowledge* 1969 postmodern theorists have tried to exploit the potential of this concept and initiated the archival turn In recent years however archives have attracted the attention of anthropologists and historians of different denominations regarding them as historical objects and grounding them again in real institutions The papers in this volume explore the complex topic of the archive in a historical systematic and comparative context and view it in the broader context of manuscript cultures by addressing questions like how by whom and for which purpose were archival records produced and if they differ from literary manuscripts regarding materials formats and producers scribes The Governor's Palace Archive J. N. Postgate, 1973 Ladies of the Canyons Lesley Poling-Kempes, 2015-09-17 Ladies of the Canyons is the true story of remarkable women who left the security and comforts of genteel Victorian society and journeyed to the American Southwest in search of a wider view of themselves and their world Educated restless and inquisitive Natalie Curtis Carol Stanley Alice Klauber and Mary Cabot Wheelwright were plucky intrepid women whose lives were transformed in the first decades of the twentieth century by the people and the landscape of the American Southwest Part of an influential circle of women that included Louisa Wade Wetherill Alice Corbin Henderson Mabel Dodge Luhan Mary Austin and Willa Cather these ladies imagined and created a new home territory a new society and a new identity for themselves and for the women who would follow them Their adventures were shared with the likes of Theodore Roosevelt and Robert Henri Edgar Hewett and Charles Lummis Chief Tawakwaptiwa of the Hopi and Hostiin Klah of the Navajo Their journeys took them to Monument Valley and Rainbow Bridge into Canyon de Chelly and across the high mesas of the Hopi down through the Grand Canyon and over the red desert of the Four Corners to the

pueblos along the Rio Grande and the villages in the mountains between Santa Fe and Taos Although their stories converge in the outback of the American Southwest the saga of Ladies of the Canyons is also the tale of Boston s Brahmins the Greenwich Village avant garde the birth of American modern art and Santa Fe s art and literary colony Ladies of the Canyons is the story of New Women stepping boldly into the New World of inconspicuous success ambitious failure and the personal challenges experienced by women and men during the emergence of the Modern Age

Prehistoric, Ancient Near Eastern & Aegean Textiles and Dress Mary Harlow, Cécile Michel, Marie-Louise Nosch, 2014-09-30 Textile and dress production from raw materials to finished items has had a significant impact on society from its earliest history The essays in this volume offer a fresh insight into the emerging interdisciplinary research field of textile and dress studies by discussing archaeological iconographical and textual evidence within a broad geographical and chronological spectrum The thirteen chapters explore issues such as the analysis of textile tools especially spindle whorls and textile imprints for reconstructing textile production in contexts as different as Neolithic Transylvania the Early Bronze Age North Aegean and the Early Iron Age Eastern Mediterranean the importance of cuneiform clay tablets as a documentary source for both drawing a detailed picture of the administration of a textile industry and for addressing gender issues such as the construction of masculinity in the Sumerian kingdoms of the 3rd millennium BC and discussions of royal and priestly costumes and clothing ornaments in the Mesopotamian kingdom of Mari and in Mycenaean culture Textile terms testify to intensive exchanges between Semitic and Indo European languages especially within the terminology of trade goods The production and consumption of textiles and garments are demonstrated in 2nd millennium Hittite Anatolia from 1st millennium BC Assyria a cross disciplinary approach combines texts realia and iconography to produce a systematic study of golden dress decorations and finally the important discussion of fibres flax and wool in written and archaeological sources is evidence for delineating the economy of linen and the strong symbolic value of fibre types in 1st millennium Babylonia and the Southern Levant The volume is part of a pair together with *Greek and Roman Textiles and Dress An Interdisciplinary Anthology* edited by Mary Harlow and Marie Louise Nosch

The Spanish Archives of New Mexico Ralph Emerson Twitchell, 1914 In what follows can be found the doors to a house of words and stories This house of words and stories is the Archive of New Mexico and the doors are each of the documents contained within it Like any house New Mexico s archive has a tale of its own origin and a complex history Although its walls have changed many times its doors and the encounters with those doors hold stories known and told and others not yet revealed In the Archives there are thousands of doors 4 481 that open to a time of kings and popes of inquisition and revolution These archives writes Ralph Emerson Twitchell are by far the most valuable and interesting of any in the Southwest Many of these documents were given a number by Twitchell small stickers that were appended to the first page of each document an act of heresy to archivists and yet these stickers have now become part of the artifact These are the doors that Ralph Emerson Twitchell

opened at the dawn of the 20th century with a key that has served scholars policy makers and activists for generations In 1914 Twitchell published in two volumes The Spanish Archives of New Mexico the first calendar and guide to the documents from the Spanish colonial period Volume One of the two volumes focuses on the collection known as the Spanish Archives of New Mexico Series I or SANM I an appellation granted because of Twitchell s original compilation and description of the 1 384 documents identified in the first volume of his series The Spanish Archives of New Mexico was assembled by the Surveyor General of New Mexico 1854 1891 and the Court of Private Land Claims 1891 1904 The collection consists of civil land records of the Spanish period governments of New Mexico and materials created by the Surveyor General and Court of Private Land Claims during the process of adjudication It includes the original Spanish colonial petitions for land grants land conveyances wills mine registers records books journals dockets reports minutes letters and a variety of other legal documents Each of these documents tell a story sometimes many stories The bulk of the records accentuate the amazingly dynamic nature of land grant and settlement policies While the documents reveal the broad sweep of community settlement and its reverse effect hundreds of last wills and testaments are included in these records that are scripted in the most eloquent and spiritual tone at the passing of individuals into death These testaments also reveal a legacy of what colonists owned and bequeathed to the next generations Most of the documents are about the geographic political and cultural mapping of New Mexico but many reflect the stories of that which is owned both in terms of commodities and human lives Archives inevitably and these archives more than most help to shape current debates about dispossession the colonial past and the postcolonial future of New Mexico For this reason the task of understanding the role of archives archival documents and the kinds of stories that emanate from them has never been more urgent Let this effort and the key provided by Twitchell in his two volumes open the doors wide for knowledge to be useful today and tomorrow From the Foreword by Estevan Rael Galvez New Mexico State Historian [The Spanish Archives of New Mexico](#) Ralph Emerson Twitchell,2008 In 1914 Twitchell published in two volumes The Spanish Archives of New Mexico the first calendar and guide to the documents from the Spanish colonial period The bulk of the records accentuate the amazingly dynamic nature of land grant and settlement policies **Female and Male: The Cultic Personnel: The Bible and the Rest of the Ancient Near East** Richard A. The Lost Archive Marina Rustow, 2020-01-14 A compelling look at the Fatimid caliphate's robust culture of documentation The lost archive of the Fatimid caliphate 909-1171 survived in an unexpected place the storage room or geniza of a synagogue in Cairo recycled as scrap paper and deposited there by medieval Jews Marina Rustow tells the story of this extraordinary find inviting us to reconsider the longstanding but mistaken consensus that before 1500 the dynasties of the Islamic Middle East produced few documents and preserved even fewer Beginning with government documents before the Fatimids and paper's westward spread across Asia Rustow reveals a millennial tradition of state record keeping whose very continuities suggest the strength of Middle Eastern institutions not their weakness Tracing the complex routes by which Arabic documents made their way from Fatimid palace officials to Jewish scribes the book provides a rare window onto a robust culture of documentation and archiving not only comparable to that of medieval Europe but in many cases surpassing it Above all Rustow argues that the problem of archives in the medieval Middle East lies not with the region's administrative culture but with our failure to understand preindustrial documentary ecology Illustrated with stunning examples from the Cairo Geniza this compelling book advances our understanding of documents as physical artifacts showing how the records of the Fatimid caliphate once recovered deciphered and studied can help change our thinking about the medieval Islamic world and about premodern polities more broadly [History of the Akkadian Language \(2 vols\)](#) Juan-Pablo Vita, 2021-08-09 Akkadian is after Sumerian the second oldest language attested in the Ancient Near East as well as the oldest known Semitic language It is also a language with one of history's longest written records And yet unlike other relevant languages written over a long period of time there has been no volume dedicated to its own history The aim of the present work is to fill that void The outcome is presented in 26 chapters written by 25 leading authors and divided into two volumes the first covering the linguistic background and early periods and the second covering the second and first millennia BCE as well as its afterlife [Tiglath-pileser III, Founder of the Assyrian Empire](#) Josette Elayi, 2022-07-21 Most modern historians consider Tiglath

pileser III king of Assyria to be the true founder of the Assyrian Empire In Josette Elayi s latest work she takes up this issue in her biography and history of his reign 745 727 BCE Elayi explores questions surrounding how Tiglath pileser managed to expand the Assyrian Empire after a period of weakness what effects Assyrian domination had on Israel and Judah and how the two kingdoms fates differed Using archaeological and textual remains from the period she completes her trilogy of biographies which includes Tiglath pileser s successors son Sargon II and grandson Sennacherib who later led the Assyrian Empire to its greatest heights Elayi provides yet another essential resource for scholars and students of Assyrian history and the Hebrew Bible

From the Mari Archives Jack M. Sasson, 2015-06-18 For over 40 years Jack M Sasson has been studying and commenting on the cuneiform archives from Mari on the Euphrates River especially those from the age of Hammurabi of Babylon Among Mari s wealth of documents some of the most interesting are letters from and to kings their advisers and functionaries their wives and daughters their scribes and messengers and a variety of military personnel The letters are revealing and often poignant Sasson selects more than 700 letters as well as several excerpts from administrative documents translating them and providing them with illuminating comments In distilling a lifetime of study and interpretation Sasson hopes to welcome readers into a fuller appreciation of a remarkable period in Mesopotamian civilization Sasson s presentation is organized around major institutions in an ancient culture 1 Kingship treating accumulation of wealth control of vassals dynastic marriages treaty obligations as well as illustrating the hazards and vexation of ruling a large territory 2 Administration from palaces that teem with bureaucrats musicians and cooks to the management of provinces and vassal kingdoms 3 Warfare military establishment and martial practices 4 Society including organs of justice and shortcuts to it crime punishment and civil transactions 5 Religion including notices on diverse pantheons rituals priesthood cultic paraphernalia vows ordeals and channels to the gods divination dreams and prophecy and 6 Culture including ethnic distinctions class structure and moments in the life cycle birth childhood family life health matters death and commemoration Sasson s presentation of the material brings to life a world entombed for four millennia concretizes the realities of ancient life and gives it a human perspective that is at once instructive and entertaining The book is accompanied by extensive concordances and indexes including to biblical passages that will be useful to those who wish to study the letters more intensively
