## **Snapping Lines Stories:**

**Snapping Lines** Jack López, 2001-01-01 A construction worker takes up with the pregnant daughter of an acquaintance and finds he doesn't control the relationship as much as he thinks he does A couple searches for a lost dog along the beach because the dog is more important than their relationship A drunken man picks up a girl hitchhiker and remembers what it once felt like to have feelings for someone else What does it mean to be male in a world in which old borders no longer exist How can a man have a relationship if he doesn't even know who he is and what better way to find out than by committing to a woman Snapping Lines brings familiar and new stories together in a collection that explores the lives of loners searching for love Jack Lopez writes about people who have adopted a stoical indifference to a world in which they always seem to find themselves on the losing end These stories explore Latino male identity and the forces that shape it friends family and lovers culture place and relationships They focus on men often workingmen in the building trades who construct their lives through their work and live in perpetual limbo because they don't know who they are Men who stumble onto the relationships they need almost by accident Men who try to control their relationships but fail Written in spare electric language and energized by memorable scenes these stories enlighten as much as they entertain When you have read Snapping Lines you will come to see the faces of strangers in new and familiar ways

*The Wreck Of The Edmund Fitzgerald - A Short Story* T. M. Bilderback, 2025-01-01 David Rudolph and Jacky Baker are a couple of the best commercial fishermen around the Oregon coast The two men get lucky and sign aboard the two hundred twenty foot fishing vessel the Edmund Fitzgerald II Sailing with a crew of ten the ship sails through radioactive waters in the Pacific that had been carried by currents from the Fukushima nuclear accident in Japan Using the latest and most sensitive Geiger counters available for underwater use the captain of the Fitzgerald II is determined that his catch will be safe for human consumption After a day full of good catches however the good ship and crew encounter something they didn't expect Something in the water Something big Inspired by the hit song by Gordon Lightfoot *The Wreck Of The Edmund Fitzgerald* by T M Bilderback is full of thrilling sci fi excitement Ad Quadratum Nancy Y. Wu, 2017-03-02 The purpose of the project is to provide the most up to date survey on issues dealing with practical geometry and how it might have been applied in the design of medieval architecture Chronologically the topics cover a wide span from early Medieval through Late Gothic Geographically the monuments under discussion range from Early Medieval Florence through Carolingian Germany Crusader Cyprus Romanesque France and Gothic England The applications of both geometry and metrology are considered in this

volume often with illustrations generated by computer assisted design CAD software The project therefore offers recent scholarship in the field as well as cutting edge technology which helps propel the pursuit of such studies To this end the project is the first of its kind both in terms of its focus and its comprehensiveness Such a project is sorely needed to introduce this highly specialized discipline to other historians of art history and science of the Middle Ages as well as historians in most humanistic areas
