Inequalities in Schools and Learning Communities: Innovative Education for a New Century Rocio

Garcia-Carrion, Roseli Rodrigues De Mello, Arnetha F. Ball, 2020-03-24 Educational inequalities have strongly impacted disadvantaged and underserved populations such as indigenous Roma migrant children students with disabilities and those affected by poverty A wide array of research has contributed to explaining the mechanisms and effects of inequalities in the achievement patterns dropout rates disengagement in the school experiences of children and youth traditionally excluded Research also suggests the negative consequences for child development including cognitive language and social emotional functioning of poverty and lack of quality education in the early years Consequently the current unequal access to optimal learning environments for every single child to succeed in education and to have a better life perpetuates the exclusion and neglects their right to education for those minorities This Research Topic aims at moving beyond causes and shed light upon effective solutions by providing successful pathways for integration and inclusion of the learners most heavily affected Scholars worldwide are looking for successful actions with children youth and communities of learners historically underserved to overcome educational and social exclusion These transformative approaches go beyond the deficit thinking and are grounded in theories empirical evidence and multidisciplinary interventions oriented towards achieving social impact which refers to the extent to which those actions have contributed to improve a societal challenge The international network of Schools as Learning Communities is advancing knowledge on deepening and expanding the impact of what has been defined as Successful Educational Actions SEAs that is those interventions that improve students achievement and

social cohesion and inclusion in many diverse contexts regardless the socioeconomic national and cultural environment of schools Drawing on the evidence generated by this network of researchers to address the global challenge of inequality by studying educational actions oriented towards achieving social impact and potentially transferrable to other contexts this Research Topic aims at deepening on this approach In short our purpose is that the contributions included in this Research Topic contribute to reduce educational and social inequalities and especially benefit those populations most in need

Language Disorders from Infancy Through Adolescence Rhea Paul, 2007-01-01 This text provides students with the information needed to properly assess childhood language disorders and decide appropriate treatments The book covers language development from birth to adolescence Essentials of Positive Psychology Dr. R. Sengamalam, Positive psychology is a branch of psychology that focuses on the positive aspects of human experience and behaviour aiming to enhance well being and promote flourishing Traditional psychology has often focused on treating mental illness and dysfunction whereas Positive psychology emerged to provide a more holistic understanding of human nature by studying positive emotions strengths and virtues As societies progress there is an increasing recognition that measuring progress solely through economic indicators is insufficient Positive psychology addresses the need to enhance overall life satisfaction and happiness Positive psychology aims to improve the quality of life by focusing on aspects such as happiness life satisfaction and the overall well being of individuals and communities By emphasizing positive emotions relationships and individual strengths positive psychology can contribute to preventing mental health issues and promoting resilience Positive psychology is not only about treating issues but also about optimizing human performance It explores how individuals and organizations can thrive and achieve their full potential Positive psychology is essential in the present scenario as it provides a comprehensive framework for understanding and enhancing the positive aspects of human life Its application extends to various domains contributing to individual well being organizational success and societal progress In order to realize the importance of this branch of psychology I made myself to contribute this small work by combining others thoughts and views through their conceptual understanding and a few studies in this area to some extent
