Social Control In Europe 1500 1800 The History Of Crime And Criminal Justice:

Social Control in Europe: 1500-1800 Herman Roodenburg, 2004 This first volume of a two volume collection of essays provides a comprehensive examination of the idea of social control in the history of Europe The uniqueness of these volumes lies in two main areas First the contributors compare methods of social control on many levels from police to shaming church to guilds Second they look at these formal and informal institutions as two way processes Unlike many studies of social control in the past the scholars here examine how individuals and groups that are being controlled necessarily participate in and shape the manner in which they are regulated Hardly passive victims of discipline and control these folks instead claimed agency in that process accepting and resisting and thus molding the controls under which they functioned The essays in this volume focus on the interplay of ecclesiastical institutions and the emerging states examining discipline from a bottom up perspective Book jacket

working class communities in nineteenth and twentieth century Europe were subjected to forms of discipline in the workplace by the church and by philanthropic housing organizations It notes also how the communities themselves generated their own forms of internal control Part two of volume 2 focuses on various policing institutions exploring in particular the question of how liberal and totalitarian regimes differed in their styles of control repression and surveillance

Sanne Muurling,2020-12-15 Female protagonists are commonly overlooked in the history of crime especially in early modern Italy where women s scope of action is often portrayed as heavily restricted This book redresses the notion of Italian women s passivity arguing that women s crimes were far too common to be viewed as an anomaly Based on over two thousand criminal complaints and investigation dossiers Sanne Muurling charts the multifaceted impact of gender on patterns of recorded crime in early modern Bologna While various socioeconomic and legal mechanisms withdrew women from the criminal justice process the casebooks also reveal that women as criminal offenders and savvy litigants had an active hand in keeping the wheels of the court spinning **Norbert Elias in Troubled Times** Florence Delmotte,Barbara

Churchill,2017-12-29 The history of modern crime control is usually presented as a narrative of how the state wrested control over the governance of crime from the civilian public Most accounts trace the decline of a participatory discretionary culture of crime control in the early modern era and its replacement by a centralized bureaucratic system of responding to offending The formation of the new professional police forces in the nineteenth century is central to this narrative henceforth it is claimed the priorities of criminal justice were to be set by the state as ordinary people lost what authority they had once exercised over dealing with offenders This book challenges this established view and presents a fundamental reinterpretation of changes to crime control in the age of the new police It breaks new ground by providing a highly detailed empirical analysis of everyday crime control in Victorian provincial cities revealing the tremendous activity which ordinary people displayed in responding to crime alongside a rich survey of police organization and policing in practice With unique conceptual clarity it seeks to reorient modern criminal justice history away from its established preoccupation with state systems of policing and punishment and move towards a more nuanced analysis of the governance of crime More widely the

book provides a unique and valuable vantage point from which to rethink the role of civil society and the state in modern governance the nature of agency and authority in Victorian England and the historical antecedents of pluralized modes of crime control which characterize contemporary society **Making Murder Public** K. J. Kesselring, 2019-01-31 Homicide has a history In early modern England that history saw two especially notable developments one the emergence in the sixteenth century of a formal distinction between murder and manslaughter made meaningful through a lighter punishment than death for the latter and two a significant reduction in the rates of homicides individuals perpetrated on each other Making Murder Public explores connections between these two changes It demonstrates the value in distinguishing between murder and manslaughter or at least in seeing how that distinction came to matter in a period which also witnessed dramatic drops in the occurrence of homicidal violence Focused on the politics of murder Making Murder Public examines how homicide became more effectively criminalized between 1480 and 1680 with chapters devoted to coroners inquests appeals and private compensation duels and private vengeance and print and public punishment The English had begun moving away from treating homicide as an offence subject to private settlements or vengeance long before other Europeans at least from the twelfth century What happened in the early modern period was in some ways a continuation of processes long underway but intensified and refocused by developments from 1480 to 1680 Making Murder Public argues that homicide became fully public in these years with killings seen to violate a king's peace that people increasingly conflated with or subordinated to the public peace or public justice **Homicide in Pre-famine and Famine Ireland** Richard McMahon (Research fellow), 2013 The book provides a quantitative and contextual analysis of homicide in pre Famine and Famine Ireland placing the Irish experience within a comparative framework and drawing wider inferences about the history of interpersonal violence in Europe and beyond **Encyclopedia of Historians and Historical Writing** Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies **Crime, Society and the Law in Renaissance Italy** Trevor Dean, K. J. P. Lowe, 1994-04-14 Drawing on a wide body of internationally renowned scholars including a core of Italians this volume focuses on new material and puts crime and disorder in Renaissance Italy firmly in its political and social context All stages of the judicial process are addressed from the drafting of new laws to the rounding up of bandits Attention is paid both to common crime and to more historically specific

crimes such as sumptuary laws Attempts to prevent or suppress disorder in private and public life are analysed and many different types of crime from the sexual to the political and from the verbal to the physical are considered In sum the volume aims to demonstrate the fundamental importance of crime and disorder for the study of the Italian Renaissance It is the only single volume treatment available of the subject in English Other books have studied crime in a single city or single types of crime but few have presented a cross section of articles which deploy diverse methodological approaches in material from many parts of the peninsula

Gender and Petty Violence in London, 1680-1720 Jennine Hurl-Eamon, 2005 Looking at a heretofore overlooked set of archival records of London in the late 17th and early 18th centuries Hurl Eamon reassesses the impact of gender on petty crime and its prosecution during the period This book offers a new approach to the growing body of work on the history of violence in past societies By focusing upon low cost prosecutions in minor courts Hurl Eamon uncovers thousands of assaults on the streets of early modern London Previous histories stressing the masculine nature of past violence are questioned here women perpetrated one third of all assaults In looking at more mundane altercations rather than the homicidal attacks studied in previous histories the book investigates violence as a physical language with some forms that were subject to gender constraints but many of which were available to both men and women Quantitative analyses of various circumstances surrounding the assaults including initial causes weapons used and injuries sustained outline the patterns of violence as a language Hurl Eamon also stresses the importance of focusing on the prosecutorial voice In bringing the court s attention to petty attacks thousands of early modern men and women should be seen as agents rather than victims This view is especially interesting in the context of domestic violence where hundreds of wives and servants prosecuted patriarchs for assault and in the Mohock Scare of 1712 where London s populace rose up in opposition to aristocratic violence The discussion is informed by a detailed knowledge of assault laws and the rules governing justices of the peace
