**Six Perspectives on the Philippines** George M. Guthrie, 1971 *Six Perspectives on the Philippines. Edited by George M. Guthrie* George McRuer GUTHRIE, 1971 **Six perspectives on the Philippines, ed ,** Development Success in Asia Pacific A.H. Somjee, 1995-08-07 Many new social and economic organizations are emerging in different parts of Asia Pacific which have skillfully adapted western capitalism to suit their own specific requirements They have also put to effective use their own social and cultural values to get the best economic results Japan used its heritage of associated living to overcome adversarial labour and management relations Singapore made use of Confucial emphasis on social discipline and respect for merit to build a meritocratic society Indonesia used its genius for eclecticism to build its own brand of social pragmatism and then used it for economic growth Thailand used the concept of merit in Theravada Buddhism to accelerate economic growth and Malaysia used its own growing pragmatism to balance conflicting ethnic demands The book examines the variety of address their respective core development issues and simultaneously register an explosive economic growth *Philippine Ethnography* Shiro Saito, 2019-09-30 This volume is a comprehensive listing of reference sources for Philippine ethnology excluding physical anthropology and de emphasizing folklore and linguistics It is published as part of the East West Bibliographic Series This listing includes books journal articles mimeographed papers and official publications selected on the basis of the ratings of sixty two Philippine specialists Several titles were added to fill the need for material in certain areas **Environment, Scarcity, and Violence** Thomas F. Homer-Dixon, 2010-07-01 The Earth s human population is expected to pass eight billion by the year 2025 while rapid growth in the global economy will spur ever increasing demands for natural resources The world will consequently face growing scarcities of such vital renewable resources as cropland fresh water and forests Thomas Homer Dixon argues in this sobering book that these environmental scarcities will have profound social consequences contributing to insurrections ethnic clashes urban unrest and other forms of civil violence especially in the developing world Homer Dixon synthesizes work from a wide range of international research projects to develop a detailed model of the sources of environmental scarcity He refers to water shortages in China population growth in sub Saharan Africa and land distribution in Mexico for example to show that scarcities stem from the degradation and depletion of renewable resources the increased demand for these resources and or their unequal distribution He shows that these scarcities can lead to deepened poverty large scale migrations sharpened social cleavages and weakened institutions And he describes the kinds of violence that can result from these social effects arguing that conflicts in Chiapas Mexico and ongoing turmoil in many African and Asian countries for instance are already partly a consequence of scarcity Homer Dixon is careful to point out that the effects of environmental scarcity are indirect and act in combination with other social political and economic stresses He also acknowledges that human ingenuity can reduce the likelihood of conflict particularly in countries with efficient markets capable states and an educated populace But he argues that the violent consequences of scarcity

should not be underestimated especially when about half the world's population depends directly on local renewables for their day to day well being In the next decades he writes growing scarcities will affect billions of people with unprecedented severity and at an unparalleled scale and pace Clearly written and forcefully argued this book will become the standard work on the complex relationship between environmental scarcities and human violence **Building Party Systems in**
