Series THCS conference on Terror that took place in May 2008 The international scope of the conference drew participants from twenty three countries including Brazil Columbia Cuba France Israel Lebanon Lithuania New Zealand Nigeria Pakistan the Philippines Scotland Singapore South Africa Turkey and the United Kingdom The thirty five essays presented here are a representative sample of the interdisciplinary discussion which sought to analyze popular concepts like terrorism and terrorist as social political and psychosocial phenomena Engaging Terror seeks to reveal the diverse forms of terror that persist in contemporary societies For instance cultural forms such as the fine arts film literature mass media religion and market economy continue to define and limit rationality and freedom through institutionalized forms of terror In this way terror shapes our experiences not only through the politics of nation building and international relations but also through the social and ideological production of fear in everyday life Topics covered in this volume include the representation and production of terror from a multiplicity of sites ranging from mental health practices and organized religion to news coverage and musical scores This book will appeal to both scholars and general readers interested in how seemingly benign forms of terror shape and maintain the contemporary human condition Reaching beyond mainstream studies on terror as simply an international political phenomenon this interdisciplinary collection of work multiplies the fields of critical research to broaden the scope of analysis and fundamentally challenge the state of modernity
