Social Identifications A Social Psychology Of Intergroup Relations And Group Processes:

Social Identifications Dominic Abrams, Michael A. Hogg, 2006-06-07 The authors of *Social Identifications* set out to make accessible to students of social psychology the social identity approach developed by Henri Tajfel, John Turner and their colleagues in Bristol during the 1970s and 1980s. Michael Hogg and Dominic Abrams give a comprehensive and readable account of social identity theory as well as setting it in the context of other approaches and perspectives in the psychology of intergroup relations. They look at the way people derive their identity from the social groups to which they belong and the consequences for their feelings, thoughts and behaviour of psychologically belonging to a group. They go on to examine the relationship between the individual and society in the context of a discussion of discrimination, stereotyping and intergroup relations, conformity and social influence, cohesiveness and intragroup solidarity, language and ethnic group relations and collective behaviour. *Social Identifications* fills a gap in the literature available to students of social psychology. The authors' presentation of social identity theory in a complete and integrated form and the extensive references and suggestions for further reading they provide will make this an essential source book for social psychologists and other social scientists looking at group behaviour.

Behaving as a Christ-Believer Rikard Roitto, 2021-12-02 This study contributes to the understanding of how first-century Christ-believers, particularly those who shared the imagination of Ephesians, experienced the relation between their social identity as Christ-believers and behavior norms. In order to understand this, a number of theories from the cognitive sciences are used in combination with historical-critical methods. After a theoretical survey of relevant cognitive theories and discussions about the epistemological problems of using cognitive theories on historical texts, the theories are used to understand how Ephesians imagine the relation between identity and behavior norms and b) the potential group-dynamic effects of this imagination. The result is a demonstration of how Ephesians are able to create a coherent narrative beginning with God's agency and ending with behavior norms and facilitating psychological and group-dynamic effects such as intergroup distinction, self-esteem, cognitive certainty and consensus among group members, intragroup cooperation, moral judgment and inclusion, marginalization, motivation to remain committed and last but not least a sense of capacity and

Migrants and Their Children in Britain Anthony Heath, 2016-01-22. Do second generation ethnic minorities, those born and brought up in Britain, increasingly adopt British attitudes, values, and ways of life, or do they, as some commentators have claimed, remain isolated from the mainstream? This study maps the extent of generational change among Britain's ethnic minority population and explores the underlying processes involved. It asks whether generational change has been in the direction of greater integration, or whether some minorities have been slower to integrate, perhaps as a result of the prejudice and discrimination from the white British that they have encountered, or because of desires to maintain ethnic values and resist Western practices. The study draws on the most recent and most authoritative British data to answer these questions. Chapter authors include leading authorities both from Britain and America, including Mary Waters, Harvard; Lucinda Platt, LSE; and Anthony Heath, CBE, Oxford and Manchester, as well as a new generation of young scholars. It will be essential reading both for students and scholars working on ethnic relations and for policy makers and the wider public interested in questions of social cohesion, multiculturalism, and integration. This book was originally published as a special issue of *Ethnic and Racial Studies*.

The chapters include theoretical perspectives and cases from Europe, Canada, the USA, Australia, the Middle East, and Africa.

Let My People Go! Phoebe Chifungu, 2023-08-29. Let My people go and serve Me, regardless of sex, is the ultimate appeal from God. Unfortunately, some cultural practices and wrong interpretations of the Bible have excluded some, especially women, from attaining key leadership roles. Culturally, women are considered second class, and men's property, source of evil, and weaker vessels. A wrong interpretation of the scriptures has sidelined women from obtaining decision-making positions. This is the result of what may be called a One Dimensional

Approach and a recommendation is made to re read the biblical texts as well as Chewa culture and the history of the synod with a Multi Dimensional Approach in which the literary theological rhetorical and historical cultural aspects are all considered because this approach liberates the oppressed and the marginalized The SAGE Encyclopedia of Intercultural Competence Janet M. Bennett,2015-03-23 In 1980 SAGE published Geert Hofstede s Culture s Consequences It opens with a quote from Blaise Pascal There are truths on this side of the Pyrenees that are falsehoods on the other The book became a classic one of the most cited sources in the Social Science Citation Index and subsequently appeared in a second edition in 2001 This new SAGE Encyclopedia of Intercultural Competence picks up on themes explored in that book Cultural competence refers to the set of attitudes practices and policies that enables a person or agency to work well with people from differing cultural groups Other related terms include cultural sensitivity transcultural skills diversity competence and multicultural expertise What defines a culture What barriers might block successful communication between individuals or agencies of differing cultures How can those barriers be understood and navigated to enhance intercultural communication and understanding These questions and more are explained within the pages of this new reference work Key Features 300 to 350 entries organized in A to Z fashion in two volumes Signed entries that conclude with Cross References and Suggestions for Further Readings Thematic Reader s Guide in the front matter grouping related entries by broad topic areas Chronology that provides a historical perspective of the development of cultural competence as a discrete field of study Resources appendix and a comprehensive Index The SAGE Encyclopedia of Intercultural Competence is an authoritative and rigorous source on intercultural competence and related issues making it a must have reference for all academic libraries

Harris,W. Elliot Brownlee,2022-11-09 Carl V Harris s

Segregation in the New South completed and edited by W Elliot Brownlee explores the rise of racial exclusion in late nineteenth century Birmingham Alabama In the 1870s African Americans in this crucial southern industrial city were eager to exploit the disarray of slavery s old racial lines assert their new autonomy and advance toward full equality However most southern whites worked to restore the restrictive racial lines of the antebellum South or invent new ones that would guarantee the subordination of Black residents From Birmingham s founding in 1871 color lines divided the city and as its people strove to erase the lines or fortify them they shaped their futures in fateful ways Social segregation is at the center of Harris s history He shows that from the beginning of Reconstruction southern whites engaged in a comprehensive program of assigning social dishonor to African Americans the same kind of dishonor that whites of the Old South had imposed on Black people while enslaving them In the process southern whites engaged in constructing the meaning of race in the New South

Who Counts as an American? Elizabeth Theiss-Morse, 2009-07-27 Why is national identity such a potent force in people s lives And is the force positive or negative In this thoughtful and provocative book Elizabeth Theiss Morse develops a social theory of national identity and uses a national survey focus groups and experiments to answer these important questions in the American context Her results show that the combination of group commitment and the setting of exclusive boundaries on the national group affects how people behave toward their fellow Americans Strong identifiers care a great deal about their national group They want to help and to be loyal to their fellow Americans By limiting who counts as an American though these strong identifiers place serious limits on who benefits from their pro group behavior Help and loyalty are offered only to true Americans not Americans who do not count and who are pushed to the periphery of the national group

Another Brick in the Barricade: The Gezi Resistance and Its Aftermath Güneş Koç, Harun Aksu, 2015-10-30 After more than two years what has remained of the Gezi Park protests Is Gezi s critique of political power still valid What has changed after Gezi These valid questions linger not properly answered not yet properly discussed Perhaps Gezi s enduring effects and legacy can be discovered in the resistances dissents and practices of political critique that have been created since June 2013 In this book fourteen authors discuss and elaborate on such questions from both political and quotidian perspectives Critique of the power of the multitude the anthropology and

ethnography of resistance the causes effects and continuity of the Gezi Park protests are among the issues covered in *Another Brick in the Barricade: The Gezi Resistance and Its Aftermath*. This book does not offer all explaining narratives of singular objective truths. It does not represent the whole of the multitude. A wide perspective of analyses ranging from political science to sociology psychology to anthropology economics to media studies consider Gezi resistance not only as an exceptional state of resistance but also in terms of the new possibilities it offers for political critique. These possibilities constitute the fieldwork for academic studies which in turn become part of social struggle. This volume seeks to make diversity its distinguishing aspect. The phenomena it considers Gezi and its aftermath requires this. The interdisciplinary approach and variety of discussions in the volume provide not just critique about power and dominance in Turkey but also inspire resistance against domination and power around the world.
