Social Anthropology And Language Asa Monographs:

Social Anthropology and Language Edwin Ardener, 1973 **Social Anthropology and Language** University of Sussex, 1971 Providing a critical framework for the consideration of the relationship between modern social anthropology and linguistics this volume covers topics such as classification symbolism and structuralism **Anthropological and historical sciences. Aesthetics and the sciences of art** Jacques Havi, 2019-06-04 No detailed description available for

Social Anthropology and Language Edwin Ardener, 2004 This volume derives mainly from papers presented at a conference on linguistics and social anthropology sponsored by The Association of Social Anthropologists of the Commonwealth and held 9-12 April 1969 at The University of Sussex *Plastic Glasses and Church Fathers* David Kronenfeld, 1996-04-11 Meaning seems to shift from context to context how do we know when someone says grab a chair that an ottoman or orange crate will do but when someone says let's buy a chair they won't Somehow in spite of this slipperiness we usually understand each other in conversations and have straightforward ways of querying each other when we sense a gap in understanding We seem capable of using ordinary language to communicate with as much precision as we are willing to take the time and effort for through attention to interactive feedback and the use of paraphrastic modification specification and explication In *Plastic Glasses and Church Fathers* Kronenfeld offers a theory that explains both the usefulness of language's variability of reference and the mechanisms which enable us to understand each other in spite of the variability His theory is rooted in the tradition of ethnoscience or cognitive anthropology a tradition which promotes an ethnography of explicit methodology and mathematically precise theory while remaining responsive to the complexity of particular cultures Kronenfeld accomplishes three things with his theory First he distinguishes prototypic referents from extended referents Second he describes the various bases of semantic extensions Finally he details how we use the situational context of usage the linguistic context of opposition and inclusion and the conceptual context of knowledge about the world to interpret communicative events

The Social Production of Indifference Michael Herzfeld, 1993-10 In this fascinating book Michael Herzfeld argues that modern bureaucratically regulated societies are no more rational or less symbolic than the societies traditionally studied by anthropologists Drawing primarily on the example of modern Greece and utilizing other European materials he suggests that we cannot understand national bureaucracies divorced from local level ideas about chance personal character social relationships and responsibility He points out that both formal regulations and day to day bureaucratic practices rely heavily on the symbols and language of the moral boundaries between insiders and outsiders a ready means of expressing prejudice and of justifying neglect It therefore happens that societies with proud traditions of generous hospitality may paradoxically produce at the official level some of the most calculated indifference one can find anywhere **Readings in Creole**

Studies Ian F. Hancock, 1979-01-01 Creole studies embrace a wide range of disciplines history ethnography geography

sociology etc The phenomenon of creolization has come to be recognized as widespread creolization presupposes contact and that is a human universal The present anthology discusses social historical and theoretical aspects of over twenty pidgins and creoles Part one deals with general theoretical issues especially those relating to pidgin language formation and expansion Part two deals with those pidgins and creoles lexically related to indigenous African languages and with incipient features of creolization in African languages themselves part three with those related to Romance languages and part four with those related to English Throughout the volume several current debates are taken up including the still unsettled issues of creole language origins and classification

Other Histories Kirsten Hastrup, 2013-01-11 The historization of anthropology has entailed a radically new view upon history and the nature of history This collection of papers from the first conference of the newly formed European Association of Social Anthropologists demonstrate how ways of thinking about history are important features of any production of history and how cultural concepts enter as forces of historical causation

Material culture : critical concepts in the social sciences. Vol. 1 : Pt. 2 Victor Buchli, 2004 Publisher description [Divided Europeans](#)
