Smith,2006-08-11 The sketch is a window into the architects mind As creative designers architects are interested in how other architects particularly successful ones think through the use of drawings to approach their work Historically designers have sought inspiration for their own work through an insight into the minds and workings of people they often regard as geniuses This collection of sketches aims to provide this insight Here for the first time a wide range of world famous architects sketches from the Renaissance to the present day can be seen in a single volume The sketches have been selected to represent the concepts or philosophies of the key movements in architecture in order to develop an overall picture of the role of the sketch in the development of architecture The book illustrates the work of designers as diverse as Andrea Palladio Erich Mendelsohn Sir Edwin Lutyens Gianlorenzo Bernini Le Corbusier Michelangelo Alvar Aalto Sir John Soane Francesco Borromini Walter Gropius and contemporary architects Tadao Ando Zaha Hadid and Frank Gehry to name but a few Each chronologically placed sketch is accompanied by text providing details about the architect s life a look at the sketch in context and the connection to specific buildings where appropriate Style media and meaning are also discussed developing an explanation of the architect s thinking and intentions As creative designers themselves architects are interested in how other architects particularly successful ones think and draw and approach their work Historically designers have sought inspiration for their own work through an insight into the minds and workings of people they often regard as geniuses This collection of sketches aims to provide this insight Listed chronologically each sketch will be accompanied by a text which provides A short synopsis history of the architect s life a look at the sketch in this context the connection to a specific building where appropriate techniques of the sketch style and media meaning what the sketch shows about the architect s thinking and intentions followed by a select bibliography for each section **The Ten Most Influential Buildings in**

History Simon Unwin,2016-07-07 Even the most inventive and revolutionary architects of today owe debts to the past often to the distant past when architecture really was being invented for the first time Architects depend on their own imaginations for personal insights and originality but their ideas may be stimulated consciously or subliminally by particularly powerful buildings from history The Ten Most Influential Buildings in History Architecture s Archetypes identifies ten architectural archetypes that have been sources of inspiration for architects through the centuries Each archetype is analysed through distinctive examples following the methodology established by the author in his previous books The variety of lines of enquiry each archetype has provoked in latter day architects are then explored by analysing their work to reveal ideas inspired by

those earlier buildings Archetypes have a timeless relevance In adopting this approach The Ten Most Influential Buildings in History is as pertinent to contemporary practice as it is to understanding buildings from antiquity and offers insights into the bridges of influence that can operate between the two *The Architectural Drawings of Alvar Aalto, 1917-1939: Buildings and projects, 1917-1926; v.2 Muurame Church, Southwestern Finland Agricultural Cooperative Building, and other buildings and projects, 1926-1927; v.3 Viipuri City Library, Turun Sanomat Building, and other buildings and projects, 1927-1929; v.4 Paimio Tuberculosis Sanatorium, City of Turku 700th anniversary exhibition, standard furniture, and other buildings and projects, 1929-1930; v.5 Helsinki Stadium, Zagreb Central Hospital, and other buildings and projects, 1930-1932; v.6 Aalto's own home in Helsinki, Finnish Pavilion at the 1937 World's Fair in Paris, and other buildings and projects, 1932-1937; v.7 Buildings and plans for the A.
