The Great White Lie Slavery Emancipation And Changing Racial Attitudes:

The Great White Lie Jack Gratus, 1973-01-01 Anti slavery movement in Britain led by William Wilberforce The Great White Lies: Slavery Emancipation and Changing Racial Attitudes Jack Gratus, The Overthrow of Colonial Slavery Robin Blackburn, 2024-12-10 In 1770 a handful of European nations ruled the Americas drawing from them a stream of products both everyday and exotic Some two and a half million black slaves imprisoned in plantation colonies toiled to produce the sugar coffee cotton ginger and indigo craved by Europeans By 1848 the major systems of colonial slavery had been swept away either by independence movements slave revolts abolitionists or some combination of all three How did this happen Robin Blackburn's history captures the complexity of a revolutionary age in a compelling narrative In some cases colonial rule fell while slavery flourished as happened in the South of the United States and in Brazil elsewhere slavery ended but colonial rule remained as in the British West Indies and French Windwards But in French St Domingue the future Haiti and in Spanish South and Central America both colonialism and slavery were defeated This story of slave liberation and American independence highlights the pivotal role of the first emancipation in the French Antilles in the 1790s the parallel actions of slave resistance and metropolitan abolitionism and the contradictory implications of slaveholder patriotism The dramatic events of this epoch are examined from an unexpected vantage point showing how the torch of anti slavery passed from the medieval communes to dissident Quakers from African maroons to radical pirates from Granville Sharp and Ottobah Cuguanu to Toussaint L Overture from the black Jacobins to the Liberators of South America and from the African Baptists in Jamaica to the Revolutionaries of 1848 in Europe and the Caribbean *Slavery, Abolition and Emancipation Vol 3* Peter J Kitson, Debbie Lee, Anne K Mellor, James Walvin, 2020-04-23 Most writers associated with the first generation of British Romanticism Blake Coleridge Wordsworth Southey Thelwall and others wrote against the slave trade This edition collects a corpus of work which reflects the issues and theories concerning slavery and the status of the slave **Free at Last? Reflections on Freedom and the Abolition of the British Transatlantic Slave Trade** Cecily Jones, Amar Nahab, 2011-05-25 The global commemorative events of 2007 that marked the bicentennial anniversary of the parliamentary abolition of the African slave trade provided opportunity for widespread discussion between politicians community groups museums and heritage organisations the clergy and scholars as to the meanings of colonial and post colonial freedom As was evident from the tensions emerging from those debates the subject of the transatlantic slave trade and slavery remains highly charged as does the extent to which its legacy of racism predicated on theoretical assumptions of European cultural social political and economic superiority continues to maintain and reproduce complex systems of inequalities between peoples and societies Free at Last is an edited collection of interdisciplinary perspectives that critically reflects on the struggles of enslaved peoples and anti slavery activists to effect the abolition of the British slave trade as well as the post abolition global legacies of those diverse struggles for equality The chapters bring together multiple narratives and discourses about the

British abolition to reflect critically and comparatively on the boundaries between slavery and freedom the contestations and championing of freedom and the legacies of slavery and abolition in the contemporary context Racism in Contemporary America Meyer Weinberg,1996-05-23 Racism in Contemporary America is the largest and most up to date bibliography available on current research on the topic It has been compiled by award winning researcher Meyer Weinberg who has spent many years writing and researching contemporary and historical aspects of racism Almost 15 000 entries to books articles dissertations and other materials are organized under 87 subject headings In addition there are author and ethnic racial indexes Several aids help the researcher access the materials included In addition to the subject organization of the bibliography entries are annotated whenever the title is not self explanatory An author index is followed by an ethnic racial index which makes it convenient to follow a single group through any or all the subject headings This is a source book for the serious study of America s most enduring problem as such it will be of value to students and researchers at all levels and in most disciplines **The Great White Lie** Jack Gratus,1973 Representations of Slave Women in Discourses on Slavery and Abolition, 1780-1838 Henrice Altink,2005-06-22 This book analyzes textual representations of Jamaican slave women in three contexts motherhood intimate relationships and work in both pro and antislavery writings Altink examines how British abolitionists and pro slavery activists represented the slave women to their audiences and explains not only the purposes that these representations served but also their effects on slave women s lives *An American Health Dilemma* W. Michael Byrd,Linda A. Clayton,2012-10-02 At times mirroring and at times shockingly disparate to the rise of traditional white American medicine the history of African American health care is a story of traditional healers root doctors granny midwives underappreciated and overworked African American physicians scrupulous and unscrupulous white doctors and scientists governmental support and neglect epidemics and poverty Virtually every part of this story revolves around race More than 50 years after the publication of *An American Dilemma* Gunnar Myrdal s 1944 classic about race relations in the USA *An American Health Dilemma* presents a comprehensive and groundbreaking history and social analysis of race race relations and the African American medical and public health experience Beginning with the origins of western medicine and science in Egypt Greece and Rome the authors explore the relationship between race medicine and health care from the precursors of American science and medicine through the days of the slave trade with the harrowing middle passage and equally deadly breaking in period through the Civil War and the gains of reconstruction and the reversals caused by Jim Crow laws It offers an extensive examination of the history of intellectual and scientific racism that evolved to give sanction to the mistreatment medical abuse and neglect of African Americans and other non white people Also included are biographical portraits of black medical pioneers like James McCune Smith the first African American to earn a degree from a European university and anecdotal vignettes like the tragic story of the Hottentot Venus which illustrate larger themes *An American Health Dilemma* promises to become an irreplaceable and essential look at African American and medical history and will provide an

invaluable baseline for future exploration of race and racism in the American health system *Caribbean Slave Revolts and the British Abolitionist Movement* Gelien Matthews, 2006-06-15 In this illuminating study Gelien Matthews demonstrates how slave rebellions in the British West Indies influenced the tactics of abolitionists in England and how the rhetoric and actions of the abolitionists emboldened slaves Moving between the world of the British Parliament and the realm of Caribbean plantations Matthews reveals a transatlantic dialectic of antislavery agitation and slave insurrection that eventually influenced the dismantling of slavery in British held territories Focusing on slave revolts that took place in Barbados in 1816 in Demerara in 1823 and in Jamaica in 1831 32 Matthews identifies four key aspects in British abolitionist propaganda regarding Caribbean slavery the denial that antislavery activism prompted slave revolts the attempt to understand and recount slave uprisings from the slaves perspectives the portrayal of slave rebels as victims of armed suppressors and as agents of the antislavery movement and the presentation of revolts as a rationale against the continuance of slavery She makes shrewd use of previously overlooked publications of British abolitionists to prove that their language changed over time in response to slave uprisings Historians previously have examined the economic religious and political bases for slavery's abolishment in the Caribbean but Matthews here emphasizes the agency of slaves in the march toward freedom Her compelling work is a valuable analytical tool in the interpretation of abolition in North America uncovering the important connections between rebellious slaves on one side of the Atlantic and abolitionists on the other side **Black Theology,**

Slavery and Contemporary Christianity Anthony G. Reddie, 2016-04-15 *Black Theology Slavery and Contemporary Christianity* explores the legacy of slavery in Black theological terms Challenging the dominant approaches to the history and legacy of slavery in the British Empire the contributors show that although the 1807 act abolished the slave trade it did not end racism notions of White supremacy or the demonization of Blackness Black people and Africa This interdisciplinary study draws on biblical studies history missiology and Black theological reflection exploring the strengths and limitations of faith as the framework for abolitionist rhetoric and action This Black theological approach to the phenomenon of the trans Atlantic slave trade and the institution of slavery draws on contributions from Africa the Caribbean North America and Europe

Caryl Phillips, David Dabydeen and Fred D'Aguiar Abigail Ward, 2013-07-19 Slavery is a recurring subject in works by the contemporary black writers in Britain Caryl Phillips David Dabydeen and Fred D Aguiar yet their return to this past arises from an urgent need to understand the racial anxieties of twentieth and twenty first century Britain This book examines the ways in which their literary explorations of slavery may shed light on current issues in Britain today or what might be thought of as the continuing legacies of the UK's largely forgotten slave past In this highly original study of contemporary postcolonial literature Abigail Ward explores a range of novels poetry and non fictional works by these authors in order to investigate their creative responses to the slave past This is the first study to focus exclusively on British literary representations of slavery and thoughtfully engages with such notions as the ethics of exploring slavery the memory and

trauma of this past and the problems of taking a purely historical approach to Britain's involvement in slavery or Indian indenture. Although all three authors are concerned with the problem of how to commence representing slavery, their approaches to this problem vary immensely and this book investigates these differences.

Race, Power and Social Segmentation in Colonial Society Brian L. Moore, 2023-05-03. *Race Power and Social Segmentation in Colonial Society* 1987 studies Guyanese society after slavery and specifically examines the area of social classes and ethnic groups. It also focuses on the theoretical issues in the debate on pluralism versus stratification and provides a detailed interdisciplinary analysis of the process of structural change in a composite colonial society over a significantly long historical period over half a century.

The Georgians Penelope J. Corfield, 2022-02-08. A comprehensive history of the Georgians comparing past views of these exciting turbulent and controversial times with our attitudes today. The Georgian era is often seen as a time of innovations. It saw the end of monarchical absolutism, global exploration and settlements overseas, the world's first industrial revolution, deep transformations in religious and cultural life, and Britain's role in the international trade in enslaved Africans. But how were these changes perceived by people at the time? And how do their viewpoints compare with attitudes today? In this wide-ranging history, Penelope J. Corfield explores every aspect of Georgian life: politics and empire, culture and society, love and violence, religion and science, industry and towns. People's responses at the time were often divided. Pessimists saw loss and decline, while optimists saw improvements and light. Out of such tensions came the Georgian culture of both experiment and resistance. Corfield emphasizes those elements of deep continuity that persisted even within major changes and shows how new developments were challenged if their human consequences proved dire.

Donald Rodney Richard Hylton, 2025-01-23. Donald Rodney 1961–1998 was one of the most gifted, perceptive and innovative contemporary British artists of his time. A protagonist from the first generation of Black British-born art students in the early 1980s, Rodney and his peers brought a new dynamic to British art: a hitherto unseen interplay between aesthetics, politics, humour, and Black consciousness. Donald Rodney *Art Race and the Body Politic* is the first book-length study of a protean practice which spanned the early 1980s to the late 1990s and included a prodigious output of work across painting, photography, collage, assemblage, sculpture, installation, and new technologies. Across eight meticulously researched chapters, the book examines the social and cultural events which inspired Rodney's artwork and the responses it elicited. From his formative years in the West Midlands as a leading exponent of Black Art to a subsequent decade of unbridled visual innovation and social critique, the book ventures new detailed analyses of key works, exhibitions, artistic influences, and collaborations. Deploying recurring metaphors of the diseased, traumatised, and raced body, Rodney addressed racial and social inequality, legacies of slavery, police brutality, sport, and Black male identity in novel and powerful ways. Attending to the artist's material dexterity and visual acuity, the book considers how and why Rodney's innovative practice uniquely challenged delineations between the political and non-political, personal and public representation and visibility. Over a generation has passed since Rodney's

premature death from the effects of the hereditary blood disorder sickle cell anaemia at aged thirty six Despite this Rodney's work continues to speak to our contemporary moment in a multiplicity of ways As such the book provides a much needed critical perspective and insight to the work and legacy of a nonpareil British artist *Rule of Darkness* Patrick Brantlinger, 2013-01-14 A major contribution to the cultural and literary history of the Victorian age *Rule of Darkness* maps the complex relationship between Victorian literary forms genres and theories and imperialist racist ideology Critics and cultural historians have usually regarded the Empire as being of marginal importance to early and mid Victorian writers Patrick Brantlinger asserts that the Empire was central to British culture as a source of ideological and artistic energy both supported by and lending support to widespread belief in racial superiority the need to transform savagery into civilization and the urgency of promoting emigration *Rule of Darkness* brings together material from public records memoirs popular culture and canonical literature Brantlinger explores the influence of the novels of Captain Frederick Marryat pioneer of British adolescent adventure fiction and shows the importance of William Makepeace Thackeray's experience of India to his novels He treats a number of Victorian best sellers previously ignored by literary historians including the Anglo Indian writer Philip Meadows Taylor's *Confessions of a Thug* and *Seeta* Brantlinger situates explorers narratives and travelogues by such famous author adventurers as David Livingstone and Sir Richard Burton in relation to other forms of Victorian and Edwardian prose Through readings of works by Arthur Conan Doyle Joseph Conrad H Rider Haggard Rudyard Kipling John Hobson and many others he considers representations of Africa India and other non British parts of the world in both fiction and nonfiction The most comprehensive study yet of literature and imperialism in the early and mid Victorian years *Rule of Darkness* offers in addition a revisionary interpretation of imperialism as a significant factor in later British cultural history from the 1880s to World War I It is essential reading for anyone concerned with Victorian culture and society and more generally with the relationship between Victorian writers and imperialism and between racist ideology and patterns of domination in modern history **The Overthrow of Colonial Slavery, 1776-1848** Robin Blackburn, 1988 A brilliant evocation of the diverse nature of New World slavery in the Revolutionary Age Copyright Libri GmbH All rights reserved

Among Australia's Pioneers Margaret Slocomb, 2014-07-25 The almost simultaneous abolition of the slave trade and the cessation of convict transportation to the colony of New South Wales now eastern mainland Australia started a quest by the squatter pastoralists for alternative sources of cheap labor for their vast sheep runs Over a period of five years beginning from 1848 around three thousand Chinese men and boys from Fujian Province were recruited under conditions little different from the slave trade In *Among Australia's Pioneers* author Margaret Slocomb focuses on the experiences of approximately two hundred of these Chinese laborers between 1848 and 1853 Her research examines their working conditions during the five year indenture period and also traces the lives of several of the men who at the end of their contract chose to remain in those districts which by then had become familiar to them Perhaps they regarded themselves as pioneer immigrants Slocomb

recounts the experiences of these men on the dangerous northern frontier of European settlement While some succumbed to the despair and loneliness of a shepherds life others survived their indenture and went on to play an important role in the emerging society of the new colony of Queensland They may certainly be counted among the nations pioneers *Debating the Slave Trade* Srividhya Swaminathan,2016-05-13 How did the arguments developed in the debate to abolish the slave trade help to construct a British national identity and character in the late eighteenth century Srividhya Swaminathan examines books pamphlets and literary works to trace the changes in rhetorical strategies utilized by both sides of the abolitionist debate Framing them as competing narratives engaged in defining the nature of the Briton Swaminathan reads the arguments of pro and anti abolitionists as a series of dialogues among diverse groups at the center and peripheries of the empire Arguing that neither side emerged triumphant Swaminathan suggests that the Briton who emerged from these debates represented a synthesis of arguments and that the debates to abolish the slave trade are marked by rhetorical transformations defining the image of the Briton as one that led naturally to nineteenth century imperialism and a sense of global superiority Because the slave trade debates were waged openly in print rather than behind the closed doors of Parliament they exerted a singular influence on the British public At their height between 1788 and 1793 publications numbered in the hundreds spanned every genre and circulated throughout the empire Among the voices represented are writers from both sides of the Atlantic in dialogue with one another such as key African authors like Ignatius Sancho Phillis Wheatley and Olaudah Equiano West India planters and merchants and Quaker activist Anthony Benezet Throughout Swaminathan offers fresh and nuanced readings that eschew the view that the abolition of the slave trade was inevitable or that the ultimate defeat of pro slavery advocates was absolute *Bibliografía corriente del Caribe* ,1976 Issue for Dec 1953 v 3 no 3 4 cumulative from 1950
