Snow Red:

Snow Red Ellis Leigh, 2021-10-05 Kinship Cove protects their own and is a popular spot for fairy tale heroes heroines and even a villain or two Welcome to the Kinship Cove library where the sassy library clerk is about to have all her secrets exposed during story hour Siamese cat shifters are known to be chatty but I don't always live up to that stereotype mostly because talking means telling secrets That's not what I should be doing I may have run away from my own version of the evil queen to hide among the shifters of Kinship Cove but that doesn't mean I'm safe quiet yet Mirror Mirror on the wall how can I hide from my past when my fated mate is going to hunt to uncover it all **Edgar Snow** John Maxwell

Hamilton, 2003-09-25 Edgar Snow 1905-1972 was one of the most notable Western journalists to report on China in both the revolutionary and postrevolutionary periods He first became famous in the mid 1930s when he broke through a Nationalist blockade and reached the Communists in northwest China For nearly a decade no foreign reporter had seen the Communists who were widely regarded as a ragtag bandit army Snow took them seriously as a national movement His reporting in the now famous book *Red Star over China* was major news even to the Chinese thousands of whom joined the Communists after reading it It has remained a seminal reference on the early Chinese Communist movement In this award winning biography journalist John Maxwell Hamilton follows Snow from his birth in Kansas City to his rise as a celebrated foreign correspondent for the *Saturday Evening Post* his ostracism during the cold war and his role as a singular journalistic bridge between Communist China and the United States With a new preface by the author this revealing portrait of the widely misunderstood Snow firmly establishes him as a model for the kind of committed reporting that is crucial to understanding our interdependent world *Red and Near-infrared Spectral Reflectance of Snow* H. W. O'Brien, R. H. Munis, Richard H.

Munis, 1975 The spectral reflectance of snow in the range of 0.60 to 2.50 micrometers wavelengths was studied in a cold laboratory using natural snow and simulated preparations of snow A white barium sulfate powder was used as the standard for comparison The high reflectance usually nearly 100% of fresh natural snow in the visible wavelength declines rapidly at wavelengths near and beyond 0.80 micrometers as the spectral absorption coefficients of ice increase The rate of decline of near infrared reflectance due to aging is strongly affected by the history of the snow during aging Snow aged under certain conditions may retain 90% or so of its reflectance in the visible red yet may be only about 10% as reflective as the original fresh snow beyond 2.2 micrometers Several environmental factors such as ambient temperature and wind effects which contribute to the variability in snow reflectance are discussed *Blood Red Snow* Günter K. Koschorrek, 2011-04-13 A German soldier recounts his experience serving along the deathly cold Eastern Front fighting the Russian army in World War II Günter Koschorrek wrote his illicit diary on any scraps of paper he could lay his hands on storing them with his mother on infrequent trips home on leave The diary went missing and it was not until he was reunited with his daughter in America some forty years later that it came to light and became *Blood Red Snow* The author's excitement at the first encounter with

the enemy in the Russian Steppe is obvious Later the horror and confusion of fighting in the streets of Stalingrad are brought to life by his descriptions of the others in his unit their differing manners and techniques for dealing with the squalor and death He is also posted to Romania and Italy assignments he remembers fondly compared to his time on the Eastern Front This book stands as a memorial to the huge numbers on both sides who did not survive and is some six decades later the fulfilment of a responsibility the author feels to honor the memory of those who perished *Going to the Countryside* Yu Zhang,2020-03-03 Since the beginning of the twentieth century modern Chinese intellectuals reformers revolutionaries leftist journalists and idealistic youth had often crossed the increasing gap between the city and the countryside which made the act of going to the countryside a distinctively modern experience and a continuous practice in China Such a spatial crossing eventually culminated in the socialist state program of down to the villages movements during the 1960s and 1970s What then was the special significance of going to the countryside before that era *Going to the Countryside* deals with the cultural representations and practices of this practice between 1915 and 1965 focusing on individual homecoming rural reconstruction revolutionary journeys to Yan an the revolutionary going down to the people as well as going to the frontiers and rural hometowns for socialist construction As part of the larger discourses of enlightenment revolution and socialist industrialization going to the countryside entailed new ways of looking at the world and ordinary people brought about new experiences of space and time initiated new means of human communication and interaction generated new forms of cultural production revealed a fundamental epistemic shift in modern China and ultimately created a new aesthetic social and political landscape As a critical response to the urban turn in the past few decades this book brings the rural back to the central concern of Chinese cultural studies and aims to bridge the city and the countryside as two types of important geographical entities which have often remained as disparate scholarly subjects of inquiry in the current state of China studies Chinese modernity has been characterized by a dual process that created problems from the vast gap between the city and the countryside but simultaneously initiated constant efforts to cope with the gap personally collectively and institutionally The process of crossing two distinct geographical spaces was often presented as continuous explorations of various ways of establishing the connectivity interaction and relationship of these two imagined geographical entities *Going to the Countryside* argues that this new body of cultural productions did not merely turn the rural into a constantly changing representational space most importantly the rural has been constructed as a distinct modern experiential and aesthetic realm characterized by revolutionary changes in human conceptions and sentiments *Colorado Curiosities* Pam Grout,2010-01-06 Your round trip ticket to the wildest wackiest most outrageous people places and things the Centennial State has to offer **Red Friends** John Sexton,2023-02-21 China s resistance to Imperial Japan was the other great internationalist cause of the red 1930s along with the Spanish Civil War These desperate and bloody struggles were personified in the lives of Norman Bethune and others who volunteered in both conflicts The story of Red Friends starts in

the 1920s when encouraged by the newly formed Communist International Chinese nationalists and leftists united to fight warlords and foreign domination John Sexton has unearthed the histories of foreigners who joined the Chinese revolution He follows Comintern militants journalists spies adventurers Trotskyists and mission kids whose involvement helped and sometimes hindered China's revolutionaries Most were internationalists who while strongly identifying with China's struggle saw it as just one theatre in a world revolution The present rulers in Beijing however buoyed by China's powerhouse economy commemorate them as foreign friends who aided China's peaceful rise to great power status Red Friends is part of Verso's growing China list which includes China's Revolution in the Modern World and China in One Village Founded on original research it is a stirring story of idealists struggling against the odds to found a better future The author's interviews with survivors and descendants add colour and humanity to lives both heroic and tragic **Southern Snow**
