Bagley,Jenny F. So,Maxwell K. Hearn,1980 Describes the Chinese Bronze Age including the development of the Chinese state writing religion and architecture Chinese Annals in the Western Observatory Edward Shaughnessy,2019-11-18 Since the beginning of the twentieth century hundreds of thousands of documents of all sorts have been unearthed in China opening whole new fields of study and transforming our modern understanding of ancient China While these discoveries have necessarily taken place in China Western scholars have also contributed to the study of these documents throughout this entire period This book provides a comprehensive survey of the contributions of these Western scholars to the field of Chinese paleography and especially to study of oracle bone inscriptions bronze and stone inscriptions and manuscripts written on bamboo and silk Each of these topics is provided with a comprehensive narrative history of studies by Western scholars as well as an exhaustive bibliography and biographies of important scholars in the field It is also supplied with a list of Chinese translations of these studies as well as a complete index of authors and their works Whether the reader is interested in the history of ancient China ancient Chinese paleographic documents or just in the history of the study of China as it has developed in the West this book provides one of the most complete accounts available to date ,

Mining and Quarrying in the Ancient Andes Nicholas Tripcevich,Kevin J. Vaughn,2012-12-09 Over the millennia from stone tools among early foragers to clays to prized metals and mineral pigments used by later groups mineral resources have had a pronounced role in the Andean world Archaeologists have used a variety of analytical techniques on the materials that ancient peoples procured from the earth What these materials all have in common is that they originated in a mine or quarry Despite their importance comparative analysis between these archaeological sites and features has been exceptionally rare and even more so for the Andes Mining and Quarrying in the Ancient Andes focuses on archaeological research at primary deposits of minerals extracted through mining or quarrying in the Andean region While mining often begins with an economic need it has important social political and ritual dimensions as well The contributions in this volume place evidence of primary extraction activities within the larger cultural context in which they occurred This important contribution to the

interdisciplinary literature presents research and analysis on the mining and quarrying of various materials throughout the region and through time Thus rather than focusing on one material type or one specific site Mining and Quarrying in the Ancient Andes incorporates a variety of all the aspects of mining by focusing on the physical social and ritual aspects of procuring materials from the earth in the Andean past

These Bones Shall Rise Again

David N. Keightley, 2014-08-13 David N Keightley's seminal essays on the origins of Chinese society are brought together in one volume These Bones Shall Rise Again brings together in one volume many of David N Keightley's seminal essays on the origins of early Chinese civilization Written over a period of three decades and accessible to the non specialist these essays provide a wealth of information and insights on the Shang dynasty traditionally dated 1766 1122 or 1056 BCE Of all the eras of Chinese history the Shang has been a particularly elusive one long considered more myth than reality A historian with a keen appreciation for anthropology and archaeology Keightley has given us many descriptions of Shang life Best known for his analysis of oracle bones he has looked beyond the bones themselves and expanded his historical vision to ponder the lives of those who used them What did the Shang diviner think he was doing The temerity to ask such questions and the insights they have provided have been provocative and at times controversial Equally intriguing have been Keightley's assertions that many of the distinctive features of Chinese civilization were already in evidence during the Shang 3000 years ago In this collection readers will find not only an essential reference but also the best kind of thought provoking scholarship

The

Lloyd Cotsen Study Collection of Chinese Bronze Mirrors Suzanne E. Cahill, 2012-05-30 The Lloyd Cotsen Study Collection of Chinese Bronze Mirrors is a 2009 co publication of the Cotsen Occasional Press and the UCLA Cotsen Institute of Archaeology Press Volume I The Lloyd Cotsen Study Collection of Chinese Bronze Mirrors Catalogue includes an engaging foreword by Lloyd Cotsen an overview of major Chinese dynasties and periods and a brief history of Chinese bronze mirrors by Suzanne E Cahill This volume presents a detailed catalogue of the extensive Cotsen Collection through high quality images and illustrations of the mirrors in their approximate chronological sequence Volume II a set of eleven scholarly essays goes further to investigate these mirrors as a study collection Guided by the conviction that this particular constellation of mirrors may lead to substantive insights that cannot easily be obtained otherwise the leading scholars who contributed to

this volume used the materials in Volume I as a point of departure for explorations of topics of their own choice The publication of this two volume set preceded an exhibition of the mirrors at the Huntington Library Art Museum and Botanical Gardens and the return of the collection to China in recognition of that countrys rightful cultural patrimony

Chinese Imperial City Planning Nancy Shatzman Steinhardt,1999-04-01 Chinese Imperial City Planning is the first synthesis of what is known from textual and archaeological evidence about every Chinese imperial capital from earliest times to the present It explains the fundamental architectural principles and visual characteristics of imperial planning in China and shows how these features are related to the Chinese idea of rulership The volume also reconstructs the 3 500 year old history of imperial planning using sources such as resident descriptions travel accounts official Chinese court records and the most recent archaeological and scholarly studies The extensive documentation provides students with a standard source of reference from which to embark on further research on Chinese urban planning

The Cambridge History of Ancient China Michael Loewe,Edward L. Shaughnessy,1999-03-13 The Cambridge History of Ancient China provides a survey of the cultural history of pre imperial China Fourteen leading specialists on early Chinese history and archaeology cover more than one thousand years There are two chapters for each time period Shang Western Zhou Spring and Autumn and Warring States one on institutional history based on both traditional and palaeographic literature and one on material culture based on archaeological evidence There are also chapters on the Neolithic background language intellectual history relations with Central Asia and the debts of both the Qin and Han empires to these earlier time periods Although written by specialists this Cambridge history aims to explain and describe pre imperial China to an audience that will include scholars and students as well as general readers without specialized knowledge of Chinese history It can be consulted as a work of reference or read continuously alone or as part of The Cambridge History of China series

Understanding Early Civilizations Bruce G. Trigger,2003-05-05 This book offers the first detailed comparative study of the seven best documented early civilizations ancient Egypt and Mesopotamia Shang China the Aztecs and adjacent peoples in the Valley of Mexico the Classic Maya the Inka and the Yoruba Unlike previous studies equal attention is paid to similarities and differences in their sociopolitical organization economic systems religion and culture Many of this study s findings are surprising and provocative Agricultural systems technologies and economic behaviour turn out to have been far more diverse than was expected These findings and many others challenge not only current understandings of early civilizations but also the theoretical foundations of modern archaeology and anthropology The key to understanding early civilizations lies not in their historical connections but in what they can tell us about similarities and differences in human behaviour
