Hauser,David Mechanic,Archibald O. Haller,2013-09-17 Social Structure and Behavior Essays in Honor of William Hamilton Sewell is a collection of 16 essays dealing with the social psychological aspects of schooling and achievement social stratification and mobility measurements and methods and social structures and wellbeing The collection discusses the political dimension of stratification the results of observation of first graders in their reading group assignments against their social background and stereotyping practices held by dominant groups of society Another papers use a causal model to analyze occupational status and earnings of Cuban exiles in the U S other authors discuss the effects of institutionalization of formal employment in Brazil and propose a revision of the Duncan Scale by a more comprehensive set of occupational prestige scale The book also analyzes measurements of ranked preferences using a single latent factor behind the ranked items One authors points that some sociological terms can be misleading in propounding a sound theory when these terms themselves confound what they are supposed to correlate The text also addresses the fundamental problems concerning welfare that include order collective action and consensus This collection of essays can interest social workers sociologists psychologists and researchers involved in community development      *The Methodology of Political Economy* J.I. Bakker,2015-12-24 The importance of the global rural urban matrix is often overlooked due to urban normativity But sometimes agrarian populism and a pastoral rural imaginary result in the equally fallacy of a rural normativity as in Jeffersonian nostalgia for a lost way of life that never existed The nature of rurality in North America is important to study but as Alessandro Bonanno makes clear we cannot limit ourselves to the study of one or two nation states We must take a global perspective when it comes to the bio physical environment and the nature of the world capitalist system This collection takes such a perspective The editor frames the contributions with a Meta Paradigm called the New Political Economy Perspective NPEP and explains the roots of that approach in Classical Political Economy and the Canadian Political Economy Tradition of Harold Adams Innis There are chapters by an anthropologist a geographer two generalist sociologists and a group of rural sociologists There is also a chapter on psychiatry and mental health and another chapter which discusses pedagogy The use of an inter disciplinary framework to study global issues makes this a stimulating book which provides a window on issues that are often overlooked      *Subject Catalog, 1982* Library of Congress,1982      *Annual Review of Gerontology and Geriatrics* M. Powell Lawton,George L.
