The Last Colonial:

The Obsolete Empire Philip Tsang, 2021-11-02 Modernist literature at the end of the British empire challenges conventional notions of homeland heritage and community Finalist of the MSA First Book Prize by The Modernist Studies Association The waning British empire left behind an abundance of material relics and an inventory of feelings not easily relinquished In *The Obsolete Empire* Philip Tsang brings together an unusual constellation of writers Henry James James Joyce Doris Lessing and V S Naipaul to trace an aesthetics of frustrated attachment that emerged in the wake of imperial decline Caught between an expansive Britishness and an exclusive Englishness these writers explored what it meant to belong to an empire that did not belong to them Thanks to their voracious reading of English fiction and poetry in their formative years all of these writers experienced a richly textured world with which they deeply identified but from which they felt excluded The literary England they imagined frozen in time and out of place with the realities of imperial decline in turn figures in their writings as a repository of unconsummated attachments contradictory desires and belated exchanges Their works arrest the linear progression from colonial to postcolonial from empire to nation and from subject to citizen Drawing on a rich body of scholarship on affect and temporality Tsang demonstrates how the British empire endures as a structure of desire that outlived its political lifespan By showing how literary reading sets in motion a tense interplay of intimacy and exclusion Tsang investigates a unique mode of belonging arising from the predicament of being conscripted into a global empire but not desired as its proper citizen Ultimately *The Obsolete Empire* asks What does it mean to be inside or outside any given culture How do large scale geopolitical changes play out at the level of cultural attachment and political belonging How does literary reading establish or unsettle narratives of who we are These questions preoccupied writers across Britain's former empire and continue to resonate today

The Last Colony Philippe Sands, 2023-09-26 The moving inspiring David and Goliath true story of freedom and justice involving one tiny nation in the Indian Ocean off the coast of Africa and the extraordinary woman a descendant of slaves who dared to take on the Crown and the United Kingdom and win a historic victory In 1973 on the Chagos Islands off the coast of Africa Liseby Elyse twenty years old newly married and four months pregnant was rounded up along with the entire population of Chagos and ordered to pack her belongings and leave her beloved homeland by ship or slowly starve the British had cut off all food supplies Some two thousand people who had lived on the islands of Chagos for generations many the direct descendants of enslaved people brought there from Mozambique and Madagascar in the 18th century by the French and British were deported overnight from their island paradise as the result of a secret decision by the British government to provide the United States with land to construct a military base in the Indian Ocean For four decades the government of Mauritius fought for the return of Chagos Three decades into the battle Philippe Sands became the lead lawyer in the case designing its legal strategy and assembling a team of lawyers from Mauritius Belgium India Ukraine and the U S When the case finally reached the World Court in the Hague Sands chose as

the star witness the diminutive Liseby Elyse now sixty five years old and instructed her to appear before the court speaking in Kreol to tell the fourteen international judges her story of forced exile The fate of Chagos rested on her testimony The judges faced a landmark decision Would they rule that Britain illegally detached Chagos from Mauritius Would Liseby Elyse sway the judges and open the door allowing her and her fellow Chagossians to return home or would they remain exiled forever Philippe Sands writes of his own journey into international law and that of the World Court in the Hague and of the extraordinary decades long quest of Liseby Elyse and the people of Chagos in their fight for justice and a free and fair return to the idyllic land of their birth

The Last Language on Earth Piers Kelly, 2021-12-31 The Last Language on Earth is an ethnographic history of the disputed Eskayan language spoken today by an isolated upland community living on the island of Bohol in the southern Philippines After Eskaya people were first discovered in 1980 visitors described the group as a lost tribe preserving a unique language and writing system Others argued that the Eskaya were merely members of a utopian rural cult who had invented their own language and script Rather than adjudicating outsider polemics this book engages directly with the language itself as well as the direct perspectives of those who use it today Through written and oral accounts Eskaya people have represented their language as an ancestral creation derived from a human body Reinforcing this traditional view Piers Kelly's linguistic analysis shows how a complex new register was brought into being by fusing new vocabulary onto a modified local grammar In a synthesis of linguistic ethnographic and historical evidence a picture emerges of a coastal community that fled the ravages of the U S invasion of the island in 1901 in order to build a utopian society in the hills Here they predicted that the world's languages would decline leaving Eskayan as the last language on earth Marshalling anthropological theories of nationalism authenticity and language ideology along with comparisons to similar events across highland Southeast Asia Kelly offers a convincing account of this linguistic mystery and also shows its broader relevance to linguistic anthropology Although the Eskayan situation is unusual it has the power to illuminate the pivotal role that language plays in the pursuit of identity building and political resistance
