Environment, Nature Conservation
and Nuclear Safety

The Greening Of Us Foreign Policy

**United States. Congress. House.
Committee on Foreign Affairs**

The Greening Of Us Foreign Policy:

U.S. Foreign Policy Donald M. Snow, Patrick J. Haney, 2017-08-02 U S Foreign Policy Back to the Water's Edge is based on the old idea that despite domestic differences and party politics Americans should unite at the water's edge and present a cohesive front to a hostile world The fifth edition explores this theme through coverage of the Trump administration its early policies and how Trump's initiatives fit into the broader historical patterns of foreign policy in the United States More compact than most of its competitors the fifth edition packs necessary information and concepts into a lean but readable format It contains rich historical content providing the reader with snapshots of some of the truly classic highlights and lowlights of America's record in foreign affairs Written with the student reader in mind each chapter offers several pedagogical aids designed to reinforce and extend comprehension of the material This text is also accompanied by a companion reader Regional Cases in Foreign Policy Second Edition was written by Don Snow with the specific intention of providing material and perspectives not contained in the text The reader contains fourteen mini cases that can accompany classroom discussions or lectures on subjects as diverse as relations with Russia Israel or the Islamic State specific questions like the border fence with Mexico U S Cuban relations or the British withdrawal from the European Union Brexit Case examples are drawn from all parts of the world

US Foreign Policy After the Cold War Fraser Cameron, 2006-03-20 Since the success of the best selling first edition the world has remained fascinated with US foreign policy not least because of the far reaching consequences of the US led invasion of Iraq This fully updated textbook follows the events of the past two and a half years including the 2004 presidential campaign whilst still providing a comprehensive introduction to all aspects of American foreign policy Chapter headings include from colony to superpower the post Cold War decade the role of Congress the media and public opinion the US and terrorism Examining the administrations of George Bush Bill Clinton and George W Bush it explains the complex interaction between the institutions of power the key actors and the non governmental organizations to give a complete picture of foreign policy With a complete glossary of terms this textbook is ideal for those studying American politics or international relations Companion website available at www.routledge.com/textbooks/0415358655

Secrecy in US Foreign Policy Yukinori Komine, 2016-04-01 Secrecy in US Foreign Policy examines the pursuit of strict secrecy by President Nixon and his National Security Advisor Kissinger in foreign policy decision making in relation to the US rapprochement with China Moreover it sheds new light on the complexity and dynamism of the evolution of China initiatives and demonstrates the many policy options and perspectives among US officials Dr Komine focuses on three major elements of the rapprochement

The Greening of Sovereignty in World Politics Karen Litfin, 1998 This is the first book to connect two important subfields in international relations global environmental politics and the study of sovereignty the state's exclusive authority within its territorial boundaries The authors argue that the relationship between environmental practices and sovereignty is by no means straightforward and in fact elucidates some of the core issues and

challenges in world politics today Although a number of international relations scholars have assumed that transnational environmental organizations and institutions are eroding sovereignty this book makes the case that ecological integrity and state sovereignty are not necessarily in opposition It shows that the norms of sovereignty are now shifting in the face of attempts to cope with ecological destruction but that this greening of sovereignty is an uneven variegated and highly contested process By establishing that sovereignty is a socially constructed institution that varies according to time and place with multiple meanings and changing practices *The Greening of Sovereignty in World Politics* illuminates the complexity of the relationship between sovereignty and environmental matters and casts both in a new light Contributors Daniel Deudney Margaret Scully Granzeier Joseph Henri Jupille Sheldon Kamieniecki Thom Kuehls Ronnie D Lipschutz Karen T Litfin Marian A L Miller Ronald B Mitchell Paul Wapner Veronica Ward Franke Wilmer *The Greening of U.S. Foreign Policy* Terry Lee Anderson, Henry I. Miller, 2000 In 1996 the U S government announced an increased emphasis on environmental issues in its foreign affairs Since then green foreign policy has become a threat to national sovereignty without improving environmental quality This collection of essays takes a hard look at how environmental concerns have come to help determine U S foreign policy and the dangers that this poses ***The Christian Right & US Foreign Policy in the 21 st Century*** Mohd Afandi Salleh, 2020-01-07 This book is about the role of the Christian Right in the US foreign policy decision making process It reveals that the Christian Right has long been fascinated with some international issues in general and US foreign policy in particular The interest of the movement in international issues increased markedly during the George W Bush administration 2000 2009 During this period the movement successfully widened its activism from domestic social conservative issues to foreign policy issues by participating in articulating and lobbying for its religious version of American foreign policy In assessing the role of the Christian Right in US foreign policy making this dissertation examines aspects of US foreign policy namely Israel international religious freedom and global humanitarianism Based on these three aspects the Christian Right is seen as skilled in framing and defining issues The Christian Right seems effective in selecting and prioritizing international issues that have a reasonable chance of being picked up on by foreign policy decision makers especially in Congress Moreover the Christian Right has shown its maturity in seeking engagement and cooperation with other organizations regardless of whether they are secular or religious to advance its international goals Finally in pursuing and conveying its international agenda the Christian Right has adopted a more moderate and mundane approach Instead of using its traditional religious rhetoric the Christian Right has successfully projected its foreign policy preferences into the conventional realist discourse of American foreign policy that was largely based on the objective of national interest and national security *United States Foreign Policy* United States. Congress. Senate. Committee on Foreign Relations, 1959 *American Exceptionalism and US Foreign Policy* S. McEvoy-Levy, 2001-04-06 The book examines a critical time and place in recent world history the end of the Cold War and the strategies and values employed in the public diplomacy of the Bush and

Clinton Administrations to build domestic and international consensus It provides insight into the uses of Presidential power and provides a model and an illustration of how the role of rhetoric may be used to study the foreign policy of the United States **Hearings, Reports and Prints of the House Committee on Foreign Affairs** United States. Congress. House. Committee on Foreign Affairs (1789-1975),1970 *U.S. Foreign Policy* United States. Congress. Senate. Committee on Foreign Relations,1959 US Foreign Policy Michael Cox,Doug Stokes,2012-02-09 This textbook provides a comprehensive introduction to US foreign policy Bringing together a number of the world s leading experts the text deals with the rise of America US foreign policy during and after the Cold War and the complex issues facing the US since September 11th

The Environment, International Relations, and U.S. Foreign Policy Paul G. Harris,2002-02-14 As the world s largest polluter and its wealthiest country the United States has a potentially enormous impact on international efforts to protect the environment In this innovative and thought provoking book an international group of scholars examines how U S foreign policy affects and is affected by global environmental change Covering three broad areas national security and geopolitics domestic and international politics and national interests and international obligations the contributors examine a host of key issues including ozone depletion and climate change biodiversity and whale hunting environmental and energy security and international trade They also raise moral issues associated with the United States s obligations to the rest of humanity Because the environment has become an ever more pressing issue at the diplomatic level this book is essential timely reading for policymakers activists and anyone interested in environmental change and international relations The Future of U.S. Foreign Policy United States. Congress. House. Committee on Foreign Affairs,1993 **The Making of US Foreign Policy** John Dumbrell,David M. Barrett,1997 Fully revised and updated this new edition analyses the relationship between the process and substance of US foreign policy since the mid 1960s **Obama, US Foreign Policy and the Dilemmas of Intervention** D. Fitzgerald,D. Ryan,2014-10-03 This timely study analyses the ways in which competing ideologies and cultural narratives have influenced the Obama administration s decision making on Iraq Afghanistan Libya and Syria situating these decisions within the broader history of American foreign policy Survey of Activities of the Committee on Foreign Affairs United States. Congress. House. Committee on Foreign Affairs,1969 **The Future of U.S. Foreign Policy in Asia and the Pacific** United States. Congress. House. Committee on International Relations. Subcommittee on International Economic Policy and Trade,1996 The Future of U.S. Foreign Policy: Functional issues United States. Congress. House. Committee on Foreign Affairs,1993 **Congress and U.S. Foreign Policy** Ralph G. Carter,, James M. Scott,2021-06-03 In Congress and U S Foreign Policy leading scholars examine the foreign policy activity role and influence of the U S Congress in the current polarized and partisan political context Challenging conventional views the contributors reveal how members of Congress have been active and assertive utilizing numerous different means to influence US foreign policy sometimes supporting and sometimes opposing the President The contributors provide in depth

analysis and expert perspectives on the issues decisions and debates that have arisen across multiple presidential administrations in the polarized political context since the end of the Cold War This polarized environment greatly increases the conflict among and complicates the ability of policymakers to reach compromises much less consensus on the appropriate ends and means of US foreign policy This timely and cohesive reassessment of the tumultuous years of the most recent presidential administrations focuses analytical attention on the patterns of engagement between Congress and the President and the range of avenues and influence by the collective institution and its individual members It thus sheds light on the role and behavior of Congress and its members in US foreign policy as a vital aspect of understanding how and why the US chooses its policy courses toward the world

The Routledge Handbook of US Foreign Policy in the Indo-Pacific

Oliver Turner, Nicola Nymalm, Wali Aslam, 2022-12-30 This handbook provides a comprehensive survey of US foreign policy throughout the Indo Pacific Home to around 60 percent of the world's population most of the world's largest and fastest growing economies around half of the world's states with full nuclear capabilities and a complicated web of unresolved tensions disputes and conflicts the Indo Pacific is arguably the most diverse dynamic and contested region on Earth US strategy there has evolved over centuries with its physical presence going broadly unchallenged since at least the middle of the last century However the rapid development and expanding influence of China alongside the growth of India Indonesia Vietnam the Philippines and others as well as political and economic crises and disruptions within the United States itself mean that in recent times the US has come to occupy a newly uncertain position and perceive a range of highly unfamiliar challenges To explore how the US has managed and continues to manage its regional history and how it approaches the modern day landscape of an Indo Pacific only recently normalised within international political discourse the book contains 33 newly commissioned chapters from leading experts in the field It does so partly with help from the more traditional realms of International Relations theory as well as more critical realms It also unpacks US policy and strategy as it pertains to regional governments states and multilateral institutions as well as to pressing issues including inter state security human rights trade artificial intelligence and cyber strategy It does so in four parts History of the US in the Indo Pacific Theorising US Policy and Presence in the Indo Pacific The US and Indo Pacific States and Institutions The US and Indo Pacific Issues The book is designed to be of interest to students and scholars of the US in the Indo Asia Pacific the international relations of the Indo Asia Pacific and US foreign policy
