The Case of the Green Turtle Alison Rieser, 2012-07-15 The true story of the controversial battle to save the world's most famous endangered species The journals of early maritime explorers traversing the Atlantic Ocean often describe swarms of sea turtles once a plentiful source of food Many populations had been decimated by the 1950s when Archie Carr and others raised public awareness of their plight One species the green turtle has been the most heavily exploited due to international demand for turtle products especially green turtle soup The species has achieved some measure of recovery due to thirty years of conservation efforts but remains endangered In *The Case of the Green Turtle* Alison Rieser provides an unparalleled look into the way science and conservation interact by focusing on the most controversial aspect of green turtle conservation farming While proponents argued that farming green sea turtles would help save them opponents countered that it encouraged a taste for turtle flesh that would lead to the slaughter of wild stocks The clash of these viewpoints once riveted the world Rieser relies on her expertise in ocean ecology policy and law to reveal how the efforts to preserve sea turtles changed marine conservation and the way we view our role in the environment Her study of this early conservation controversy will fascinate anyone who cares about sea turtles or the oceans in which they live

where the hedges were white with dust and dry with heat to a vast open space apparently at the World's End Here the saltings spread raggedly towards the stately stream of the Thames intersected by dykes and ditches by earthen ramparts crooked fences sod walls and irregular lines of stunted trees following the water courses The marshes were shaggy with reeds and rushes and brown with coarse fading herbage although here and there gleamed emerald hued patches of water

soaked soil fit for fairy rings Beyond a moderately high embankment of turf and timber the lovers could see the broad river sweeping eastward to the Nore with homeward bound and outward faring ships afloat on its golden tide Across the gleaming waters from where they lipped their banks to the foot of low domestic Kentish hills stretched alluvial lands sparsely timbered and in the clear sunshine clusters of houses great and small factories with tall smoky chimneys clumps of trees and rigid railway lines could be discerned The landscape was not beautiful in spite of the sun s profuse gildings but to the lovers it appeared a Paradise Cupid lord of gods and men had bestowed on them the usual rose colored spectacles which form an important part of his stock in trade and they looked abroad on a fairy world Was not SHE there was not HE there could Romeo or Juliet desire more From their feet ran the slim straight causeway which was the King s highway of the district a trim prim line of white above the picturesque disorder of the marshes It skirted the low lying fields at the foot of the uplands and slipped through an iron gate to end in the far distance at the gigantic portal of The Fort This was a squat ungainly pile of rugged gray stone symmetrically built but aggressively ugly in its very regularity since it insulted the graceful curves of Nature everywhere discernible It stood nakedly amidst the bare bleak meadows glittering with pools of still water with not even the leaf of a creeper to soften its menacing walls although above them appeared the full foliated tops of trees planted in the barrack yard It looked as though the grim walls belted a secret orchard What with the frowning battlements the very few windows diminutive and closely barred the sullen entrance and the absence of any gracious greenery Gartley Fort resembled the Castle of Giant Despair On the hither side but invisible to the lovers great cannons scowled on the river they protected and when they spoke received answer from smaller guns across the stream There less extensive forts were concealed amidst trees and masked by turf embankments to watch and guard the golden argosies of London commerce
