The Kremlin And Labor A Study In National Security Policy:

The Kremlin and Labor Roy Godson, 1977 *Air University Review*, 1980 **British Labour and the Cold War** Peter Weiler, 1988 A critical examination of the labour government and trades Union Congress in the immediate postwar period this book argues that the Cold War was not just a traditional conflict between states but also an attempt to contain the growth of radical working class movements at home and abroad These radical movements stimulated by the Second World War and its aftermath seemed to policymakers within the Labour Party and the TUC to threaten British interests The author contends that the Labour government never seriously considered following a socialist foreign policy but instead sought to shape political developments throughout the world in ways most conducive to maintaining Britain's traditional economic and imperial interests The government was able to follow established policies abroad and increasingly at home at least in part because British trade union leaders supported its attempts to prevent radicals and communists from coming to power in trade union movements inside Britain and throughout the world In so doing the trade union movement significantly extended its links with the state in particular by cooperating with it in the sphere of foreign and colonial labour policy USIA United States. Congress. Senate. Committee on Foreign Relations, 1984 **Naval Race Or Arms Control in the Indian Ocean?** Alvin J. Cottrell, Walter F. Hahn, **The China Sea** Harold C. Hinton, **Divisions of Labor** Lonny E. Carlile, 2005-01-31 Divisions of Labor positions the ideological and organizational evolution of the Japanese labor movement within the larger historical currents that shaped and organized labor globally in the twentieth century Interspersing detailed narratives of Japanese labor history with analyses of parallel developments in Western European and international labor movements Lonny Carlile shows how world views and labor movement strategies were shared across national boundaries and shaped in similar ways in the industrialized West and East Beyond this he highlights how in both Western Europe and Japan issues that had divided labor since the 1920s were central to the Cold War which kept labor movements at odds with themselves internally in systematically similar ways His book suggests that to the extent that the historical courses of labor movements diverged this was as much a product of differences in geopolitical location as any inherent cultural or nationally specific ideological tendency The volume's approach brings to the fore an important new dimension to our existing understanding of post World War II Japanese labor and political history by outlining the connection between the politics of Japanese labor and the structure and dynamics of global politics In addition by drawing out these parallels and similarities it provides thought provoking insights into twentieth century labor movements in general Divisions of Labor will be of interest not only to students and specialists of Japan and East Asia but also to readers with a more general interest in labor history and politics diplomatic history Cold War history comparative politics and sociology **The United States and the Persian Gulf** Alvin J. Cottrell, Michael Moodie, 1984-01-01 Russia National Security and Defence Policy Handbook Volume 1 Strategic Information and Basic Laws IBP, Inc., 2014-10-07 2011 Updated Reprint Updated Annually Russia National Security and

Defense Policy Handbook *Naval War College Review* ,1978 **The John M. Olin Lecture Series in National Security and Defense Studies** ,1992 Russia's National Security in Aleksandr Dugin's Neo-Eurasianism Marcin Skladanowski,2023-09-05 Aleksandr Dugin is an extremely radical thinker Nevertheless it is worth dealing with his thought because it shows in an exaggerated form how the evolution of social and political ideas took place in the history of Russia which led to Putin s contemporary neo imperialism This book presents the Russian discourse on national security against a broader background of global academic reflection takes a closer look at the sources and ideological basis of the concept of Russia s security developed by Dugin discusses the subject and main dimensions of Russia s national security in Dugin s works and shows the importance of Russia s foreign policy for the creation of its national security **Congressional Record** United States. Congress,2000 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 *Migrant Workers in Russia* Anna-Liisa Heusala,Kaarina Aitamurto,2016-09-13 Russia has a very large pool of economic migrants up to 25% of the workforce according to some estimates Although many migrants many from former Soviet countries which are now independent entered Russia legally they frequently face bureaucratic obstacles to legal employment and Russian citizenship factors which have led to a very large shadow economy This book presents a comprehensive examination of migrant labour in Russia It describes the nature of migrant labour explores the shadow economy and its unfortunate consequences and discusses the rise of popular sentiment against migrants and the likely impact The book also sets the Russian experiences of migrant labour in context comparing the situation in Russia with that in other countries with significant migrant labour workforces The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license **Globalistics and Globalization Studies** George Modelski.,Anton L. Markov,Joseph Voros,Alexander D. Panov,2015-01-01 This yearbook is the fourth in the series with the title Globalistics and Globalization Studies The subtitle of the present volume is Global History Big History The point is that today our global world really demands global knowledge Thus there are a few actively developing multidisciplinary approaches and integral disciplines among which one can name Global Studies Global History and Big History They all provide a connection between the past present and future Big History with its vast and extremely heterogeneous field of research encompasses all the forms of existence and all timescales and

brings together constantly updated information from the scientific disciplines and the humanities Global History is transnational or world history which examines history from a global perspective making a wide use of comparative history and of the history of multiple cultures and nations Global Studies express the view of systemic and epistemological unity of global processes Thus one may argue that Global Studies and Globalistics can well be combined with Global History and Big History and such a multi disciplinary approach can open wide horizons for the modern university education as it helps to form a global view of various processes

The Treaty on Conventional Armed Forces in Europe Mark

Wilcox,2024-03-04 This work examines the CFE Treaty as a factor in Russia s foreign and security policy Moscow showed amazing persistence in their relationship with the cornerstone of European security Their approach to the treaty was a genuine attempt to shape the security environment in Europe and the former USSR The treaty also enabled the dismantling of large conventional forces as they returned from Eastern Europe and transitioned into the armies of the newly independent states of the former USSR The CFE Treaty though proved ineffective at constraining the enlargement of NATO

Simultaneously Moscow s foreign and security policy evolved from one that focused on the domestic development of the country to that of a more confident state reasserting itself as a great power Drawing extensively on primary sources and analyses by Russian authors this book employs two historical narratives case studies and a conceptual framework to show that while Moscow remained engaged with the CFE Treaty undesired effects on Russia s national interests gradually accrued at the expense of desired ones leading Vladimir Putin to withdraw Russia from the treaty as an act of de coupling from the collective West This book is relevant to scholars and policymakers who want to understand Russia s approach to arms control as an element of military security

Russia and East Asia Tsuneo Akaha,Anna Vassilieva,2014-02-05

Russia has generally been neglected in the academic and policy discourse on regional integration in East Asia This book fills this gap with particular attention to the role of Pacific Russia in the deepening regional integration in East Asia It examines the increasingly diverse foreign policy interests of Russia related to emerging economic and political realities of the world and Russia s potential role in the regional integration in East Asia Topics discussed include Russian strategic interests and security policy in East Asia generally Russia s bilateral relations with China Japan and the Korean Peninsula opportunities and challenges energy and immigration presents for Russia and its engagement with East Asia and Russia s present and future roles in regional integration in East Asia

China, Russia, and Twenty-first Century Global Geopolitics Paul J.

Bolt,Sharyl Cross,2018 This book provides a comprehensive analysis of the Chinese Russian bilateral relationship grounded in a historical perspective and discusses the implications of the burgeoning strategic partnership between these two major powers for world order and global geopolitics The volume compares the national worldviews priorities and strategic visions for the Chinese and Russian leadership examining several aspects of the relationship in detail The energy trade is the most important component of economic ties although both sides desire to broaden trade and investments In the military realm

Russia sells advanced arms to China and the two countries engage in regular joint exercises Diplomatically these two Eurasian powers take similar approaches to conflicts in Ukraine and Syria and also cooperate on non traditional security issues including preventing coloured revolutions cyber management and terrorism These issue areas illustrate four themes Russia and China have common interests that cement their partnership including security protecting authoritarian institutions and re shaping aspects of the global order They are key players not only influencing regional issues but also international norms and institutions The Sino Russian partnership presents a potential counterbalance to the United States and democratic nations in shaping the contemporary and emerging geopolitical landscape Nevertheless the West is still an important partner for China and Russia Both seek better relations with the West but on the basis of mutual respect and equality Lastly Russia and China have frictions in their relationship and not all of their interests overlap The Sino Russian relationship has gained considerable momentum particularly since 2014 as Moscow turned to Beijing attempting to offset tensions with the West in the aftermath of Russia s annexation of Crimea and intervention in Ukraine However so far China and Russia describe their relationship as a comprehensive strategic partnership but they are not allies
