Douglas Preston,2007-04-01 Douglas Preston's *Jennie* based on the real story of the chimpanzee who inspired *Curious George* is the celebrated novel that was made into the award winning Disney television film *The Jennie Project*. Translated into many languages *Jennie* became a worldwide bestselling sensation. On a research trip to West Africa Dr Hugo Archibald of the Boston Museum of Natural History encounters an orphaned baby chimpanzee. Archibald decides to bring the ape whom he names *Jennie* back to Boston and raise her alongside his own two young children as a kind of scientific experiment. *Jennie* captures the hearts of everyone she encounters. She believes herself to be a human being. She does almost everything a human child can from riding a tricycle to fighting over the television with her siblings to communicating in American Sign Language. Told from shifting points of view of those closest to *Jennie* this heartwarming and bittersweet novel forces us to take a closer look at the species that shares 98 percent of our DNA and ask ourselves the question What does it really mean to be human. Empty Hands, Open Arms Deni Ellis Béchard,2013-10-01 Absorbing Béchard's masterful adventure driven reporting delivers an inspiring account of an all too rare ecological success story. Booklist Bonobos have captured the public imagination due not least to their famously active sex lives. Less well known is the fact that these great apes don't kill their own kind and that they share nearly 99% of our DNA. Their approach to building peaceful coalitions and sharing resources has much to teach us particularly at a time when our violent ways have pushed them to the brink of extinction. Animated by a desire to understand bonobos and learn how to save them Deni Ellis Béchard traveled into the Congo. *Empty Hands, Open Arms* is the account of this journey. Along the way we see how partnerships between Congolese and Westerners with few resources but a common purpose and respect for indigenous knowledge have resulted in the protection of vast swaths of the rainforest. And we discover how small solutions found through openness, humility and the principle that poverty does not equal ignorance are often most effective in tackling our biggest challenges. Combining elements of travelogue, journalism and natural history this incomparably rich book takes the reader not only deep into the Congo but also into our past and future revealing new ways to save the environment and ourselves. Riveting and surprisingly uplifting. David Suzuki author of *The Sacred Balance*. The embodiment of the type of reporting that we dream of reading but all too rarely encounter. Intelligent, engaged and above all astonishingly perceptive. Dinaw Mengestu author of *The Beautiful Things That Heaven Bears*. Also published as *Of Bonobos and Men*. Wattana Chris Herzfeld,2016-05-02 She likes tea, sews, draws on papers and is a self taught master of tying and untying knots. But she is not a crafty woman of the DIY set. She is Wattana, an orangutan who lives in the Jardin des Plantes Zoo in Paris. And it is in Paris where Chris Herzfeld first encounters and becomes impressed by Wattana and her exceptional abilities with knots. In *Wattana: An Orangutan in Paris* Herzfeld tells not only Wattana's fascinating story but also the story of orangutans and other primates including bonobos, chimpanzees and gorillas in captivity. Offering a uniquely intimate look at the daily lives of captive great apes Herzfeld uses Wattana's life to trace the history of

orangutans from their first arrival in Europe in 1776 to the inhabitants of the Zoo of Paris and other zoos today She provides a close look at the habits technical know how and skills of Wattana who remarkably uses strings paper rolls rope and even pieces of wood to make things And she thoughtfully explores how apes individually and often with ingenuity come to terms with and adapt to their captive environments and caretakers Through these stories Wattana sympathetically reveals the extraordinary psychology and distinctive personalities of great apes as well as the interconnections between animal and human lives especially in zoos Scientists predict that orangutans will disappear from the wild by 2030 and captive animals like Wattana may as a result provide our best chance to understand and appreciate their astonishing intelligence and abilities Wattana the accomplished maker of knots is the hero of this poignant book which will enthrall anyone curious about the lives of our primate cousins
